Alleged Violator Zip	Tip/Complaint	Violation still occurring?
29704	There is a class action lawsuits for this New Indy stench and it's very overwhelming and has us concerned for our health!!!!	yes
29720	Foul noxious odor causing headache and nausea	yes
29704	Intentional release of hydrogen sulfide and other chemicals which make it impossible to go outside	no
29704	Unable to walk in the neighborhood due to the smell.	yes
29720	Foul acrid odor causing nausea and headache	yes
Unknown	Severe sulfur and chemical smell all day long.	yes
29704	Severe ammonia smell causing severe headache, neck pain, sore throat. Why are you letting people be slowly poisoned!!!!	yes
29704	Terrible smell which is giving me a headache. Please stop this from happening.	yes

29704	<p>The actual day the EPA has a Public Hearing about the proposed consent agreement with New Indy has been an absolutely HORRIBLE day in TreeTops, less that 5 miles from the mill. The monitors indicate no H2S is being emitted, so what is the sweet chemical smell that has replaced it? The proposed agreement with New Indy is woefully inadequate. Come stay at my house for a week. You will get your fill of it! WE ARE VERY TIRED OF BEING ASSAULTED AND BEING TREATED LIKE LAB RATS IN A BAD SCIENCE EXPERIMENT!</p>	no
29730	<p>Atrocious odor and chemicals inside my home. I work from home and canâ€™t leave. The odor is outside, of course, too. It is severe. Please require this plant use proper modern equipment and enforce the Clean Air Act. The suggested Consent Decree is not enough.</p>	yes

29720	<p>You are quite well aware of the New INDY violations. Your meeting last night, in Rock Hill, SC was like watching a Peanuts movie. Your speakers sounded like, "Wah Wah Wah Wah" You KNOW NEW-INDY is spewing voluminous amounts of poison in the air. You KNOW they are dumping thousands of gallons of pollution into the Catawba River. And you KNOW , 3 years of "study" is bunk. How many people have to die, before you stop sleeping at night. Your "experts" fooled no one. Would the DOJ really investigate your criminal incompetence? Or is it deliberate incompetence? Perhaps your experts should live here for 3 years, while you investigate! Don't think you would ever do that to your minions. I had hoped, with the defeat of Trump, ethics and care for the environment would come back to the EPA. I was so wrong.</p>	yes
29704	Terrible smell, very irritating to my sinuses.	yes
29704	Toxic chemicals into the air. Children having a hard time breathing.	yes

29704	Toxic chemicals in the air. This has been going on for a while and many reports have been filed. Children in the neighborhood are having to go to the hospital because of respiratory problems. My children have a hard time being outside when this smell is in the air. We and everyone in the community tries to filter the air in our homes but it's hard to get all of it. I will also get my law firm to look into this violation since the EPA has done nothing.	yes
29704	Feeling so sick with severe headache, sinus pain, runny nose, sore throat. You should all be prosecuted for allowing this to continue to happen.	yes
29704	Release of hydrogen sulfide and other hazardous chemicals into the air which makes it impossible to go outside	yes
29704	Foul odor on a clear day. No wind at all.	yes
29704	Release of hydrogen sulfide and other chemicals which make it impossible to go outside	yes
29704	P	yes
29704	Intentional release of hydrogen sulfide and other hazardous chemicals into the air which make it impossible to go outside and cause shortness of breath	no
29704	The smell has infiltrated the house. I have nowhere else to go and I got a terrible headache due to the smell.	no

29704	Release of hydrogen sulfide and other hazardous chemicals which make it impossible to go outside	no
29704	I got a bad headache from walking outside this morning due to the absolutely terrible smell.	yes
29704	ALL DAY LONG! STILL AWFUL AT 7:00 PM The stench is coming directly from NI (wind from the SW). Just because the monitors are not reporting H2S, does not mean we are not experiencing toxic STENCH! Chemical sweet smoke cannot be good. My headaches, sore throat and nausea tell me! Your Consent AGREEMENT is not adequate, it does not address the crap we are experiencing right now!!!!	no
29704	ALL DAY LONG! STILL AWFUL AT 3:30 PM The stench is coming directly from NI (wind from the SW). Just because the monitors are not reporting H2S, does not mean we are not experiencing toxic STENCH! Chemical sweet smoke cannot be good. My headaches, sore throat and nausea tell me!	no
29704	The stench is coming directly from NI (wind from the SW). Just because the monitors are not reporting H2S, does not mean we are not experiencing toxic STENCH! Chemical sweet smoke cannot be good. My headaches, sore throat and nausea tell me!	no

29704	Toxic chemicals being released into the air. Making people sick and putting us all at risk.	yes
	New Indy in Catawba SC is releasing toxic chemicals into the waterways and air causing serious health and quality of life issues.	yes
29704	Severe ammonia smell causing headache, eyes burning, sore throat, neck pain. Your agency is useless and New Indy is criminal.	yes
29704	Release of hydrogen sulfide and other chemicals into the air which makes it impossible to go outside	yes
29740	Another day of very strong smell from New Indy. The smell is most strong typically between 9 - 11 am, so what ever they are doing during this time is a huge contributor to the problem.	yes
29704	Fumes emitted this morning again. Causing throat and eyes burn, headache and nausea.	yes
29740	I felt nauseous after walking outside due to the intense smell.	yes
29720-0375	Brown Paper Production	no
29707	Foul odor;	no
29720-0375	Foul odor;	no
Unknown	Horridic smell again. We are unable to go outside without being overcome.	yes

29704	Release of hydrogen sulfide and other chemicals which make it impossible to be outside	yes
	New Indy in Catawba SC is releasing TOXIC chemicals into the air and waterways causing serious health and quality of life issues.	yes
29704	The smell from this company is terrible this morning. The smell is inside the house and I'm getting a headache. I have nowhere to go. Please help stop this smell!	yes
Unknown	Releasing chemicals into the air. Could smell severe toxic odor In Waxhaw NC, Ballantyne NC, Monroe NC.	yes
29729	Sweet chemical smell once I got off the highway for about 3 miles south. New Indy's stench doesn't usually doesn't come down this far	no
	There's a horrible smell filling the air. Makes it hard to breath, burning nose, eyes, nauseating odor.	yes
29704	Toxic air affecting surrounding areas, filling homes and making harder to breath. Chocking and feeling sick.	yes
29704	Stench so strong that it seeped inside my home and woke me from sleeping causing nausea and burning respiratory sensation. Please monitor for more than just hydrogen sulfide.	no
29720	Foul acrid odor causing nausea and headache- permeating into house	yes

29704	The smell is terrible. I'm working from home and have a headache because the smell is now inside the house. The whole area stinks. Unable to concentrate.	yes
	New Indy in Catawba SC is releasing toxic chemicals into the air and waterways causing serious health and quality of life issues.	yes
29707	I was woken up at 3am by an awful smell INSIDE of my home, the smell caused a headache and I was not able to sleep. My 3 year old daughter woke up coughing with a bloody nose and my 1 year old woke up with pink eyes. Disgusting.	yes
29704	Severe ammonia smell causing headache, face pain and pressure, neck pain, nosebleed, eyes burning, fatigue. Why are you continuing to allow this company to poison thousands of people!?	yes
29704	Rotten egg stench that you cannot escape	yes
Unknown	Fumes from the new company that recently switched to producing cardboard. Release into the air. I am located in Indian Land SC and can smell it at my home outside. It smells like rotten eggs. When I go outside the smell, and then eyes get irritated and start to burn and get nauseated.	yes

29704	Inadequate stripper and dumping at the plant releasing toxic smell that covers multiple counties in 2 states. The toxic air is smothering my neighborhood this morning. The severity awakened me with throat burning as it has permeated our home!	yes
29704	Rotten odor combined with chemical "masking" scent continues to be emitted from the plant after 1 year of reporting this problem.	no
Unknown	Millionaires at the New Indy Paper Mill continuing to poison the citizens of NC and SC, forcing residents to be unable to leave their own homes due to the HORRIFIC smell and inevitable cancer risk. This company is DESPICABLE.	yes
29704	Release of hydrogen sulfide and other dangerous chemicals affecting my health and 5,000 others in both SC and NC.	yes
	Our neighborhood smells so badly we can't be outside!	yes
29704	Brown Paper processing for container board.	yes
	Air is so full of Hydrogen Sulfide today cannot go outside, stripper at this plant must be updated to meet current production!!!!!!!!!!	yes
29704	Very strong smell in the air.	yes
29704	Headaches, sore throat, nosebleed, neck pain, sinus pain. This company is criminal and you keep allowing it to happen!	yes

29720	Foul,sharp odor permeating into house causing nausea and headache	no
29704	From 7 to 8 pm tonight the chemical smell is being mixed with a burnt stench. How can this possibly be good for humans? When will the monitors be updated to reflect ALL of the toxins, not just H2S? !!	no
Unknown	Strong sulfur and chemical mixed smell. Very overpowering.	yes
29704	When will this stop? I cannot understand why the monitors are not picking up the stench! Maybe because it is not H2S anymore? This is just wrong. All of the toxins need to be tracked. Winds from NI, NOT the local sewer plant!	no
	New Indy in Catawba SC is releasing TOXIC chemicals into the air and waterways causing serious health and quality of life issues.	yes
Unknown	Overwhelming chemical smell this morning.	yes

29720	<p>New Indy is way out of compliance with respect to dealing with their dioxin levels in their numerous sludge ponds. This is public record and the EPA should immediately order a cease and desist ruling until further comprehensive testing is done. I have witnessed full-scale plants in Germany and Switzerland that actually prevent the formation of dioxins via a technology that Dow Chemical licensed in 1994. These plants in Europe are in my opinion the BAT to combat dioxins and should be investigated by representatives of the EPA. Dioxins are currently discharged into the Catawba River a major drinking source for hundreds of thousands in the Charlotte, Rock Hill, Lancaster SC region not to mention the Catawba Indians eat the fish from the river. I also note the discharge point into the Catawba is directly across the river from the water intake plant for York County. This is egregious and should be stopped immediately by the EPA until further investigations can show the real issues beyond H2S</p>	yes
29704	Strong smell of hydrogen sulfide.	no
	Smells like nail polish.	yes
Unknown	Strong rotten egg smell.	yes

29704	Intolerable odor from this paper plant today. Had to leave my house today because of the stench. Please enforce a solution that isn't merely attempting to cover the sludge with hydrogen peroxide. It's not a proper fix. Smells like pure rot today both days it smells like rotten wintergreen (hydrogen peroxide masking). Please enforce a proper solution and not allow this company to use a chemical to mask the odor. It doesn't work. Please monitor more chemicals than just hydrogen sulfide.	yes
29720	Air pollution/quality	yes
29704	This paper mill continues to treat material with substances that release terrible toxic fumes in the air. Today the smell is unbearable. I am experiencing burning eyes and throat as a consequence and it's barely possible to stay outside. I am located in Fort Mill.	yes
29704	Smell of rotten eggs is intense and nauseating.	yes
29730	Releasing chemicals in the air. The smells range from sewage to rotten eggs at various days and times! The odors will permeate into houses!! I have had burning , itchy eyes to headaches at various timea.	yes
28173	Severe ammonia smell causing headache, neck and face pain and lethargy	yes

Unknown	The stench from the new Indy paper mill plant is giving me headaches and bloody noses	yes
29704	Every time the wind blows from the SSW the smell is terrible and today is one of those days. I'm getting a headache from the smell.	yes
	New Indy in Catawba SC is releasing toxic chemicals into the air and waterways causing serious health and quality of life issues.	yes
29704	I am experiencing irritated sinuses again this morning after walking outside. I assume it is caused by the continuing emission of hydrogen sulfide by the New Indy Paper Mill in Catawba, SC.	yes
29704	From December 24 to January 2, a 10 day period, we have had toxic stench at our home for 8 days. How can that be acceptable to ANYONE! The monitor in my back yard is not recording this assault. It is not tracking the latest poison from New Indy. These monitors must be replaced to track ALL the potential toxins from a paper mill! That should not be so hard to figure out! Remember OSHA standards are not applicable. We cannot escape! We have to live here! The fumes come in through the VENTS! We have not opened a window in a year without fear of health impacts even more severe than those already affecting our bodies!	no

29704	<p>9 days, with 7 days of TOXIC STENCH. The monitor in my back yard is not recording this assault. It is not tracking the latest poison from New Indy. These monitors must be replaced to track ALL the potential toxins from a paper mill! That should not be so hard to figure out! Remember OSHA standards are not applicable. We cannot escape! We have to live here! The fumes come in through the VENTS! We have not opened a window in a year without fear of health impacts even more severe than those already affecting our bodies!</p>	no
29704	<p>Same as last night! Winds are coming from New Indy. We have no other foul-smelling facilities between our home and New Indy, 4.5 miles away! The monitors need to detect whatever this new stench is. Sweet chemical smell any time the winds are SSW or SW at less than 10 MPH it hits my home. Just a reminder, OSHA toxicity standards are for personnel who can LEAVE! WE LIVE HERE! WE CANNOT LEAVE!</p>	no

29704	Winds are coming from New Indy right now. We have no other foul-smelling facilities between our home and New Indy, 4.5 miles away! The monitors need to detect whatever this new stench is. Sweet chemical smell any time the winds are SSW or SW at less than 10 MPH it hits my home. Just a reminder, OSHA toxicity standards are for personnel who can LEAVE! WE LIVE HERE! WE CANNOT LEAVE!	no
Unknown	Ponds on New Indy property emitting noxious odor	yes
unknown	Air pollution - can't breathe outside	no
29720	Foul, rotten egg smell causing nausea and headache-unable to be outside	yes
29704	The smell has been terrible all day.	yes
29704	The stench has been terrible all morning. My sinuses are inflamed. I'm unable to be outdoors.	yes
29720	Release air pollutants	yes
29704	I'm unable to go for a walk in the net this morning due to the smell that is giving me a headache.	yes

29704	<p>Once again and as I suspected based on wind direction, NI is spewing again. I have had a headache and sore throat all week. 2:15 to 3:45 today. THIS HAS TO STOP! The H2S smell is gone, replaced by a sweet chemical smell. When will the monitors be changed to track ALL the toxins? Looking at the future wind direction, we are going to have a TERRIBLE week! What is New Indy doing about all the other toxins they are spewing? I want to remind EVERYONE the experts base their analysis of health risk on WORKPLACES! We have to live here 24/7! We cannot leave! This crap is coming into our homes through the vents! We are being assaulted! Come to MY house! You can stay for a week. Guaranteed you will be sick from it!</p>	no
29704	<p>5:30 to 7:30 on the evening of the 28th. Smells like rotten eggs and then it changes to the sickening sweet chemical toxic stench. I want to remind EVERYONE the experts base their analysis of health risk on WORKPLACES! We have to live here 24/7! We cannot leave! This crap is coming into our homes through the vents! We are being assaulted! The H2S smell is usually gone, now replaced by a sweet chemical smell. When will the monitors be changed to track ALL the toxins?</p>	no

29704	Really bad at 8 PM on this date. The H2S smell is gone, replaced by a sweet chemical smell. When will the monitors be changed to track ALL the toxins? Another headache and a sore throat has begun. Looking at the future wind direction, we are going to have a TERRIBLE week! What is New Indy doing about the other toxins they are spewing? I want to remind EVERYONE the experts base their analysis of health risk on WORKPLACES! We have to live here 24/7! We cannot leave! This crap is coming into our homes through the vents! We are being assaulted!	no
29720	Foul, acrid odor permeating into house causing nausea and headache	yes
29704	Smelled the odor the entire time I was walking in the neighborhood and ended up with a headache.	yes
29704	This TOXIC Hydrogen Sulfide and other chemicals detrimental to humans emitting from this site HAS TO STOP ! We experience this unbreathable pungent odor outside AND inside our home almost EVERYDAY and cannot get outside our homes because it makes us sick to our stomach and causes a headache within 5 minutes of breathing the smell ! Why are they ABOVE THE LAW and ALLOWED to adversely affect the health and well-being of ALL the surrounding communities everyday ??	yes

29720	Foul odor inducing headache and nausea	no
29720	Stink from mill	yes
29704	The smell has been bad for the past week. I'm unable to go outside most of the time without getting a headache.	yes
29720	Horrible stench	yes
29704	The smell from this company is absolutely terrible. It is coming in the house. There is no where to go to get relief from this smell. My head and sinuses are hurting. This company needs to get this smell under control.	yes
29720	Containerboard company regular operations. This report encompasses Dec 24, Dec 27 and Dec 28, 2021. You have no provision on this form to change the date.	yes
29704	Releasing extreme toxins into our air,water,and land. December 24th, Christmas Eve was horrible	yes
Unknown	Strong chemical smell even with rain moving in.	yes
29704	This week has been terrible. The smell is making it to where I'm unable to go outside for any length of time. I tried to walk this morning and had to turn around because I was getting a headache due to the smell.	yes
29720	Sharp, foul odor causing nausea and headache	yes

29707	This is constant an ongoing and I do not have the time to report everyday. Some days it is worse than others. This is a known issue and it is allowed to continue	yes
29704	Noxious odor emanates from this plant on almost a daily basis. usually it is just a bad smell, but sometimes it is very strong and irritating affecting my lungs, making me cough and giving me a headache. The smell was particularly offensive on 12/24/2021 lasting most of the day. Even my house smelled on the inside. This place needs to be fined heavily into compliance. People have been complaining about this ever since they shifted from paper production to cardboard. What is the EPA doing to protect us?	yes
29704	Severe ammonia smell causing headaches, neck pain, eye irritation and sore throat. The fact that the EPA and SCDHEC are doing nothing is criminal.	yes
Unknown	Terrible. So sick of this smell	yes
29704	This stink has been nauseating all day today. So sick I had to go to bed. When will this end? Cannot open windows as the stink permeates the house even with windows closed.	yes

29704	This stink has been nauseating all day today. So sick I had to go to bed. When will this end? Cannot open windows as the stink permeates the house even with windows closed.	yes
29704	Severe smell from H2S and other chemicals causing eyes to water and headache.	yes
29720	Foul smell permeating into house causing nausea and headache-unable to tolerate	yes
29720	Please thank New Indy Container for not poisoning us on Christmas Day. As for day, they are poisoning us again. Great idea for 2022, how about you all do your job and shut these bastards down.	yes
29720	Foul odor causing nausea, headache-unable to tolerate being outside	no
29704	Severe ammonia smell causing headache, sore throat, eye burning to my family on Christmas. It's criminal and no one is doing anything!	yes
29704	This foul air we have been experiencing all year. Enough is enough. Many of us have family/ friends from out of state, that we have not seen in so long due to Covid ,for the Holidays. We cannot be outside due to the putrid smell. I could cry that this Company is so heartless. Spoiled our Christmas we have been planning for so long. I guess money is more important than the health and well being of thousands. So shameful.	yes

29704	This foul air we have been experiencing all year. Enough is enough. Many of us have family/ friends from out of state, that we have not seen in so long due to Covid ,for the Holidays. We cannot be outside due to the putrid smell. I could cry that this Company is so heartless. Spoiled our Christmas we have been planning for so long. I guess money is more important than the health and well being of thousands. So shameful.	yes
29720	Extremely rotten over powering odor .	yes
29720	Foul smell causing nausea, headache and generalized ill feeling	no
29704	Toxic Chemical gas	yes
29704	Very strong ammonia odor causing headache, sore throat, burning eyes.	yes
29704	All day since 11 am this morning. Over 8 hours of sweet chemical toxic stench! What a great Christmas Present! Thanks New Indy! It's been almost a year of stench you denied you were causing! ENOUGH! Anyone who thinks the issue has been fixed has been fed a pack of lies!	no
29720	VERY strong sweet chemical smell, the worst in WEEKS. This needs to stop! Anyone who thinks this issue has been fixed has been fed a pack of lies.!	no

29704	Winds are from the SW and no surprise it stinks at my house. The odor is now a sweet chemical smell. It's been here for over 4 hours. Absolutely making me sick to my stomach!	no
29720	Foul smell outside, permeating inside causing headache and nausea	yes
29740	The smell is so strong this morning that I'm unable to be outdoors without getting a headache.	yes
29720	Nauseating smell-unable to be outside-also causing headaches	yes
29720	Foul smell in the air causing nausea, headache, inability to be outside for the second time today	yes
29704	Sinuses are inflamed due to this toxic smell.	yes
29704	Bad smell in the area; usually described as hydrogen sulfide.	yes
29720	Toxic H ₂ S sulfur odor Irritant Had to see my MD due to severe symptoms	no
29720	Severe smell in the air causing nausea, coughing and headache	yes
29707	The smell is sickening and makes living around this plant unbearable.	yes

29704	The winds were coming from New Indy! They cannot deny it! Stench is like a sweet chemical smell with smoke! The H2S has been replaced by WHAT????????? The monitors need to track this new TOXIN! Headaches and sore throat! Where are the penalties????? (I understand that I am providing the information in this tip or complaint to the United States Environmental Protection Agency, a federal agency with the authority to investigate and seek penalties for certain violations of law.)	no
29704	The winds were coming from New Indy! They cannot deny it! Stench is like a sweet chemical smell with smoke! The H2S has been replaced by WHAT????????? The monitors need to track this new TOXIN! Headaches and sore throat!	no
29720	Hydrogen sulfide fumes at very high levels. Seeping into my home with the windows down. So strong lately	yes
29704	Choking smell causing headache, sore throat, eye burn and cough	yes
29704	The smell from New Indy is infiltrating the house. I'm unable to concentrate while working and have a headache. Please stop this company from discharging this terrible smell.	yes

Unknown	Difficulty breathing due to chemical odors in the air. Breezometer continues to rise in the unhealthy air zone. Hazy sky contributing to severity of chemical odors.	yes
29704	The smell of rotten wintergreen fills the air making it so that I cannot use my own private property without nausea and headaches. Rotten egg odor and other rotten odors mixed with sickly sweet chemical odors fill the air on a weekly basis. I smell it when I travel from my property into Rock Hill, Charlotte and Indian Land. It has been occurring since February 2021 when I first reported this to the EPA and DHEC.	yes
29704	Severe ammonia smell causing headache, cough, sinus pain and sore throat	yes
29704	For the entire daylight hours on December 6, winds came from NEW INDY directly to my property NE of the plant. The sweet chemical smell is just as, if not MORE offensive than the H2S we had before! The odor has to STOP! It cannot be covered over with another chemical! It's like putting lipstick on a pig! We are still being assaulted, regardless of the type of smell! Time to take action and make them stop production UNTIL IT IS FIXED!	no
29704	Severe headache, sore throat, eyes burning, cough, sinus pain due to toxic fumes being released.	yes

29704	New Indy continues to release toxic chemicals into the air and water causing severe headache, sore throat, eyes burning and sinus pain. When will this be stopped??	yes
29704	New Indy continues to release toxic air causing medical issues for thousands of SC and NC residents. NOTHING IS BEING DONE TO STOP THIS. I am having a lung issue for which I was just in the hospital for a broncoscope to determine the cause. If it is from breathing in hydrogen sulfide for the last year God help New Indy!!!	yes
29704	The smell has been consistent for the past 3 hours. I'm unable to go outside because the smell is hurting my sinuses.	yes
29704	Very strong ammonia smell causing sore throat, cough, eyes burning and headache. When will this toxic poisoning be stopped?	yes
29704	I tried walking in the neighborhood this morning, but had to return home after 15 minutes due to the intense smell from New Indy. My sinuses were closing and I was getting a headache.	yes

29707	New Indy Containerboard is contaminating our air and water. The odor coming from their facility is extremely strong. It is impossible to breath outside. Children are going to school and are forced to smell it while waiting the school buses, and during drop-off. It's been like this since February 2021 and no-one cares about it.	yes
29704	Toxic Fumes coming up the Catawba river with suspected chemicals of Hydrogen Sulfide and others. We are experiencing dry burning eyes and nausea.	yes
29704	Release of hydrogen sulfide and other toxic chemicals into the air causing nauseous feeling, burning eyes and coughing	yes
Unknown	Strong rotten egg smellll on clear cold evening with no breeze or wind	yes
29704	The smell is now in the house and is giving me a headache	yes

29704	<p>Severe air pollution/odor permeated inside my house early am hours, waking me with headache, nausea, burning eyes and eventually bronchial issues - continued until I let for doctor appt around 10 am. Upon returning at 2 PM, the odor was overpowering outside and almost as bad inside. In spite of running an air purifier (Which is guaranteed to handle gases, including Hydrogen sulfide -purchased due to the health issues this toxic air has caused) the odor and resulting health issues continue when it is this bad. This lasted into the evening - perhaps because I'm in a lower elevation and it settles, but I have been ill from this off and on for MONTHS and getting worse. At times, there have been foamy residue scattered all over my yard, and thinking it may be from what is released into the air and drifted this far - I am 10 miles from this New Indy facility</p>	yes
-------	---	-----

29704	<p>As I sit in my home on a Sunday afternoon and write this, the stench of H₂S permeates the air in my house and outside in my community. This daily stench has been occurring since February when Nu Indy fouled their process and the resulting effluence has created a crisis apparently at their plant in Catawaba . I understand the plant uses tires and wood chips as their fuel source. This fuel creates large amount of dioxins and furans upon combustion that are expelled into air 24/7. Can you provide me what the stack emissions are from the plant for the last month? In addition the effluence from their lagoons and sludge ponds are full and the company is discharging 25 million gallons of their effluence not the Catawba River on a daily basis. Please advise if what the scientists have reported is accurate. If it is then another real life crisis is unfolding for the months in that these dioxins are being consumed in the drinking water for the hundreds of thousand who live downstream of Nu Indy. To date I understand the EPA and DHEC have ordered Nu NDA to come int compliance and they have not done so after 5 months and over 30,000 complaints from Charlotte, Rock Hill, Lancaster residents</p>	yes
-------	--	-----

Unknown	The toxic smells that are coming from this location near Marvin, NC are grotesque. I am not sure what is being released into the air, but having been a resident here since 1992 I can tell you it is not normal nor is it the local land fill. This is a chemically, rotten smell that only happens when the wind is coming from the direction of the New-Indy Paper Mill in SC. thank you for looking into this.	yes
29704	Comments: Experiencing the following symptoms: headaches, nausea, coughing, dizziness and sinus issues from the horrible odor/smell from the New Indy Plant coming inside of my home. Myself and my family cannot go outside and this not the normal way of life (hostage in my own home). 1. When will this stop? 2) What is the long-term effects and why is this still going on? If this smell/odor was in Washington, D.C., it would have stopped immediately. I am located in Fort Mill, South Carolina.	yes
29715	The air quality is horrible! Smells like sulfur so bad you can't be outside! Why after nearly a year of reporting this is this still being allowed to continue???	yes

29715	Intense sickly sweet ammonia toxic chemical. I was outside for only a few minutes and started coughing, got headache and sinus issue. When is this going to stop? How long must we endure chemical warfare? This is making people sick and long term health issues. If this was happening in Washington DC this would have been shut down. Why is this taking so long? I can't even go outside to exercise or enjoy this great weather.	yes
29704	New Indy continues to exceed the release of contaminants in the air and water. My house has smelled like a chemical plant for most of the month of November, due to odor permeating the house. The odor is strong each night and usually permeates the house around 1 to 2am. Odor still very present in the early morning hours around 6am to 7am. I notice the odor in the areas I mainly am in such as Fort Mill, Indian Land, and Rock Hill SC. Have also been experiencing headaches that last for days and nose bleeds.	yes
29707	FOR MONTHS THIS PAPER MILL HAS BEEN POISONING SURROUNDING COUNTIES. THE AIR IS TOXIC AND UNBREATHABLE, ITS SEEPING INTO OUR HOME AND THERES NO ESCAPE FROM IT. SOMETHING NEEDS TO BE DONE!!!	yes

29704	New Indy continues to cause toxic chemicals to infiltrate my private property. The chemicals are inside my own. The odor is unbearable. We cannot sleep because we can taste the chemicals at night, have headaches about 15 minutes after noticing the odor and causes me to have nausea, burning and watery eyes. As the EPA is well aware, this has been happening since the beginning of 2021. Why??	yes
29707	Hydrogen sulfide on my home meter pinning this morning! I have a headache most of today!	yes
29704	Yet again. Stench is a sweet chemical smell. It needs to be identified and TRACKED! It's all well and good the H2S is under control. What has replaced it????????? We need to know what is hurting us now!	no
29704	The pattern continues. Winds from the SW=stench in my community. NEW INDY needs to fix the stench! The H2S has been replaced with another stench, The monitors are not tracking it, whatever it is.	no

29704	The New Indy operation has clearly made SOME changes to their operation! We no longer are breathing H2S. The monitors only track H2S. What are we breathing today? A sweet highly offensive chemical smell has replaced the H2S. It also is making me SICK!!!!!! NI needs to speed up their remediation! And get somebody in there to determine why it STILL STINKS! My home is NE of NI. Winds are from the SW. Means more fumes! Disgusted!	yes
29704	Hydrogen Sulfide and other toxic c	yes
29720	Almost everyday it wreaks outside and our nostrils burn and my son's nose bleeds. Whatever gas or sewage is being released from the plant needs to get under control.	yes
29720	Unable to be outdoors due to the smell.	yes
29704	Why is this company continued to be alllowed to release these emissions? The chemicals are inside my home!	yes
29704	Air Pollution: Chemical Smell, Strong	yes
29720	Smells like rotten eggs burning eyes and throat	yes

29704	THIS IS AN EMERGENCY. I have called the 800 number but was told to fill this out instead. Your form then tells me if it is an emergency to call the 800 number. Please do your job and remedy this EMERGENCY. There is an imminent threat to human life. The EPA has stated in its own order that the levels of the these toxic releases pose imminent threat to life.	yes
29704	Sewage smell permeating the house and eyes burning. Sun Dance Drive, Indian Land 29707	yes
29704	Release of toxic air and reaching at least 19 miles away (where I live) causing nausea, headache, and bad respiratory issues. Tonight, causing burning skin and eyes. This has gone on for months and is way worse than in the past. I is inside my house and despite having an air purifier that is supposed to handle gases, it is still strong and pungent and is making me seriously ill. I have no where to go	yes

Unknown	New Indy Paper Mill is knowingly releasing cancer-causing compounds into the air AND water. For the past YEAR. With ZERO change or improvement, despite an "investigation" DHEC and the EPA has done ABSOLUTELY NOTHING because apparently they have no morals and no backbone to stand up to the Governor. The EPA is *not protecting the environment or the people. Instead, the EPA is protecting its POCKETS \$\$\$\$. Absolutely unconscionable. I will never understand how the members of this "agency" can sleep at night knowing what they are doing to innocent people.	yes
29704	Rotten wintergreen odor present all day in Rock Hill and Indian Land, SC. from Anderson Hwy through Van Wyck to Charlotte Hwy. Drove by the papermill plant and the odor was the worst I've smelled it since February. Instant nausea and headache.	yes
29720	New Indy is still poisoning us at Tree Tops.....eyes burning, trouble breathing, etc. Make it stop!!!!	yes
29704	Releasing Hydrogen Sulfide due to paper mill over production. I have a horrendous headache, burning eyes and nausea. Have been in hospital for lung problem and will get results of culture in 6 weeks. Cronic cough for many months.	yes

29704	Severe ammonia smell causing headache, sore throat and eyes burning.	yes
29704	The sweet chemical smell was back again. It is not H2S. WHAT IS IT? It is making me sick to my stomach! Eyes are brining!	no
29704	The smell made it difficult to walk outdoors in the neighborhood.	yes
29704	H2S has been replaced by a sweet chemical smell with smoke overtones! Smells like a dirty diaper pail , half burnt! Smelled at 11 am in the morning into the evening! When is this going to STOP!!!!!!!!!! Make them fix it! What are you waiting for!!!! Come stay at my home for a few weeks. Maybe you will do something once you experience the noxious stench!	no
29704	H2S has been replaced by a sweet chemical smell with smoke overtones! Smells like a dirty diaper pail , half burnt! Smelled all morning into the afternoon! When is this going to STOP!!!!!!!!!!	no

29730	As the EPA is already aware, New Indy Papermill is emitting noxious odors. These odors continue seep anode my home, filling up my garage, my cars and my property to the point where I canâ€™t enjoy being outdoors and canâ€™t escape snide my own home. It causes me to feel nauseated and have headaches, eye watering and lymph node swelling. I tried completing this EPA form yesterday and the system wasnâ€™t working. Please continue to provide a way for citizens to report about this ongoing issue.	no
29730	Hydrogen sulfide	yes
29704	Pumping toxic chemicals into the air affecting the air quality in the surrounding area. I live in Waxhaw NC and can smell the toxic pollution at my home. This has now become a common occurrence and is causing headaches for my oldest son and myself. Not to mention the foul odor.	yes
29704	The smell is so bad this evening it is coming in the house	yes
29704	I canâ€™t leave my house without smelling this plant. Itâ€™s terrible. I canâ€™t enjoy a nice evening outside with my kids as they have to breathe in this terrible air. This has been going on for almost a year and this is my first time emailing the EPA. Please back up the citizens of this great country. You are our only hope.	yes

Unknown	Severe hydrogen sulfide odor and other chemical odors causing headache, nausea, burning eyes and nose, and itchy skin. High anxiety!	yes
29704	The smell is bad enough that it is giving me a headache.	yes
29720	We cannot breathe fresh air. These chemicals are poisoning this community. Something needs to be done. PLEASE HELP.	yes
29704	The smell is terrible and I'm unable to go outdoors. The smell is just as bad as last year. There has been no progress made in getting this smell rectified.	no
29704	New Indy release of hydrogeh sulfide into the air we breath. Having headaches, burning throat and eyes	yes
29704	Methanol i suspect is the odor. However, since the only monitoring is H2S we wouldnâ€™t know. We cannot breathe !!!!! Why in the world has it been 11 months with no relief!!!!!!	yes
29704	New Indy continues to poison us! Please do something about it. The smell has changed and now smells like a sweet chemical smell. My visiting family describes it as a toilet bowl cleaner/port-o-potty smell. Overnight was horrible and I woke up with a bloody nose cough and headache.	yes

29720	Unable to go for a walk this evening due to the terrible smell outside which was giving me a headache.	yes
29730	The smell is NOT hydrogen sulfide (rotten eggs); it is a thick, heavy, sweet, sickening "chemical" smell. Please, I beg you, help us who are suffering and getting sick because of these toxic emissions. The smell is overwhelming outside and fills up the inside of the house through closed doors and windows. The toxic air causes immediate headache, burning eyes and nose, nausea and phlegm in throat. Thank you for your help.	yes
Unknown	The terrible stench from the New Indy plant continues because you let them.	yes
29704	Sweet chemical odor. Emissions causing nausea, lightheadedness, burning eyes and nostrils	yes
29704	Terrible chemical odor causing lightheadedness nausea and burning nostrils	yes
Unknown	Severe chemical odors causing burning eyes and nose, headache, itchy skin	yes
29707	Strong smell of sweet urine causing difficulty in breathing, eye and throat irritation	no
29704	Rotten egg odor continues to be a problem.	yes
29704	Rotten egg smell continues to be a problem.	yes

29704	Rotten egg smell continues to be a problem.	yes
Unknown	The New Indy Mill has been stinking all dayâ€”which is a shame since it is a beautiful day and we cannot enjoy it. In the morning it smelled like sewage, by mid-day it was almost an animal smell and by early afternoon it was more sweet. So gross.	yes
29730	The smell is NOT hydrogen sulfide (rotten eggs); it is a thick, heavy, sweet, sickening, â€œchemicalâ€ smell. Please, I beg you, help us who are suffering and getting sick because of these toxic emissions. The smell is overwhelming outside and fills up the inside of the house through closed doors and windows. The toxic air causes immediate headache, burning eyes and nose, nausea and phlegm in throat. Thank you for your help.	yes
29707	New Indy Container is polluting the air of several counties in SC and NC. This has been going on since Feb. 2021 at a minimum. This needs to STOP!!!	yes
29704	The smell make it difficult to be outdoors. It is giving me a headache.	yes
29704	The emissions from this plant are horrible and causing difficulty breathing and headaches. This morning is particularly bad and I am also experiencing nausea.	yes

Unknown	Terrible sewage smell in Waxhaw from the New Indy Paper Mill. Terrible quality of life.	yes
Unknown	Thick chemical smell. Can breath outside my house	yes
29704	The smell is so strong this morning that I'm unable to go outside due to my sinuses being inflamed. The smell has been getting progressively worst over the past month. Please investigate this company.	yes
29704	More of the same nasty odor.	yes
29704	Continual discharge of biologically harmful toxic gases (such as hydrogen sulfide and others) at levels that exceed safety standards. Should not be having lung and throat irritation living nearly 20 miles away from this facility, but we do daily.	yes
29704	Rotten Eggs have been replaced with a sweet chemical odor with the smell of burnt diapers mixed in. Highly offensive. Unable to enjoy a lovely November day. Winds from the SW, of course. We are NE of the mill. This needs to get fixed NOW.	yes

29704	<p>New Indy Container. Shut this facility down. They are ruining the quality and health of the citizen's living in the area near New Indy Container. EPA, why is it taking you so long to take action. I don't have to give you a violation description, you know the problem. What have you received by now, 20K+ complaints, and you still don't know how to get anything done. I am so frustrated with your inability to protect the health and welfare of citizens in the area. They say we have to keep writing you, but I am not sure why. Do you need 100K+ complaints, 200K+ complaints, before you do something? What is the magic number before you take action and do something.</p>	yes
-------	---	-----

29704	<p>Toxic emissions have been ongoing for months with no resolution - causing severe related health issues in the way of respiratory, skin, eyes, headaches, nausea</p> <p>Have been reporting for a long time, but seemed pointless as even under EPA authorization to clean up, it's gotten worse. Unable to open windows, as the toxic air when odor is noticeable or not causes previously non existent health issues, which have become progressively worse. Have had to purchase air purifiers which will hopefully handle poisonous gases, but it's not fully able to prevent from seeping in, as I'm in a lower elevation - it settles inside my house - sometimes foamy patches of something are lying on my grass, etc.</p>	yes
29704	<p>The smell is giving me headaches. I'm unable to be outdoors. The outdoor quality of life in this area since New Indy started operations a year ago is terrible.</p>	yes
29707	<p>You know exactly what has been happening at New Indy! And it still is! My hair is falling out, I have nose bleeds and sinus infections and headaches This is insane!!! Someone needs to shut them down until they can actually fix this The smell has changed but it's still toxic</p>	yes
unknown	<p>Odor in the air we are breathing of sulfur and oil/gasoline smell.</p>	yes

29704	My sinuses hurt because of the constant smell from this company. The smell is getting worst, not better. Please doing something to mitigate this smell so that I'm able to go outdoors.	yes
29704	More rotten egg odor in the air today.	yes
29704	I'm unable to be outdoors without getting a headache. Constant smell when the wind is coming from the southwest.	no
29704	This is the worst odor yet. Can't even go outside without eyes watering and nose burning. Please help us stop this pollution.	yes
29704	Severe odor in the air. Strongest and most potent I've experienced yet. Please help us stop this pollution.	yes
29704	Very strong rotten egg odor in the area of Highway 75 in Waxhaw, NC.	yes
Unknown	The smell is inside the house and it is so strong outside I'm having difficulty breathing. This is terrible. I have a headache and my sinuses are inflamed. There is nowhere I can go to get away from this toxic odor. Please investigate the release today from this company.	yes
29704	The smell from New Indy is absolutely terrible today. I'm working from home and the smell is infiltrating the house. I have a headache and can't concentrate.	yes
Unknown	Severe chemical odor and hazy sky causing headache, sinus and breathing problems.	yes

29704	Emissions from New Indy Catawba continues to be so high that the chemical odors are inside my home. Cannot be outside for any sustainable length of time because of the foul odor and rotten wintergreen smell. Iâ€™ve noticed a correlation between the high emissions and experiencing swollen lymph nodes under my left armpit along with sinus symptoms when the odor is inside my house.	yes
29704	Sweet chemical smell coming from the plant all day. I suspect it is some other chemical being used to alter the h2s. Like putting lipstick on a pig! It still stinks! I now have another sore throat. This needs to STOP!	no
Unknown	This weekend severe chemical odors persisted in Tree Tops Community. These odors permeated into our home causing anxiety, depression, burning eyes, nausea, and itchy skin.	no
29704	The smell is infiltrating the house. It's been terrible all day. There is nowhere to get away from this horrible smell that has given me a headache.	yes
29704	The smell has been horrible all day making it very difficult to be outdoors for any length of time without getting a headache and irritated nose	yes

29704	My nose is very irritated after going for a walk this morning due to the intense smell from this business. I was hopeful that the smell was going to be corrected since it seemed things were getting better, but now for the past few weeks the smell has been getting stronger and more consistent again. Not being able to go outdoors and enjoy the fall weather is terrible. Please stop this company from ruining people's quality of life.	yes
29720	Poisonous smell discharged into the air affecting household, cannot open window or stay outside since the smell affects my voice, and throat	yes
29704	Hydrogen sulfide odor inside and outside our home. Air purifier useless. Air causing anxiety, depression, headache, coughing, and itchy, red skin rash.	yes
08016-3950	Please do something!!	yes
29744	Do Something !! This has been happening since January 2021 documented by EPA spewing tixic chemicals in the air and water	yes
29707	Chemical odor mixed with cleansers. Burns eyes, makes chest hurt and heavy.	yes

29704	Today has been one of the worst days we have had in weeks. It has been pervasive all day. The sweet smell of dirty diapers is here since 8 this morning when I stuck my head out the door. I suspect it will smell like burning dirty diapers later. Very typical pattern. This needs to STOP! They need to remediate all of their issues now or be shut down. What is taking so long? When are you going to make them cease?	yes
29704	I had to limit my walk outdoors due to the overwhelming smell from New Indy. The smell was making it difficult to breathe and my nose was very irritated.	yes
29704	Unable to be outside this morning due to the intense smell from this company. The smell is giving me a headache.	yes
29704	The smell from New Indy is back and becoming more frequent. Unable to be outside to enjoy the fall weather because of the smell.	yes

29704	I am so mad I can barely type this. Have a headache, my wife now has lung issues. When will the EPA do its job and shut down the New Indy Container plant. These people are killing us and you do nothing. It seems to me New Indy is snubbing their nose at you because they know you are weak and ineffective. Robert Kraft is not a God, and this place needs to be shut down. I don't give a damn about state tax revenue, and I don't give a damn about jobs, when they are slowly killing us. How do the people at New Indy sleep at night knowing they are harming their neighbors.	no
29704	Poisonous air causing headaches and nausea to my family and I. This toxic odor is ruining the greater Charlotte region.	yes
29704	I live at 4000 Deep River Way, Waxhaw, North Carolina 28173 and the odor/smell (air quality) from the New Indy Container Board Plant has been extremely strong inside of my home over the past four (4) days. I can barely breathe, sore throat and persistent headache.	yes
29704	The smell from this company was less over the past month, but recently started to get more frequent and stronger again.	yes

Unknown	<p>New Indy Container is at it again. These bastards think they are so damn sneaky. They release late at night thinking no one will notice. Both my wife and I had headaches about 10:30PM. I seldom ever get headaches. My wife thought New Indy must be at it again. She went to the front door and the stink was unbelievable. Whatever the EPA had been doing up until now was pretty good, but they are now at it again. Since it appears they violated what ever you told them to do, don't you think it is now time to shut them down once and for all. When they are affecting the health of thousands of people, I really don't care about the loss of state tax revenue or the jobs of the people working there. How do the employees of New Indy sleep at night when they know first hand they are hurting their neighbors. These people have no thought or concern for their fellow man - fire them all.</p>	no
29704	Poisonous odor causing headache and nausea to my family and I.	yes
29704	Poisonous odor causing headache and nausea to my family and I.	yes
29704	More of the same nasty odor that prevents cleqr breathing and enjoyment of outside.	yes
29704	This is still happening. Please help us breath clean air.	yes

29740	Things seemed to get better for a few weeks, now the smell has been back and I'm unable to go outside without getting a headache. Just like in the Spring, we are unable to enjoy the nice Fall weather.	yes
29704	Severe odor outside and in my house. The odor is very strong (chemical like) causing nausea and my eyes are burning. I left the window open in our bedroom, and now the smell is everywhere. I am concern about the health of my family. This is not normal, and not possible to ignore or tolerate anymore. Please take action!	yes
29704	More of the same odor. Twice in one day and this time with a headache. Please make this stop.	yes
29704	The chemical/rotten egg smell is intense tonight. Can't enjoy the cool fall air. Please help.	yes
29740	Unable to have dinner outside on the patio due to the terrible smell from New Indy.	yes
Unknown	Oppressive odor has been ongoing but very strong again this morning. Experienced headache and nose/throat irritation while walking my dog. We thought this company was ordered to remedy the cause. The air quality is compromised and we already know the harmful contaminants and carcinogens it contains. Please investigate and address this. It's been going on far too long.	yes

29740	I'm unable to sit outside because of the smell, which is giving me a headache.	yes
29707	Making the family, including the dog, sick. Vomiting, eyes and throat burning. MAKE IT STOP	yes
29715	Rotten egg smell is occurring daily and causing headache/severe nausea to me and my family! Ps this is the WORST website!! Very slow and full of errors. It takes me 20 minutes to send one report!	yes
29704	Smell of rotten eggs causing headaches and nausea to my family.	yes
29704	The horrendous smell from New Indy has ruined what should have been a beautiful morning. I'm unable to be outdoors due to the terrible smell this company is emmiiting. I'm getting a headache due to the smell.	yes
29704	Terrible smell outside right now.	yes
29704	Release of contaminats into the air above the regulations	yes
29704	I was unable to complete my walk this morning due to the smell that was burning my nose and making it difficult to breath.	yes
29704	It is terrible to try to walk in the neighborhood due to the intense smell which burns my nose and gives me a headache.	yes
29704	It was very difficult to play outside today due to the intense smell.	yes

29720	New Indy is continuing to poison residents all over NC and SC daily . The smell has caused nose bleeds , burning eyes , coughing to me and my family . It permeates through my house . We are all unable to enjoy being outside of our own residence. This has to stop itâ€™s been going on for well over 2 years .	yes
29704	Rotten egg smell that is causing nausea and headache to my family. This website is HORRIBLE and hardly ever works!	yes
29704	The smell released from this company made it very difficult to walk outside today. My nose was burning and I started to get a headache.	yes
29704	There has been an intermittent smell of sulfur since at least January 2021. I am 20 miles from the plant, over the state border in North Carolina, and this morning it was really intense. I know they've been told to clean up, but obviously, they are not cleaning up. It's time to shut them down until they can eliminate the toxic emissions. Please.	yes

29704	New Indy Containerboard is emissions varies from rotten egg odor to rotten sweet odor. Tonight, we noticed an odor that smells like rubbing alcohol filling our house and walked outside only to smell the same chemical odor. It's terrifying. What is being released into the air, filling our home and what are we breathing? Why is this still an issue?	yes
29715	New Indy continues to pollute our air. Rotten egg- sulfur smell burning family's eyes, and so much congestion!	yes
29704	More of a chemical smell than normal. Hard to breath.	yes
29704	Hydrogen Sulfide & Methyl Mercaptan being released into the air by New Indy Containerboard. Serious health affect to humans! Smell is horrible tonight. Smell is so bad some days, causing noticeable harmful health issues like burning eyes, nose and throat for my whole family, and neighbors. Cannot be outside and breathe. Affecting Lancaster & York counties. and some NC as well New Indy Containerboard needs to be shutdown (Injunctive Relief ASAP) or similar and stop harming everyone nearby. Please. Thank You	yes
29704	Overwhelming rotten egg smell! Causing headaches and nausea!	no

29707	STOP POISONING MY FAMILY AND OUR COMMUNITY!!!!	yes
29704	More of the same odor. Twice in one day and this time with a headache. Please make this stop.	yes
29704	Dumping toxins into their basins	yes
29704	More of the same nasty odor that prevents cleqr breathing and enjoyment of outside.	yes
29707	It is very very smelly. My eyes are burning, too.	yes
29704	Unable to sit outside because of the smell, which gives me a headache.	yes
29704	I'm unable to go on a walk this morning due to the strong smell New Indy is releasing. I had difficultly breathing. This company is continuing to release this odor making it impossible for individuals to simply walk in the neighborhood. Please investigate.	yes
29704	The usual rotten egg smell mixed with wet cardboard as it rains.	yes
29707	Release of Hydrogen sulfide and methane. poisoning our community.	yes
29704	Around 5pm EST, the "rotten egg"™ smell of H2S started to fill the air. The smell was light, but distinctively H2S. Less than an hour after the smell appeared, a thunderstorm rolled in and drove the smell away.	yes

29704	This company is discharging a terrible odor which I can smell in my neighborhood a good distance away from this facility. The smell is giving me a headache this morning.	yes
29704	Overwhelming rotten egg smell	yes
29704	Hardly any wind and hot plus this odor is almost suffocating. Can't enjoy the land we're paying taxes on.	yes
29704	This company is releasing a terrible smell which can be smelled all the way to Indian Land, SC. The smell is giving me a headache.	yes
29704	Hydrogen Sulfide & Methyl Mercaptan being released into the air by New Indy Containerboard! Got a bad migraine from it today! Serious health affects to humans! Smelt very bad today AGAIN earlier! Can't go outside & causing noticeable harmful health issues like burning eyes, nose & throat for my whole family, children & neighbors. Please enough is enough already with them and this!	yes
Unknown	Smells like rotten eggs	yes
Unknown	Smells like rotten eggs	yes
29704	The smell is overwhelming and I can not be outdoors unless I want to have a headache due to the toxins. Another bad day in Indian Land ,SC.	yes

29704	This company is releasing a terrible smell, which gives me a headache when being outside for a short period of time. Please investigate. I would like to be able to be outdoors.	yes
unknown	NEW INDY putrid smell - burning eyes, nose and throat. Unalve to go outside. Odor began at 7:00 AM this morning - continues.	yes
29704	The funk is so odd this morning. It's like I can taste it when I breath in. This has to be dangerous. Please help.	yes
29704	Rotten egg odor permeated our property inside and out.	no
29704	The New Indy paper mill is releasing toxic fumes.. the smell makes you nauseous and gives you a headache..	yes
29704	Hydrogen sulfide odor causing headache and coughing	yes
29704	New Indy Container continues to produce odor and pollution into the air.	yes
29704	Nauseating smell of rotten eggs outside of our home. It is impossible to be outside without getting nausea or headaches. I do not feel like it is safe for my children to play outside.	yes
Unknown	Release of noxious gas into air	yes
29720	Terrible rotten garbage odor causing nausea, headache, eye irritation, itchy skin	yes

29704	<p>Filed Reports with the SC DHEC and the NRC Report Number: 1312250 concerning the New Indy Plant in Catawba, South Carolina. I reside at 5113 Samoa Ridge Drive, Lancaster, South Carolina 29720. Submitting for informational purposes to alert EPA as well of the horrendous odor from the Indy Plant. My development/residence is two (2) miles from the New Indy Plant.</p>	yes
29704	<p>The smell has been terrible this week and I have been limited to indoors a lot each day. Headaches are common. After having to cut my walk short this morning, now I can't eat outside for lunch either. Please investigate this company. The smell is getting worst each day.</p>	yes
29704	<p>I was half way through my walk in the neighborhood when the smell from New Indy hit the area. I had to immediately turn home. By the time I got home I had difficulty breathing and my nose was irritated. Very dangerous to be outdoors. New Indy's smell is only getting worst. It has not improved at all since they were first cited by the EPA.</p>	yes

29704	<p>At 1am, the H2S smell from New Indy was so powerful that it not only permeated our house, but woke up both my wife and me and we were not able to sleep through the entire night due to the noxious odor. My wife developed a headache which made her even more uncomfortable. I'd like to know what the EPA is doing to resolve this serious matter. From my perspective, it seems that EPA activity is limited to writing reports and doling out sanctions to New Indy without any teeth, to which the company seems to just thumb its nose at what appears to them to be a toothless government agency that has no power over them whatsoever. They seem to feel free to do whatever they want with zero ramifications from either state or federal agencies that are supposed to be protecting us, the citizens. The CDC states that levels of H2S reach dangerous levels at 70ppm. Yet the EPA themselves have documented monitoring levels of H2S over 900ppm within a 25 mile radius of the plant! How can this company continue to operate at such dangerous levels of emissions and yet the EPA seems to be powerless to curtail them? On the one hand, I'm grateful that the</p>	yes
-------	---	-----

29730	Toxic emissions from New Indy Papermill are completely saturating the inside of our home. We have insomnia because the odor is too strong for us to sleep along with dizziness, eye irritation and headaches. Our dog pants and wheezes all night. Why are regulations not being enforced?	no
29704	The stench of hydrogen sulfide from the New Indy paper mill came upon our property about 7pm and was so strong that it permeated our house and made the inside of our house smell. These smells almost always cause my wife to suffer severe headaches, sometimes migraines, watery/itchy eyes, dizziness, and sometimes nose bleeds. My dog develops coughing spells that keep him (and me) up all night.	no
29704	The smell was terrible last night. I was unable to sleep since the smell infiltrated the house. I woke up with a terrible headache. The smell is getting more frequent and worst lately.	yes
29704	It's 9:30 at night in Indian Land, SC and I opened the door to let the dog out. The air smells so bad that I couldn't stand outside for even a few minutes. There is no doubt that this is very toxic air being released at high levels. Please investigate.	yes

29704	<p>We have been subjugated to toxic fumes for months with no relief. My children and I are having chronic headaches, nosebleeds, and coughs. We can't play outside. The kids have to stay inside at school rather than enjoying recess. This is an emergency. PLEASE HELP US.</p>	yes
29704	<p>Have attempted to file reports for incidents over the past week.- almost every day and/or night Tried to file the 27th and would not go through after multiple tries. New Indy is currently under emergency order from EPA, but emissions of hydrogen sulfide, methyl mercaptan gases have gotten progressively worse - heavy and thick sometimes throughout the day and night - causing breathing issues, headache, nausea and for past couple of days, have burning eyes and burning skin with no relief - Have been to doctors numerous times, but they have no answers or recommendations other than to leave the area and go somewhere for a few weeks - that isn't possible for me - Many times, there is the sickening odor that permeates my house and remains for hours and hours.WE NEED HELP NOW Please consider requiring them to either cover the areas that are emitting these fumes until they can get them cleaned up, or stop production until they get the areas safe.</p>	yes

29705	<p>This has been ongoing since the company changed their production the beginning of the year. Communities are experiencing a STRONG odor that not only is impacting just being able to be outside, but also causing burning eyes, nose, throat, nausea, etc. How in 2021 is a company ALLOWED to do this? There has been a change and a problem is occurring!! Recent reporting on one chemical is attached in the photo. How is it ok if I am on a walk during a peak release that I am breathing that high of chemicals? How is ok if my children are outside during recess at school breathing in that high level of chemicals? What other chemicals are being released that are NOT being monitored? MORE ACTION IS NEEDED IMMEDIATELY!!</p>	yes
29704	<p>The smell from this company last night permeated the house making it very difficult to sleep. I woke up this morning with irritated eyes and sinus issues.</p>	yes
29704	<p>Smelled the familiar foul stench of rotten eggs that New Indy keeps pumping out into the air. When is the EPA going to do anything to resolve this potentially serious health risk?</p>	yes

29704	The New Indy Containerboard has continued since Saturday 7/24/21 through today 7/27/21 to make the odor so strong outside that is creating several people in Fort Mill and surrounding areas sick. I have had a headache, burning eyes, and felt nauseous from the odor. The odor continues to keep you trapped in your home. The plant is producing this odor more frequently daily, the length of time the odor is present is increasing, and the strength of the odor is stronger. This is also causing the odor to permeate our homes, which then we have no escape. The EPA has issued orders for this to stop, however, no one is enforcing the issue.	yes
29704	It is 10:00 pm and I'm unable to sleep because the smell is so strong that it is now inside the house.	yes
29704	The smell is terrible this evening in the Indian Land SC area. Had to go indoors because my nose and eyes were burning. This is a terrible way to live, unable to breath clean air. Please investigate this company.	yes
29704	I do not want to go outside my home again due to the intense smell. I'm getting headaches and sinus issues. This was never an issue until New Indy started production earlier this year. Please help with this situation.	yes

29704	You need to look into all they are doing wrong. Our air quality is making us physically sick. We can't be outside for leisure or exercise. It is your job to investigate and stop it!!	yes
29704	Worst yet. Can smell inside the house and woke up with a headache.	yes
29704	New Indy Containerboard continues to emit chemical odors. The odor is inside my home and we can't be outdoors on our property.	no
29704	Toxic emissions from New Indy Paper mill. Pungent toxic air consisting of hydrogen sulfide. Sickening citizens of NC and SC.	no
29704	There have been noxious fumes permeating the air 30 miles from this plant all day long. People have been reporting becoming physically ill, shaking, and dizziness. Not to mention the breathing difficulties, eye irritation, throat irritation, and headaches. People as far as South Park Mall have been reporting physical effects. WE NEED HELP NOW. NEW INDY IS POISONING THE LOCAL COMMUNITY!	yes
29704	Strong smell of rotten eggs which is causing headaches coughing congestion and irritation to the eyes and nose.	yes
29704	So bad this evening I can smell it inside my home. Disgusting and worried about health implications. Please make this go away.	yes

29707	Headache, burning eyes, nose and throat	yes
29704	Strong odor, foul smell, of H2S causing headache and dizziness.	yes
29707	New Indy continues to poison us. The smell this weekend is unbearable. Why donâ€™t you People do something. How can you let this go on. Pause their work until they fix the issue.	yes
29704	YOU Need to shut this place down. I am an ordinary citizen and can't cite exact violations. Air quality is hazardous to our health. We can't be outside for more than a few minutes at a time w/out physical symptoms.	yes
29704	I don't know what New Indy is doing exactly wrong. Many violations is my understanding. The smell is so putrid it will make you sick. Outside 5 min and I can't breathe	yes
29704	The entire house stinks inside because the smell is so strong today. It is impossible to do anything outside today because of this smell. It's one of the worst days in awhile. The smell isn't getting better, since this all started earlier this Spring.	yes

29704	Hydrogen Sulfide & Methyl Mercaptan being released into the air by New Indy Containerboard. Serious health affect to humans! Smell is so bad most days, causing noticeable harmful health issues like burning eyes, nose and throat for my whole family, and neighbors. Cannot be outside and breathe. Affecting Lancaster & York counties. This happens during the weekdays, but noticing it more on weekends now. New Indy Containerboard needs to be shutdown (Injunctive Relief ASAP) and stop harming everyone nearby.	yes
Unknown	New Indy continues to release toxic gases into the air we breath and into the Catawba River.	yes
29704	The smell is absolutely unbearable today. I can not be outdoors for extended periods. I beg please make this company stop producing such a smell. The quality of life is terrible being confined indoors.	yes
Unknown	Creating sulfur odor in the air.	yes

29704	<p>New Indy is continuing to release toxic pollutants such as Hydrogen sulfide and other chemicals in to the air and water of the Catawba River. This has been going on since January. Different agencies has said that the issues have been taken care of. This is so far from the truth. Air quality at my home has been worse the past two weeks than they have been in months past. The smell has been unbearable and causes headaches, nausea and eye irritation. I have driven past the New Indy plant and it is even worse. There is no way that it can be a safe and healthy environment for the workers at the facility. Something need to be done. Shut them down until they have a permanent fix to their problems.</p>	yes
29707	<p>Odor is being released that is so unhealthy we are getting headaches if we are outside of our home for any length of time. Unhealthy to leave leave home and this occurring almost every day now.</p>	yes
29704	<p>Fumes and chemicals released in the air are making the northern lancaster county and south Charlotte areas unbearable to live in. The stench is so horrendous no one is able to enjoy being outside. Please do something.</p>	yes

29704	There is a strong smell of sulfur or rotten eggs. Is causing allergy type symptoms in my eyes and nose. Also suffering from nausea and a headache	yes
29074	Severe sulfur odor resulting in coughing, Wheezing and congestion. Reside at 1282 Thomas Knapp pkwy fort mill sc 29715	yes
29704	Strong odor of sulfur that is causing allergy type symptoms. I am suffering from headaches nausea and irritated eyes and nose. I reside at 1282 Thomas now Parkway Fort Mill, SC 29715	yes
29704	Strong odor of sulfur that is causing allergy type symptoms. Coughing Wheezing and congestion. 1282 Thomas Knapp pkwy fort mill sc 29715	yes
29708	Putrid, acrid smell. Burning eyes and throat. Intense smell.	yes
29704	Releasing toxins to air.	yes
Unknown	Pungent smell which is also causing headaches and stinging eyes	yes
29704	This company is releasing a terrible smell which is causing me consistent headaches when I try to exercise outdoors. Another day outdoors is ruined because of the terrible smell today.	yes
29720	Hydrogen Sulfide is being released in poisoning amounts and keeping us indoors. And it seeps into the house too. Causing breathing problems, headaches and nasal problems.	yes

29704	Thick pungent odor of H2S started early morning INSIDE my house and woke outside causing headache, nausea, burning and painful eyes and sinusessince early this morning and the odor outside is getting worse by the minute - symptoms began early am and getting worse. - have attempted to file reports for similar air pollution occurrences for the last week, multiple times a day, multiple locations and reports will not go through. I feel like I'm being poisoned and am slowly dying from this. Please help us. This plant needs to stop production until they STOP releasing this hazardous air we're being made to breathe. The EPA emergency order is not helping those of us suffering.	yes
29704	H2S has been inside our home since 1:30 a.m. Odor is so severe that it wakes us up. Excessive H2S is known to be released from the New Indy Containerboard Catawba.	yes
29704	Awoke at 1:30am to a foul stench of sewer in my house. Went outside to immediately detect an overwhelmingly strong smell of hydrogen sulfide, which the plant is known to be releasing into the air via their processes.	yes

29704	The smell makes it very difficult to be outdoors without getting a headache. Being confined to indoors due to the smell a company produces is not how a person should have to live in this country.	no
29704	Intensity of hydrogen sulfide odor is increasing throughout this evening. It is inside our home. It creating a migraine headache and high anxiety. Please help.	yes
29732	Chemical smell today. This is my first report but have had sewer smell and chemical smell so strong that it caused headache and nausea. Been happening since March and got a little better then started again. Something needs to be done.	yes
29704	The plant is releasing hydrogen sulfide above levels that are mandated and continue to do so given despite orders from DHEC and the epa. The smell is permeating the house, therefore no relief from the odor. Had to take the dog outside and started feeling nauseous right away. Please help stop the effects that this plant is causing on the surrounding residents.	yes
29704	The odor from the plant is overwhelming. Makes me feel sick each time it is strong. Permeating the house which gives you no escape from the smell.	yes

Unknown	The overpowering stench in the air is preventing us from going outside. Tonight my throat is inexplicably sore and I have a migraine that won't break. This typically coincides when I can also smell the strong odor as well.	yes
29707	Smells the death!! Its day 16 in a row in Indian Land. I believe they are releasing the poisonous gas sulfur dioxide at this point on purpose. My eyes burn and having headaches!!!	no
29704	New Indy is not disposing of their waste properly. It is making my household nauseous.	yes
29704	Heavy rancid smell similar to sulfur or rotten eggs. Experienced nausea and headache.	yes
29704	The smell from New Indy Containerboard is severe and has permeated the inside of our home. I cannot mow my lawn because the odor is nauseating and burns my eyes not to mention there is zero quality of life. Because the odor is inside my home, I've resorted to using a small office inside my home with my air filter running. When will the EPA do something about this? Please contact me at the email below.	yes

29730	Severe smell of hydrogen sulfide " causing headache, nausea, eyes and nose burning, and phlegm in throat. Smell is overwhelming outside and fills up inside of house through closed doors and windows	yes
29704	Coughing multiples nights in a row. Chest is heavy and chronic sinus problems. Odor can be smelled all the way into North Carolina. Also gets into home so can't escape from it.	yes
29704	New Indy is releasing poisonous amounts of Hydrogen Sulfide into the evironment and causing breathing problems, nasal problems, headaches, burning throat and that's only a few of the problems. Only God knows the long term effects that the EPA and DHEC are allowing.	yes
Unknown	PLEASE. Do something. The smell has been unbearable for the last week. Every day. You took away the monitors and it's been the worst ever. How can you allow this to continue. We cannot leave the house. I moved here for the beauty of SC.not to be poisoned.	yes
29707	For the last 2 days the smell from New Indy has been horrible	yes
29707-1598	The smell is in our home and outside. Woken up from sleep, eyes and throat burning, headache and nausea. THIS HAS TO STOP	yes
29707	Smell is overpowering.	yes

29707	Can not go outside of my home due to overwhelming stench in the air.	yes
29707	So sad to once again report a horrible headache and horrid smell like rotten eggs in my house from the paper plant down the road. Been going on since Jan 2021	yes
29704	Toxic chemical pollution of air and water from this criminally negligent manufacturing plant. Emissions exceed permissible limits. It stinks and it is harming the health of thousands and thousands of people.	yes
unknown	Putrid smell , cant go outside without burning eyes, nose and throat. Noticed at 8:00 AM on 7/18/2021 and again 6:00PM 7/18/21. This is a habitual problem in my neighborhood. Has been going on for MONTHS now!	yes
Unknown	Rotten egg smell	yes
29707	Please help clear this issue!!	yes
29704	I can not be outdoors due to the smell giving me a headache this afternoon. Very disappointing.	yes
29704	Shut New Indy down! It is horrific today! They have definitely increased the emissions! It smells in my home!!!! This is criminal! Do your job and protect the tax paying citizens!!!!	yes
29707	Nauseating smell all afternoon. Causing headaches. Smells have been escalating since early July. It also appears to be woes on weekends.	yes

29704	New Indy is releasing Hydrogen Sulfide that exceed the EPA acceptable levels. They are poisoning us daily and it seems NO ONE is stopping them from destroying our lives and property.	yes
29704	The funk returns. Had to leave the pool due to the stinch and causing a headache. This is obsurd that we can't even enjoy outside on a summer evening after working all week.	yes
29707	New Indy continues to cause horrible pollution in our local community. Today itâ€™s so bad that me and my husband have headaches, sore throats, and nausea.	yes
29704	New Indy is polluting the air and water with Hydrogen Sulfide, I can't breath and I have headaches and Nasal problems.	yes
29704	Can't even step outside for a walk. It's horrible. Make it stop.	yes
29704	Toxic smell permeates the area. Cannot go outside without experiencing breathing difficulties, eye irritation, and headaches and throat soreness. The smell is so heavy and poisonous that it even seeps thru to the inside. Moved to SC for the weather and did not expect to be a prisoner in my own home.	no
29704	The air smell which is giving me a headache. Unable to eat diner on back porch.	yes

29704	New Indy is releasing Toxic Hydrogen Sulfide	yes
Unknown	Smells terribly.	yes
29704	Strong stench of foul odor can be smelled at my home, which is ~13 miles from the New Indy Container Board facility in Catawba, SC. This has been occurring for several months now, despite news that a resolution was pending. It does not occur every day; however it is present on a much more regular basis and the odor is strong. I am concerned that the air my family is breathing contains harmful chemicals.	yes
29704	Strong stench of foul odor can be smelled at my home, which is ~13 miles from the New Indy Container Board facility in Catawba, SC. This has been occurring for several months now, despite news that a resolution was pending. It does not occur every day; however it is present on a much more regular basis and the odor is strong. I am concerned that the air my family is breathing contains harmful chemicals.	yes
29720	Foul sulphuric like smell permeating into the house	yes
29704	12 hours later and we get to enjoy this stink again.	yes
29704	The smell being emitted from this facility gives me a headache when outdoors.	no

29704	New Indy is releasing HIGH amounts of Hydrogen Sulfide into the environment affecting everyone's health within 30 Miles.	yes
29704	Almost went for a walk today. Another day of stench instead. And my eyes are burning and I am nauseous! What a great way to spend my retirement! This has to end!	yes
29704	Strong odor of H2S inside my home woke me up with severe headache and coughing early morning - went outside at 8 and the air was thick - makes it hard to breathe - causing burning eyes, sinuses, and nausea	yes
29704	Rotten egg smell has a heavy chemical odor more than normal. It's causing a headache. Please make this stop.	yes
29704	It's raining and the smell is infiltrating the house.	no
29704	This morning I walked outside and IMMEDIATELY got a severe headache! I changed my morning plans. No walk in the stench! We left the neighborhood so I could avoid it.	no
29704	Same as every other day. When it happens late in the evening I have trouble going to sleep as I am anxious it will wake me up in the middle of the night. This continued assault needs to stop.	no

29704	The strong odor that emanates from the New Indy Plant in the early morning hours mostly, is so bad that you can not go outside. The odor is called hydrogen sulfide which can cause all types of upper respiratory issues and worsen existing conditions. This plant operates 24/7 and generates this odor that is prevalent in a 25-30 mile radius of the plant. The EPA needs to shut them down or make them adhere to the new air quality mandates set forth before many people get sick. Thank you.	yes
29704	New Indy is poisoning us with HIGH amounts of Hydrogen Sulfide being released into the environment	yes
29729	Affected subjects more than just the air. I didn't write yesterday but the smell was awful. How can New Indy keep violating laws and get by with it. Time to shut them down.	yes
29740	The smell has been very frequent over the past 4 days, making it difficult to be outside. The smell is getting worst like it was earlier this year. The smell is also inside my house and my nose is burning from the constant odor. Please help close this facility until the company puts appropriate measures in place to reduce these odors.	yes

29704	The smell from this facility was bad last night. The inside of my home smelled and it was difficult to sleep. The house still stinks this morning.	yes
29704	The smell is absolutely unbearable this evening.. We are unable to go outside and the smell is now entering the house. We live in the Indian Land, SC area.	yes
29704	This company is discharging a terrible smell. The smell is strong enough that you are unable to be outside without getting a headache.	no
29704	Severe odor in Indian Land, Waxhaw and Rock Hill this morning as I drove through all three cities this morning.	yes
29704	New Indy is releasing HIGH amounts of Hydrogen Sulfide and poisoning us. Shut this Polluter down till they put the necessary measures in place for clean air and water.	yes

29704	The plant continues to make me SICK! Last night we had guests we had not seen in 4 years. At 9:00 PM the stench rolled back in! They were absolutely shocked we are enduring this! They left immediately after they smelled it! I now have another nose bleed! We have absolutely NO LIFE! How can we continue to live like SEWER RATS! When is the fence-line restriction going to be ENFORCED? Was that just lip service? Why cannot they cut production to match their current ability to control the toxic fumes?!?!? AND FIX THIS WEBSITE! I HAVE SUBMITTED THIS FORM 8 TIMES ALREADY AND IT KEEPS TIMING OUT! AND NO, IT IS NOT MY INTERNET!	yes
29704	This company is releasing a terrible smell that is in the neighborhood and giving me a headache when walking in the neighborhood.	yes
29704	Not sure if strong odor of rotten eggs/chemical in the air is from steps being taken to clean up sludge ponds, etc. as company is under EPA order to take measures to decrease hazardous emissions, but it is still happening and causing me to have headaches, nausea, burning eyes and skin, and is also permeating inside my house	yes
29720	New Indy is releasing Hydrogen Sulfide into the air and waterways. They're poisoning us, shut them down.	yes

29704	<p>The stench occurred on July 7 - Had a very nice start to the day. The rain forced the stench down instead of passing over the neighborhood. This has to end. When does cease and desist begin? We have no life! VERY ANGRY July 9 - twice! Once at 11:20 am and again at 6:20 PM. The stench in the evening was so bad it completely overwhelmed me when I opened my front door! Burning eyes, nausea! Sore throat! July 10 - the fog has rolled in and brought the stench with it! I feel like i am living in a SEWER! This has to end! When does the "stop at the fence-line" take effect! We have NO LIFE! Their behavior is CRIMINAL! WHAT about us? We are not science experiments!</p>	yes
29704	<p>They have been increasing emissions all week! EPA needs to protect the environment.....If this company canâ€™t comply they need to be shut down already! For the last week the smell has been horrific and it just permeating my home again!</p>	yes
29704	<p>New Indy is releasing HIGH amounts of Hydrogen Sulfide into the air and waterways</p>	yes
29704	<p>Had to go indoors because the smell being emitted from NeW Indy was so strong my family members were getting headaches.</p>	yes

29704	Had to go indoors because the smell being emitted from NeW Indy was so strong my family members were getting headaches.	yes
29704	Strong odor in the air - rotten egg smell In area of Stonecrest Shopping Center 7900 Rea Road, Charlotte, NC	yes
29704	New-Indy Containerboard continues to poison the air in South Carolina and North Carolina despite the amount of direction they are getting from the EPA and the local state governments. The air is foul and intolerable for my family and i multiple times in the past week and it was July 4th week! Horrible smell of a stale chemical that caused eye and throat irritation quickly with nausea as well for some. Today the smell came on at noon and was severe. Outrageous in America that this keeps happening. We are only 17 miles from the facility. Help us!	yes
29704	Rotten egg smell is again contaminating the air. Disgusting and makes being outside impossible.	yes
29704	The smell being released from this company is overwhelming and making it difficult to breathe and causing a headache. The wind is blowing from the south/southwest.	yes
29704	New Indy is releasing HIGH AMOUNTS of POISONIOUS Hydrogen Sulfide into the air and waterways	yes

29704	Woke up around 5 am with headache, nausea. and a slight odor inside. Don't know of weather conditions. Took my dog out around 8 am and the odor almost knocked me back - tried to hold my breath until I could bring dog back inside. It's still bad now at 9:40 am and symptoms are same	yes
29704	I am located at 16719 Krishna Lane, Charlotte, North Carolina and the smell/odor (air pollution) from the New Indy Plant I was unable to sit outside or go outside due to the horrendous odor in the air at my home the weekend of July 2nd through July 6th, and it is still ongoing. Please investigate.	yes
29704	Woke to a mild smell of H2S at 7:30am that grew to a very strong smell by 8:00. My wife awoke with a migraine headache which she has been experiencing since we started smelling the foul stench emanating from the plant in late January.	yes
Unknown	Really tired of filling this out every day	yes
29704	The odor from the plant continues to permeate our property and inside our home.	no
29715	Air pollution, rotten egg smell coming from new Indy paper plant	yes

Unknown	Toxic smell is strong and is making us nauseous. The fumes that New Indy Catawba plant keeps emitting is making our community sick. The smell is constant when the winds are heading from their direction and affected our health and quality of life. As of 0800 7-6-21 we cannot even go outside without feeling sick.	yes
29704	Releasing a terrible smell, which is blowing up to Indian Land, SC, making it difficult to breath and causing a headache.	yes
29704	New Indy is poisoning the enviroment by releasing Hydrogen Sulfide into the air and dumping poison water from their plant.	yes
29704	The paper mill is polluting our air. Whenever it smells like rotten eggs, I get a severe headache	yes
29704	New Indy is emitting toxic hydrogen sulfide emissions into the air.	yes
29704	The company is releasing a very strong odor, which gives me a headache and makes it difficulty breathing while outdoors	yes
29704	Rotten egg smell continues. Please help us.	yes

29704	<p>H2S is being released in such high levels it is permeated into my home on several occasions. This company has been doing this since January 2021 ! This should be a federal matter since it crosses over 2 states (SC & NC) . The stripper to container this poison has still not been put on (they say it's broke) plus it cannot handle only 50% of the production that this company has ramped up to. Their lagoons are clogged with some type of fiber so their aerators are not working properly. Why is this company's name not on the Superfund site by now ? Can the EPA send do anything to stop or slow down their production until these matters are resolved . The 30+ miles around this plant has been without clean and and maybe water now for months. There have been over 23,000 complaints and still no timeline of a fix ! Please help us , our children and our pets</p>	yes
28104	Air quality- horrible smell	yes
29704	<p>New Indy is releasing high amounts of Hydrogen Sulfide that's polluting the air and the waterways. They HAVE to be shut down till they remedy the enviornmental disaster.</p>	yes

29704	I'm located in the Indian Land, SC area. The smell is absolutely terrible this morning. There is no way to be outside more than a few minutes without getting a headache. The smell is now infiltrating my home This company had to exceed the allowable discharge. Please investigate.	yes
29704	Still smelled 1.5 hours after I first reported at 7:30	yes
29704	Woke up to the stench this morning. Hubby came in from outside and I could smell it on his clothes. Neighbor is having a pool party. I may not be going	yes

29720	<p>Environmental exposures to malodorous emissions are usually to a mixture of sulfur-containing gases. The exact concentration of hydrogen sulfide in these types of mixtures cannot be determined. In estimating exposure, there is also uncertainty about the dose and duration of exposure. Based on limited information, rodents appear to be less sensitive to hydrogen sulfide than humans. Since the respiratory tract is the major target organ of hydrogen sulfide toxicity, humans with asthma, the elderly, and young children with compromised respiratory function represent sensitive subpopulations. Due to the serious toxic effects associated with exposures to high concentrations of hydrogen sulfide for very short durations, all exposure should be avoided.</p> <p>8. EFFECTS ON LABORATORY MAMMALS AND IN VITRO TEST SYSTEMS 8.1 Single exposure Single exposure of animals to hydrogen sulfide by inhalation has caused death and respiratory, immunological/lymphoreticular, cardiovascular, and neurological effects. The respiratory tract is the most sensitive target organ in animals following single inhalation exposure.</p>	yes
-------	--	-----

29720	Large amounts of hydrogen sulfide in the air. It smells like rotten eggs can't go outside to exercise. Nose bleeds irritation. Laryngitis. The air quality is the poorest I've ever seen it	yes
29704	New Indy is releasing High amounts of Hydrogen Sulfide into the environment and polluting our air and water. This has been going on for 5 months and is a blatant disregard of our rights to clean air and water. The EPA and DHEC are being complicit in this outrage. You should be ashamed for allowing us to be poisoned. Do your job and close this plant down until they correct the poisoning of air and water necessary to sustain life.	yes
29704	This company is producing a terrible smell which is many miles away. I took a walk this morning and came back with a headache and felt nauseous. I have to stay indoors to get some relief from the toxic air.	yes
29704	The rotten egg smell is hindering my ability to enjoy the evening. This has been happening for months on end. Please make this stop.	yes

29704	Air pollution from emissions - outdoors and inside my house, causing headache, nausea and burning eyes today even though odor isn't as strong as has been on some occasions. The odor in itself is annoying, but it's the health issues and symptoms that continue to be a problem.	yes
29720	New Indy Container one more time polluting the atmosphere.	yes
29720	New Indy Container one more time polluting the atmosphere.	yes
29704	Sweet chemical smell. Have smelled on other days this same sickening sweet odor. Got home from shopping to this odor. So far I have been smelling it for a solid hour. A headache is developing as I type.	yes
29794	Terrible smell which is giving me a headache. I had to go inside after a few minutes outdoors.	yes
29016	Discharge of sulfides in atmosphere from New Indy Container for the last 6 months and goverment agencies do nothing to resolve it.	no
29704	Plant is releasing HIGH amounts of Hydrogen Sulfide and poisoning the air we need to breath. Can't go outside the house.	yes
29720	Foul sulphuric odor outside permeating into house	yes

29704	As predicted, the "wind" is coming from the SW. The stench immediately drove me from my screened porch back inside my house. Unless something changes quickly, my morning plans to be outside before the rains move in have been ELIMINATED!	yes
29704	New Indy Containerboard is emitting H2S so strong that it is saturating the inside of my home. I can't outside on the porch.	yes
29704	Seems the paper mill continues to release noxious fumes. Opened door and stepped outside this am in Tega Cay, SC 29708 and eyes stung an sickening smell gave me nausea. Had to step back in. Time around 0730. This can't be good for us. We should not have our air quality destroyed for investor profits. Thank you	yes
29704	H2S continues to saturate our property inside our home and outdoors. I can't sit outside or use my property.	yes
29715	Release of chemicals into open air lagoon	yes
29707	Same smell as always. Rotten eggs, sewage smell	yes
29707-1598	New Indy releasing toxins into the air. Currently causing burning throat, burning eyes, disturbing sleep, it is IN our house! This must stop NOW!!!	yes

29720	<p>Greetings, The New Indy Containerboard at 5300 Cureton Ferry Rd, Catawba, SC 29704 as a history of EPA violations. There have been over 17,000 complaints. Many local citizens have emailed and phoned the GOP senator and governor but they just received the same standardized response. This started about January 2021 when New Indy retooled the Botwater plant to now manufacture containerboard. Since no action has been taken by the SC government, lawsuits seem to be the only course of action. So our government can not prevent emissions from a company that are making people ill or is it just the local GOP obstruction. Thanks, Bob Lusk</p> <p>https://www.wcnc.com/mobile/video/news/a-look-inside-the-south-carolina-paper-plant-thats-facing-multiple-lawsuits-over-a-horrible-smell/275-fdf693b9-08b6-49b7-91bb-f830d1229742?jwsourc=fb</p>	yes
-------	---	-----

29720	<p>New Indy needs to be SHUT DOWN UNTIL THEY FIX IT - nearby residents are SUFFERING. Burning eyes, difficulty breathing....noxious gas fumes - rotten eggs - thick and weighted air that is worse when it is hotter and HOLDING the pollution. It was a tiny bit better and since this past weekend 6/19/21 to today 6/22/21 is oppressive. We felt like there was hope with the publicity and letters, but they continue to violate residents right to clean air to breathe AND polluting the environment. These fumes are trapped inside our homes, garages, and we cannot even enjoy going in our yards on some days. PLEASE shut them down UNTIL they fix it. Why are they being allowed to continue? DO something. PLEASE.</p>	yes
29704	<p>The smell from this company is terrible this morning. It is inside my house and I have a headache .</p>	yes
29704	<p>The toxic smell from this company woke me up from sleep with a terrible headache. Please stop this company from releasing these toxins!</p>	yes
29704	<p>It is very irritating to my nose and I get a headache being outside when the wind direction is from the SSW due to the toxins New Indy has be releasing. Today the smell has been especially bad with the smell inside the house as well</p>	yes

29704	I'm in Indian Land, SC. I work from home and the smell from this company is infiltrating my home giving me a headache and making it difficult to concentrate on work. There is nowhere I can go to get relief from this toxic smell. Please address this issue.	yes
29704	Very worrisome as tonight I could actually feel the effects (burning eyes and nose, sore throat) BEFORE I smelled it! Why can't they reduce production to match the stripper capacity? When are they going to get another stripper? How long will it take to clean out the stench filled lagoons?	no
29704	Mild smell of Hydrogen Sulfide this morning around 7:30am.	yes
29704	New Indy continues to release toxic emissions into our communities. The odor is saturating the inside of my home.	no
29730	New Indy is releasing emissions that saturate the air outside and inside my home and property. I'm having chronic headaches and burning, watery eyes from the chemicals.	yes
29704	Moderate rotten egg smell on a cloudy rainy day	yes
29704	Horrible smell in air from their negligence	yes
29704	The toxic smell is infiltrating the house making it difficult to sleep.	yes

29704	I walked in the neighborhood for 45 minutes this morning. By the time I got back to my house I had a terrible headache due to the smell that New Indy is discharging. Enjoying the outdoors is impossible with this smell.	yes
29704	Unable to ride my bike in the area because the smell was giving me a headache. Please stop this company from releasing these toxins so the the general population can start enjoying the outdoors again.	yes
29704	The rotten egg stink has been mild but constant all morning. This must stop. Please help.	yes
29704	Release of waste into holding basins resulting in hydrogen sulfide into air. Causing headaches.	yes
29704	Slight smell of hydrogen sulfide around my property this morning.	yes
29704	The New Indy plant continues to release high levels of hydrogen sulfide into the air. The smell permeated the house and makes us have burning eyes and headaches. This happens almost daily. Odor is very hard to remove from the house once it has enters.	yes

29704	I decided to take a walk around the community lake because, for once, there was no stench at my house. Both my husband and I noticed, as soon as we hit a dip in the trail around the lake the NI stench. There is NO BREEZE today. At every valley my eyes became increasingly irritated. We had to leave the trail and finish our walk IN THE STREET. What is the toxic stench doing to the wildlife?????????? My throat is as irritated now as it was last night when the stench was pervasive in my backyard!	yes
29704	This company needs to be shut down! Do your job EpA!!!!	yes
Unknkwn	Putrid thick odor that is burning our eyes and throats and causing headaches and sleep disturbance	yes
29707	Causing throat and eye irritation, very strong and coming into our home.	yes
29704	Toxic gases being released during the production of cardboard.	yes
29704	Horrible rotten egg sulfur in the air again by New Indy paper mill. As a result, have headaches and indigestion. Can not go outside as the stench is really bad and making me sick. Beautiful weather with a slight breeze and I can't even enjoy it. This has to stop.	yes
29704	Nothing like start and ending the day with toxic funk in the air. Have a headache this evening. Please make this stop.	yes

29720	New Indy Container. At low levels, hydrogen sulfide causes irritation of the eyes, nose, and throat. Moderate levels can cause headache, dizziness, nausea, and vomiting, as well as coughing and difficulty in breathing. Higher levels can cause shock, convulsions, coma, and death.	yes
29720	New Indy Container. At low levels, hydrogen sulfide causes irritation of the eyes, nose, and throat. Moderate levels can cause headache, dizziness, nausea, and vomiting, as well as coughing and difficulty in breathing. Higher levels can cause shock, convulsions, coma, and death.	yes
29704	My in laws are in town and unfortunately we can't even take a walk in the neighborhood due to the extreme smell from New Indy.	yes
29704	So disgusting I could not enjoy a rest on my patio or in my garden	yes
29720	The sulfur odor from the New Indy plant in Catawaba, SC which is approximately 4miles from my home, is horrible and very offensive. It has been going on for months and tonight, after a heavy rain and now still weather conditions, the odor absolutely fills the air with sickening effects.	yes

29715	Hydrogen sulfide release has increased tremendously. Many months now the smell seeps into my house. I've been having stomach cramps/pain with nausea and burning eyes. Symptoms aren't present when I'm at work in a different county. AND, I spent last week in Colorado with zero symptoms! Less than an hour after being home the stomach pains and nausea returned. We aren't able to use our tap water due to the same symptoms after ingestion.	yes
29715	New Indy's increased emissions are making us sick. I spent the past week in Colorado and my symptoms of stomach cramps/pain, nausea, and burning eyes were non existent!! Less than an hour of returning home June 12, the symptoms returned. Stomach cramps/pain and nausea. We can't drink our tap water or use it for cooking bc the same symptoms occur after ingesting.	yes
29720	Was sitting on screened porch and odor hit. No business needs to operate that interferes with people and their homes. Enough is enough. If new Indy can't fix the problem, shut them down.	yes
Unknown	Releasing sulfur smell into the air. Can't use yard, irritating my throat. New Indy needs to get this right for the people of South and North Carolina as soon as possible. Please do something.	no

29704	Unhealthy levels of sulfur dioxide emissions in air reaching over 20 mile radius from Containerboard site.	yes
unknown	Putrid Smell, causing burning eyes and throat, headaches	yes

29704	<p>Release of hydrogen sulfide very strong and causing headache, nausea, and burning eyes and skin starting around 8 am this morning and is also very strong inside my house. I have sought medical help since early March for these issues, as well as skin rash, dizziness and other issues which are new since sometime in February, before I knew about the hazardous air due to their negligence. My PCP initially ran lots of tests, but had no answers. During subsequent follow up visits she has prescribed nausea Meds, inhalers, and acid blockers just to see if anything helps but so far, nothing has helped. She even went so far as to recommend leaving for a few weeks which is not an option for me. This is an ongoing occurrence at least a few times a week and New Indy has knowingly continued this for months in spite of knowing it is hazardous and is making people ill. I know EPA has given them an order to remedy, however, I don't understand why NEW INDY is allowed to continue to harm us with these poisonous emissions while they take measures to correct, especially as they initially removed the meager and inadequate safety equipment that was already in place prior to</p>	yes
-------	--	-----

29720	New Indy Container. At low levels, hydrogen sulfide causes irritation of the eyes, nose, and throat. Moderate levels can cause headache, dizziness, nausea, and vomiting, as well as coughing and difficulty in breathing. Higher levels can cause shock, convulsions, coma, and death.	yes
29704	Stale smell. Rotten egg smell.	yes
29720	Once again, hydrogen sulfide is in the air in Lancaster County, Tree Tops Community. My throat is sore and I am dizzy. When can we expect improvement.	yes
29720	New Indy Container. At low levels, hydrogen sulfide causes irritation of the eyes, nose, and throat. Moderate levels can cause headache, dizziness, nausea, and vomiting, as well as coughing and difficulty in breathing. Higher levels can cause shock, convulsions, coma, and death.	yes
29704	Continued stench of hydrogen sulfide from the mill. Headache, sore throat, eye irritation.	yes
29704	Ongoing calcium chloride release from New Indy Containerboard facility. Odor is moderately strong in Marvin, NC and started just before 9:00am. Weather is humid, still (no breeze/wind), light cloud cover, warm.	yes

29704	The nasty odor continues to invade my home. Inside and outside stink with a nauseating smell. This has gone on for months now and must stop.	yes
29704	Plant is releasing hydrogen sulfide. Release is affecting breathing, eyes. It's causing headaches and nosebleeds.	yes
29704	The stench this morning has more of a chemical smell. It's irritating my eyes and nose and leaving a metallic taste in my mouth. I can already feel my throat getting irritated, and I was only outside for a few minutes. NI has a long way to go to solve the stench. The wind is coming from the SW. Hope it changes soon. Too bad it cannot shift to Foxboro or Indianapolis!	yes
29730	Severe smell of hydrogen sulfide " causing headache, nausea, eyes and nose burning, and phlegm in throat. Smell is overwhelming outside and fills up inside of house through closed doors and windows	yes

29704	Foul stench of hydrogen sulfide again this morning. This has been going on since early February. Sure hope the EPA or South Carolina Dept of Health and Environmental Control can do something about it. Really getting tired of not being able to enjoy our home and worrying daily about the possible health ramifications we're suffering at the negligence of this plant and their arrogant management/ownership.	yes
29720	Need to resolve this ASAP. The stench has been going on for months and New Indy as done nothing to correct issues. Has to be corruption with South Carolina government officials to let this happen	yes

29704	<p>I continue to report the violations of hydrogen sulfide odor as it occurs from the New Indy Containerboard in Catawba, South Carolina. My Odor Reports state the physical and mental symptoms resulting from this air pollution. These are environmental indications of the presence of hydrogen sulfide in the air at 5082 Big Bend Drive: Black stains on metal garden art work. Corrosion of metal on the air conditioner unit New plants and flowers dying. NOTE: We have resigned to the fact replanting is a waste of time and money Please explain how a company is able to continue to pollute our air without consequences. Where is the drinking water quality report for 2021? If hydrogen sulfide is in the air, I am sure it is in our drinking water. Response appreciated.</p>	yes
29704	<p>Severe H2S odor outside and seeping into our home at 2162 Partridge Berry Ln, Rock Hill, SC 29730.</p>	yes
29730	<p>Severe smell of hydrogen sulfide " causing headache, nausea, eye/nose burning and phlegm in throat. Smell is overwhelming outside and fills up inside of house through closed doors and windows</p>	yes
29704	<p>The air smells like rotten eggs. It is hydrogen sulfide pollution. Everything stinks, I feel dizzy, and I have a terrible headache.</p>	yes

unknown	<p>Severe hydrogen sulfide odor permeates outside air and my home causing burning eyes and headaches. Anxiety due to stress from living in an unhealthy residential area without any indication of resolution.</p> <p>Environmental signs of hydrogen sulfide in air: corrosion on metal of air conditioner unit and garden art - new plants unable to survive although cared for. Please help! I'm sure the Catawba River is being contaminated too.</p>	yes
29704	<p>THE NEW INDY HAS BEEN RELEASING AIR BORN FLUMES (ROTTEN EGGS) FOR MONTHS AND HAVE SEVERAL EPA VIOLATIONS RECORDED AND THEY ARE STILL RELEASING THIS TERRIBLE ODOR JUST ABOUT EVERYDAY..... WHEN IS THIS GOING TO STOP? I HAVE LIVED HERE FOR OVER 11 YEARS AND NEVER HAS IT BEEN SO BAD. I KNOW FROM ALL REPORTS THE COMPANY IS AWARE OF THE VIOLATIONS AND ARE STILL RELEASING THE NOXIC FUMES IN THE AIR. DO PEOPLE HAVE TO GET SICK BEFORE SOMETHING IS DONE? THANK YOU, JOHN E SAHR</p>	yes
29704	<p>On June 10th at approximately 5:30pm, the smell of Hydrogen Sulfide along Highway 5 near the Catawba River was so strong that it elicited burning in the nose, sore throats, nausea, and headaches.</p>	yes

Unknown	Burning sulfur/rotten egg odor. Eyes feel like they are on fire INSIDE our house. This has been happening nearly constantly for several months. Please make them stop	yes
29720	The area is engulfed with a horrendous stench prohibiting being outside or opening windows. It causes nausea , breathing issues and a host of other medical issues. This is no way to live, with not being able to go outside or leave the windows open. I have had throat cancer and I do not intend to have a rogue company dispel odors that can trigger another problem.	yes
29707	Horrible smell for the past 2 days. Cannot go outside. Went to dr. today and have yet another sinus infection from this. Tried to have a family cookout tonight but can't even sit outside.	yes
29704	Hydrogen sulfide permeating the air, inside my home and inside my vehicles. This issue is causing me to have chronic headaches.	no
29720	Horrible, strong rotten egg smell/chemical that irritated my throat, eyes, nose and made me nauseous.	yes

29704	Drove past New Indy and the smell was very strong. Drove all the way up to Indian Land and the air still stinks. The whole area for many miles around this plant absolutely stinks. I'm unable to be outside due to the strong odor.	yes
29720	New Indy Container. I am feeling sick. This is a health hazard, why won't you do something. Isn't that what you are about, "Environmental Protection Agency". We are all wondering when you are going to start protecting the Environment.	yes
29704	I thought New Indy was supposed to improve the stench! Another day ruined! Headache, sore throat, laryngitis, nausea. These people need to come to my house for a week. Then they will fix it!	yes
29704	Rotten eggs - particularly intense nauseating smell permeating TreeTops area in Indian Land, SC. Affects not only SC but NC as well. Nothing is being done to reduce sulphuric dioxide chemical hazardous to the health of hundreds of thousands.	yes
29720	New Indy Container. I don't think I need to tell you the problem, you already know it. What are you doing to shut this health hazard down.	yes
29704	Sulfuric odor permeates the outside and inside area of my home. It is causing headaches, nausea, and anxiety.	yes

29720	Releasing toxic orders into the environment where I live. Disrupts my enjoyment of my outdoor space.	yes
29720	Continued stench all hours of the day this week. So bad it is getting into the hours with windows closed.	yes
unknown	At 6:00 AM on June 10th I awoke to a rank smell in the air. It is very strong. This is coming from the New Indy paper plant in Catawba, and has been happening to some degree every day this week, although today is the strongest. The plant is releasing some kind of chemical that is causing these odors at night and early morning. It is now 9 AM and the smell is still strong. It is becoming impossible to keep the smell out of the house as you need to open doors to get in and out. It is possible to be outside working in garden or to enjoy sitting in your yard. This has immediate impact on my sinus/nasal passage, causes continual draining and ultimately headache.	yes
29704	Their plant is spewing Hydrogen Sulfide into the air at HIGH LEVELS. I can't go outdoors. WHY is this poisoning of the people ALLOWED ???	yes
29704	Same as EVERY day I report! Horrible headache, sore throat! Itâ€™s permeated the house!	yes

29704	This company is releasing dangerous levels of hydrogen sulfide within steam. These levels are causing millions of people from 5 counties in 2 states to deal with a variety of respiratory and other health issues. Shut it down!!!	yes
Unknown	The smell has continued. Today it smells like a mix of rotten eggs and chemicals. I cannot breathe outside. My eyes and sinuses are burning. Please shut them down until this is fixed!!	yes
29704	The smell was strong enough that being outdoors while walking was giving me a headache. Had to wear a facemask.	yes
29720	The well-documented stench from the New Indy plant is very strong tonight. I first smelled it when I was outside around 7:30pm tonight. Please do what your agency can to rectify this egregious smell. Thank you.	yes
29720	New Indy has been releasing toxins into the air and water fir months. People are suffering and the government does nothing	yes
29704	I tried eating lunch outside, but because of the terrible smell being discharged from this facility, I had to go back indoors.	yes

29704	The smell being released from this company makes living in the Indian Land, SC area very difficult. I have not been able to walk in my neighborhood because of the smell which is very irritating to my nose and gives me headaches. Since the wind is blowing out of the southwest the past two mornings I have had to cut my walks short because the smell becomes overwhelming.	yes
29707	Smells of rotten eggs. Causing eyes to burn and throat to burn as well as coughing	yes
29704	My wife and I went for a walk at 6:00 am today in our subdivision in Indian Land, SC. The smell from New Indy was very strong. After 20 minutes of walking we had to go back home because we were both getting headaches and our noses were burning. Very unsafe to be outside trying to exercise. Another disappointing day where we are unable to enjoy the basics of human life due to the toxic smell.	yes
29704	New Indy continues to emit H2S above a reasonable amount. The odor is impacting my health, causing me to have headaches and eye watering. I can't sit in my own yard.	yes
29704	The emissions they are putting out seem to have increased.	yes

Unknown	Release of hydrogen sulfide into the air causing noxious odor. Affecting nasal passages(burning/stinging), headache. Occurred 6/5 around 6:30-7pm.	no
29730	Severe smell of hydrogen sulfide â€œ causing headache, nausea, eye/nose burning and phlegm in throat. Smell is overwhelming outside and filling up inside of house through closed doors and windows	yes
29704	Permeating smell of rotten eggs smell in air(suspected hydrogen sulfide).	yes
29715	Hydrogen sulfide emissions are being released without proper mitigation.	yes
29704	This company keeps polluting the air and nothing is being done about it. It isn't difficult to turn around scrubbers on to handle this. How this continues to happen is beyond me.	yes
Unknown	Rotten egg odor, overwhelming and causing nausea/headaches	yes
Unknown	Smelly air. Causing air and throat irritation.	yes
Unknown	Smelly. Causing headache, eye and throat irritation.	yes
29704	Pollutants are permeating home, causing headaches and irritating eyes, and nausea	yes

29704	New-Indy Containerboard continues to release dangerous, toxic, and noxious levels of Hydrogen Sulfide gas into our community surrounding a 40-mile radius. This has been ongoing and nothing is being done to protect the community from the short-term and long-term effects of constantly breathing these toxic gases. In addition to the overwhelming and nauseating smell that permeates our air, community members are experiencing negative health effects such as frequent nosebleeds, respiratory and sinus issues, headaches, nausea, and vomiting. This must be stopped.	yes
Unknown	Today's stink was the worst in weeks. Started coughing as soon as I went out to take in the newspaper.	yes

29704	<p>H2S Emissions causing horrible stench which permeates into my home - approximately 1:30 am and is still inside well after 3 am. This has been going on for months and getting worse - causing headache, sinus issues, breathing issues, nausea, burning skin and rash - symptoms linger sometimes for several days depending on weather I have seen PCP on several occasions trying to get help, but stay sick 80% of the time and PCP has no ideas of any remedies other than to leave and go somewhere else to stay. I purchased and am running an air purifier which is supposed to handle H2S, but still having these symptoms several times a week when the odor is present. Once there are a couple of clear days with fresh air, symptoms subside, only to return when the air is again contaminated by this</p>	yes
29704	<p>I was unable to walk in the neighborhood due to the intense smell. Therefore I went up to Indian Land to do some shopping and it smelled terrible just going from my car to the stores. The whole area is uninhabitable.</p>	yes

29704	This is two days in a row where the smell in my neighborhood is unbearable. I can't go out for a run, I can't sit on my porch, I fear for my children breathing in this air. This company has known violations and yet they still continue to badly pollute out air. Why haven't they been stopped?	yes
29704	The smell is so bad again, I expect to spend ANOTHER DAY LOCKED IN MY HOUSE! We are not in a third world country where I would expect to be treated worse than a sewer rat! Why can they continue to spew the stench into our communities! Sore throat, headache, nausea, burning eyes, nosebleeds!	yes
29704	New-Indy Containerboard continues to release an unacceptable amount of hydrogen sulfide gas. It is causing nosebleeds, respiratory issues, headaches, nausea and vomiting among the community. This needs to be stopped immediately while investigation occurs.	yes
29704	Disgusting stink of sulphur and burning rubber	yes

Unknown	The smell from this plant is sickening. Cannot sit outside our home or take a walk I moved to SC for the beauty of the state. Since we moved here 2 years ago and since 6 months ago the stench has been overbearing. My healthy husband is now suffering from breathing issues everything the smell is present. I have headaches always when smell is present r. What is going to be done about this plant. Thousands of citizens from NC and SC are suffering.	yes
29715	H2S emissions sufficient to cause nosebleeds, headaches, ringing ears, blurred vision, and difficulty breathing. New Indy is poisoning residents of South Carolina and neighboring North Carolina counties. Please make them STOP before we become a permanently sick community or cancer cluster.	yes
29704	The smell is a combination of rotten eggs and an awful chemical smell. I woke up again this morning with a NOSEBLEED! The wind is SW at 6 MPH. It's directly from New Indy. Do none of you live around the plant? How can they be allowed to operate at this level? They are hurting SO MANY PEOPLE AND ANIMALS! Working on another headache! Why are we allowing corporate greed to ruin our lives! This is worse than COVID!!!!!! I am once again locked in my own home!	yes

29707	New Indy continues to release this foul chemical smell into the air. Makes sleeping, breathing, concentrating difficult. Please make them stop.	yes
29720	Emissions causing foul odor and making people sick. Nausea, vertigo, headache, burning nostrils , respiratory problems, watering eyes	yes
29704	This company New Indy Containerboard in Catawba SC continues to release toxins into our environment. Our quality of life has decreased. I can't even take a walk or sit in my backyard because my eyes burn, throat hurts and get an instant headache. I work all day and look forward to spending time outside and can't. Very disturbing that they are getting away with polluting our area and making people sick! Please shut them down- they've gotten violation letters and it still continues!!! Our health matters!	yes
Unknown	Rotten egg smell	yes
29704	Terrible garbage /rotten egg odor causing burning and watering eyes, nausea , headache.	yes
29704	Release of pollutants so bad that it is permeating our home, causing headaches and eye irritation nausea	yes
29704	Terrible odor from emissions causing headache, nausea, burning eyes and nostrils, vertigo	yes

29707	Serious health risk. New Indy is knowingly pumping toxins into the air. It's causing constant headaches, stomachache, burning lungs and eye irritation. Please take strict and fast action. People are getting sick and will have long lasting health issues	yes
Unknown	Eyes and throats burning inside our home from caustic fumes. Several months now for several counties. Please help	yes
Unknown	Terrible caustic rotten egg/sulfur odor. Affecting several counties for months. Our eyes and throats burn inside our own home. Please help	no
29704	Trying to enjoy the cool evening but can't due to the rotten egg stink.	yes
29704	Awful smell in air, smells of rotten eggs and chemicals. Has been in the air all day, inducing headaches	yes
29707	They are illegally pumping chemicals into the air. Causing Major headache, stomachache, burning lungs, itchy eyes. Major health risk! Horrible!!! .	yes
29704	New Indy Containerboard continues to emit hydrogen sulfide which is saturating the inside of our home. I'm having eye watering, headaches and nausea. My chest burns. The odor smells like rotten wintergreen.	yes

29720	New Indy Container. Woke up this morning with a splitting headache. Walked out side and knew why immediately. The stench from New Indy Container was really strong. I am not alone in my thought here, what is the purpose of the EPA. Are you able to accomplish anything? Shut this plant down before someone gets cancer.	no
29720	New Indy Container. Both my wife and I woke up ill this morning. Walked outside around 8:00am and immediately knew why. Everyone is believing the EPA either has no teeth or they are the take. What the hell are you waiting for, someone to die or get cancer?	yes
29720	Releasing hydrogen sulfate in the air and river...a well known deadly toxin.	yes
29704	At 5:50am, a foul odor was detected at my residence (within 10 miles of the plant).	yes
29704	Air quality is horrible, chemical hazardous smell, in violation of air emissions, every day occurrence.	yes
Unknown	Another day with odor in the air from New Indy that is causing headaches and nausea. I've been reporting it to the DHEC since April 4th and no improvements.	yes
29704	The mill is releasing harmful emissions and not mitigating it with the proper equipment and possibly more than the permitted amount.	yes

29704	Woke up to the horrible rotten egg odor. This has to stop.	no
29704	Sewage rotten egg smell at Bridgemill drive and 521 again! Are you planning on ever holding this company accountable? Just disgusting and criminal	yes
29704	H2S odor is so strong in the air that it has seeped into my home.	yes
29704	H2S odor in the air is so strong it has seeped into my home near the Catawba Indian Reservation	yes
29704	Quality of life for hundreds of thousands continues to deteriorate because you won't enforce clean air emissions.	yes
29704	Foul odor.	yes
29704	New Indy Containerboard continues to emit hydrogen sulfide despite several found violations by eye EPA and SCDHEC. Why is this allowed to continue?? The emission has saturated the inside of our home. The smell causes eye watering, my nose to burn and nausea.	yes
Unknown	Chemical odor (sulphuric) coming from plant making brown Containerboard. Eyes burning, coughing, headache - is there such a thing as clean air act? Over 100,000 people sickened in affected areas yet you do nothing.	yes
29704	Garbage odor, causing physical symptoms. Nausea, burning nostrils, raspy voice, headache	yes

29704	Strong noxious smell of rotten eggs emitting from this location today at 1400 hours, which I smelled at my home located at 3193 Oliver Stanley Trail, Lancaster, SC. No precipitation. Steady wind from SW of my home	yes
29704	New Indy continues to emit hydrogen sulfide into our communities. The odor is strong enough to burn my eyes and throat.	yes
Unknown	Smell is horrendous. People cannot leave their homes or sit outside or walk Having major headaches watery eyes and breathing issues. Something must be done ASAP	yes
28173	Excessive hydrogen sulfide pollution over a 30 mile radius. It's a daily rotten egg stink that makes thousands of residents with nosebleeds headaches nausea not To mention you can't even be outside your own home in the summer months to smell is asphyxiating. We are tired of nothing being done here even with a federal lawsuit, order to clean up and local agencies involved. This is now at a ridiculous length of time.	yes
29720	I can smell the nasty smell inside the house tonight. Why all of a sudden , the smell again. There was about two weeks when we could go outside. Please make new Indy stop making so many suffer.	yes

29704	<p>New Indy continues to pollute the air with no repercussions. It smells like chemicals. We can not go outside to breath this poisonous chemicals which are harming about environment and the people living here. This needs to be stopped immediately. Would you want your children breathing poison. We canâ€™t breath. Fix the problem.</p>	yes
29704	<p>This has to stop. I couldnâ€™t go outside most of the day today due to the putrid rotten egg smell, which caused headaches, sinus pain, and burning eyes today. My asthma is also flared up. It is unbelievable that this is allowed to continue despite EPA and DHEC violations and orders. Please shut them down until this is addressed.</p>	yes
Unknown	<p>Burning our eyes and sinuses even in our house. Rotten egg and sulphur smell. Please fix this</p>	yes

29704	<p>Add to the irritated eyes and sore throat a severe headache! THIS HAS GOT TO STOP! Another hour locked in my house! I DID NOT DESERVE THIS! NO HUMAN BEING DESERVS THIS! I am angry and frustrated and feel completely betrayed. NEW INDY continues to ignore us and run their putrid operation! How can they be permitted to do so? Have you visited the area? Do YOU smell the STENCH? do YOU have to cancel outdoor plans? are YOU sick to your stomach? I am going to contact the the NWF. We have at least one bald eagle in the area. Maybe it will get the attention of someone. Obviously human life is less valuable.</p>	yes
29704	<p>Paper Plant releasing Hydrogen-Sulfide while making brown paper. Light to mild smell in Sun City Carolina Lakes in Indian land, SC which is about 5 miles NNE from paper plant.</p>	yes

unknown	At about 8 AM a terrible, acrid smell occurred in our area. We are in a development in Lancaster County, South Carolina, but about 5 miles from the New Indy plant. This smell is very strong this morning and was still in the area at 10:30 AM. The smell has immediate affect on my sinuses. It is impossible to go outside the house when this occurs. If any doors or windows are open the smell permeates the house immediately and is difficult to clear out.	yes
29704	Can not walk outside due to the smell in my neighborhood located in Indian Land, SC.	yes
29720	The stench from the New Indy facility is strong today. Please make it stop!	yes

29720	<p>New Indy Container once again is slowly killing us. Will you please shut this health hazard down once and for all. H₂S is a very toxic gas. It has no color, but it smells like rotten eggs. The gas can irritate the eyes, nose, throat, and lungs. Too much H₂S can halt the breathing center in the brain, which can cause death. Common effects of inhaling low concentrations of hydrogen sulfide (10 ppm or less) are burning eyes, coughing and shortness of breath. Repeated or prolonged exposure at low concentration levels can cause eye inflammation, headaches, fatigue, irritability, insomnia, and weight loss. I keep giving you medical information, because all you think we are dealing with is an unpleasant odor. This is a real health hazard that needs to be addressed immediately.</p>	yes

Unknown	<p>Continue air smell into SC and NC. Sewage type smell. Causes headaches and chronic sinusitis. Cough as well.</p>	yes

29704	<p>Was sitting on my porch, praying we would be spared when it started, AGAIN. Wind from the SW. As soon as I got a whiff, my eyes started to burn and my throat got irritated. Looks like ANOTHER day ruined! I am 70 years old and worked from the time I was 13 years old, so I could enjoy my retirement! The people who own New Indy should NOT BE IN THE BUSINESS IF THEY CANNOT FIGURE OUT HOW TO DO IT SAFELY! When was the last time one of the executives even came on site to experience this travesty themselves? How can you allow them to continue to operate when PEOPLE ARE GETTING SICK!!!!!!!!!!!!!! This is worse than COVID! I cannot even enjoy my own yard! I am literally locked inside! Outdoor plans? What a JOKE! NO QUALITY OF LIFE! This is an INTENTIONAL health violation. They know exactly what they did just to save a few dollars. They drove from the Charlotte airport to visit the site and only saw a few rural homes and thought they could get away with it! This is ABSOLUTELY CRIMINAL!</p>	yes
-------	---	-----

29704	Still happening here.... New Indy Containerboard continues to spew toxic emissions.....permeating my home again this morning.., This company should be shut down for flagrantly spewing toxic emissions... Their behavior has destroyed thousands of peoples quality of life here in Lancaster and York Counties, Including over the border into North Carolina. This is absolutely ridiculous this has been going on for months! Why are they not being shut down? Why are they not using steam strippers that are equipped to handle their emissions? Who is running this investigation?	yes
29707	Odor in the air from paper mill.	yes
29704	I work in indian land sc at 4140 s doby bridge rd and the rotten egg smell from the paper mill (new indy) is so bad that this morning we are having to open the windows and a sky light to try and get the smell out of our office. i guess the air conditioner is pulling the air in from outside when it runs. i thought they had just received a violation from the EPA for this and were supposed to be correcting it. its nauseating.	yes
29707-1598	Smell of foul odor is outside and now permeating our house. It woke me up at 6:30am this morning with the odor. Getting worse the longer it lingers	yes
Unknown	A chemical smell of rotten hot dogs.	yes

Unknown	A chemical smell like rotten hot dogs. Headache, stomach upset is the result.	yes
29704	Driving across the Highway 5 bridge in Catawba, SC the smell was so intense it was overpowering. I felt a burning sensation in my nostrils and sinuses and my wife's gag reflexes occurred.	yes
29704	Severe rotten egg odor mixed with sweet chemical odor. Strong enough to burn throat and nose. Very nauseating.	yes
29704	This ongoing issue with New Indy is still not resolved. We are taxpaying citizens who are getting sick on a daily basis from the intentional negligence of this corporation. When will something be done! A clear example of corporate greed and who gives a shit about humans and the environment. We will not go away until an immediate solution is done. We are Sick and tired of being sick and tired!!!!	yes

29704	<p>This company is releasing toxic fumes from this facility overnight and on weekends. I use to be during the day or evening hours but now they are doing it much later I believe they are doing this to cut down on the number of complaints because so many of the people are asleep. These fumes make it very hard to breathe. They are choking fumes which evade my home forcing me into one room and even breathing into a towel to ease my breathing. This company is imprisoning us in our homes and making us ill. HELP!!!! We can't afford to move away to escape it.</p>	yes
29704	<p>For many months this company has been releasing toxic fumes into the air several days a week. Now, I realize it is deliberately continuing to release these fumes overnight so few people are awake to report it. It also happens usually every Friday night into Saturday morning and Saturday night into Sunday morning. The fumes are so bad I cannot breath even in certain parts of my home. I have to hideout in my bedroom. I can't go outside even to walk my dog or I can't breathe. This company is imprisoning people in our homes and making us ill. HELP!!!!!!</p>	yes

29720	Have been away and got home to the smell. This has to stop. With the heat it's more nauseating than before, and before was awful. For about two weeks it was nice. This tells me the smell can be stopped.	yes
29704	Pungent stink of rotten eggs hanging in the air	yes
29704	Releasing of dangerous chemicals into the environment that have caused me to experience breathing difficulties, headaches, nausea and even enters my home causing my birds to be vomiting clear fluids. HELP!!	yes
29720	I have no photos. Just the air quality is safe for me to smell as I have asthma. My quality of life is affected by the extreme odor in my neighborhood.	yes
29704	For the past two weeks, the wind has only been out of the southwest for short periods of time. Today the wind is from the southwest and our neighborhood near Indian Land, SC is inundated with the horrible smell from New Indy. I wanted to eat outside for lunch and had to go back indoors due to the smell irritating my senses.	yes
Unknown	My home stinks again.	yes

29704	New Indy continues to spew toxins into the environment around their plant. As predicted with wind from the SW, I am getting hit at my home. Another day completely ruined! When am I going to get my life back? Headache, throat and nose irritation! Anger and anxiety! Please come stay a my house for one day! It is absolutely disgusting! Why are they not shut down until they fix this? People and animals are getting really sick! Why are you playing nice? They certainly are not! They did NOTHING to defray pollution when they installed their equipment! They are intentionally continuing to operate, knowing they are hurting 10's of thousands of lives! It is not for their 400 employees! It is for their wallets!	yes
Unknown	An odor, strong enough to permeate our home and cause eyes to water, dry throat, and a headache is occurring as usual.	yes
29704	Seriously. New Indy has been intentionally break ing laws for 5 months and no concrete resolutions from government agencies.	yes
29720	Stinky rotten egg smell	yes
Unknown	Sulfur dioxide is health hazard to a large and populous area - the odor is horrendous and permeates entire house. Causes headaches, burning eyes, sinus irritation and nosebleed, coughing.	yes

Unknown	Chemical hazardous odor causing headaches, burning eyes, coughing, nausea - odor permeates entire house	yes
29707	Woke us up last night at 3:30 a.m. with the odor getting into the house. Terrible headache today. Extremely tired. Going to dr. on Thursday to see how this is affecting my health. This has NOT been fixed.	yes
29720	Noxious, acrid odor permeates our home at all hours, aggravating my allergies and triggering migraines. New Indy has been informed about this but has yet to mitigate.	yes
29906	Tried to go outside for second time today, overcome with sulphur stink. Don't need it describe it ... There is no mistaking it. I have been dealing with this for months. I commend you for your attempts to fix this problem, but the end to this obnoxious odor can't get here soon enough.	yes

29720	<p>New Indy Container has release Hydrogen Sulfide. H₂S is a very toxic gas. It has no color, but it smells like rotten eggs. ... The gas can irritate the eyes, nose, throat, and lungs. Too much H₂S can halt the breathing center in the brain, which can cause death. Common effects of inhaling low concentrations of hydrogen sulfide (10 ppm or less) are burning eyes, coughing and shortness of breath. Repeated or prolonged exposure at low concentration levels can cause eye inflammation, headaches, fatigue, irritability, insomnia, and weight loss. I keep giving you medical information, because all you think we are dealing with is an unpleasant odor. This is a real health hazard that needs to be addressed immediately.</p>	yes
29704	Had to close the windows in the house due to the intense smell giving me a headache.	yes
29707	Severe smell of rotten eggs.	no
29704	Releasing hydrogen sulfate into the air. Horrible smell, burning eyes and throat.	yes
29704	Worst smell yet- can smell the putrid rotten garbage dump like smell all morning 8-12p at least. My address is 441 Livingston dr, Lancaster, sc. something has got to change.	no

Unknown	Most severe today. Forced to leave home for clean air to breathe. Alternative is to seek medical assistance at an ER. Odor is worse than ever. Difficulty breathing; face burning, eyes watering and nose running.	yes
29704	Went walking around the neighborhood and had to cut my walk short because the smell was so intense. Came home and realized I left my window open and the entire house stinks indoors. There is nowhere to go to get relief from the smell other than leave the area and hope that the smell is gone by the time I return.	yes
Unknown	Stinks	yes
unknown	Harsh chemical smell when I opened my front door at 7:30 AM on Sunday, May 16. This has happened literally every Sunday for the past month. It appears they are releasing these odors in the early morning hours to try to escape detection. Smell today was strong enough to cause me to develop a headache very quickly.	yes
Unknown	Odor is so severe it is permeating our newly constructed home causing headaches and eye irritation. It is so bad today, we would leave our home and drive to an area where there is clean and safe air to breathe if we can get gas for our car. It awful today.	yes

29704	<p>The lake (cove) is full of soap suds (foam) near 532 Clearview Point, Great Falls, South Carolina 29055, from the New Indy Plant in Catawba, South Carolina. There are no warning signs to alert the people to stay out of the water. Also, EPA and SC DHEC have not tested the water in the nearby lakes, rivers, etc., to determine if there are toxins present from the New Indy Plant. Why EPA has not shut the plant down completely when you know the plant is in violation?</p>	yes
29704	<p>The mill is polluting our water and air and making it impossible to live in the area. It is affecting our health and the quality of life. People living in our area are reporting health problems: burning eyes, nose and throat, headaches, severe nausea and vomiting from the overwhelming sewage smell in the area over the past four to five months.</p>	yes
unknown	<p>At 6:30 AM I opened my door to find a very strong, acrid, chemical smell. It is very irritating to nose and nasal cavities, and can cause eyes to tear. There had been rain overnight, and the weather was cloudy and windy. This smell lasted at least 2 hours.</p>	no

29704	I went for a walk in my neighborhood about 5 miles from this facility. About half way through my walk the smell that is being discharged from New Indy was very intense. By the time I made it back to the house I had a headache and my nose was irritated.	yes
29704	The smell being discharged from this plant was enough to wake me up from sleep as the smell has infiltrated the house. There is no where to get relief from this smell other than having to leave the area.	yes
29704	New Indy Containerboard continues to spew toxic emissions and EPA continues to allow this...been up since 0300 this morning since the smell of hydrogen sulfide permeating throughout home even though windows are shut.....making people sick in SC and NC!!! Why are you allowing New Indy Containerboard to continue to operate when they have multiple environmental violations??? This is criminal and EPA is doing NOTHING to stop this! Shameful and sickening	yes
29704	Twice in one day about 12 hours apart. Please make it stop!	yes
Unknown	The smell has made its way back up route 521 into Waxhaw and up into Ballantyne. I thought that the plant was supposed to be correcting this!! We can't live like this all summer.	yes

Unknown	Sulfur/rotten eggs odor in air which causes burning of eyes and nose while INSIDE our home	yes
Unknown	Very strong odor permeating our home, causing headaches, eye irritation and nausea.	yes
29720	<p>On Motherâ€™s Day, are you kidding!!! New Indy not only releases a health hazard on us, they do it on Motherâ€™s Day. It was a beautiful Day, everyone was planning on celebrating outdoors until the New Indy assholes decided it was their God given right to destroy the environment one more time. H2S is a very toxic gas. It has no color, but it smells like rotten eggs. ... The gas can irritate the eyes, nose, throat, and lungs. Too much H2S can halt the breathing center in the brain, which can cause death. Common effects of inhaling low concentrations of hydrogen sulfide (10 ppm or less) are burning eyes, coughing and shortness of breath. Repeated or prolonged exposure at low concentration levels can cause eye inflammation, headaches, fatigue, irritability, insomnia, and weight loss. I keep giving you medical information, because all you think we are dealing with is an unpleasant odor. This is a real health hazard that needs to be addressed immediately. Thank you.</p>	yes

-------	--	-----

29720	Enough is enough. If the company can't contain the problem, shut them down. What they're doing to thousands doesn't compensate to the number of employees. It's Mother's Day and I was on the porch enjoying the morning....then the nasty smell. Too many unanswered questions to keep the place open. Please help us.	yes
unknown	At 11 AM on Sunday, May 9, MOTHER'S Day the smell was very acrid, close to ammonia. It was windy, and the wind was coming from the direction that would have passed over the New Indy plant in Catawba. This smell immediately as impact on my sinuses, and today it resulted in a sinus headache. We likely have to cancel our Mother's Day cookout. Please thank New Indy for this. In my opinion, they are laughing at us and have no intention of doing anything to stop or reduce this horrible smell. To release this on Mother's Day is the height of arrogance and is morally reprehensible.	yes
29704	Rotten Egg odor causing headache and nausea	yes
29704	Happy Mother's day from New Indy! Stinch continues this morning.	yes

29704	New Indy Containerboard continues to release toxins into the air and water affecting thousands of citizensâ€™ health and quality of life in both South Carolina and North Carolina. Currently, my eyes are burning, I have a headache and I am nauseated from the odor. The odor smells like rotten eggs and putrid wintergreen/chemical odor. This has been happening since February 2021. I cannot work in my garden today because the smell is unbearable and Iâ€™m unsure of the health effects. Please help our community resolve this urgent issue!	yes
29704	The foul stench of sulfur returned today after an absence of nearly two weeks.	yes
29704	When are you going to stop new Indy Containerboard in Catawba SC from emitting toxic emissions? SHUT them down or make them comply by putting back appropriate sized steam strippers for their increased emissions! I am sick again over this! Bloody nose, breathing issues, severe headaches ALL THE TIME!!!!!! Do what is right and police them thoroughly or shut them down!!!!!!!	yes

Unknown	TOXIC sulfur gas being emitted from manufacture of brown board/cardboard - causes headaches, severely burning eyes and skin, nose bleeds - quality of life is severely compromised by emissions that could well be eliminated by installation of proper equipment	yes
Unknown	Release of noxious hydrogen sulfide	yes
29704	Foul "rotten egg" odor in area on and off for past 2-3 months. Many of us have been repeatedly reporting to SC DHEC.	yes
Unknown	Toxic emissions are permeating our newly constructed home, causing headaches, nausea, and watering eyes. So severe we are leaving for the day to get fresh, safe and breathable air.	yes
Unknown	The air is smelling like rotten eggs!! Coming from the emissions from New Indy Plant. Wind direction plays a part I the amount of odor that come. Some days it is intolerable.I am highly reactive to the odor and my head, throat and laryngitis are very severe.	yes
unknown	Smell has increased over the last year. Someone, likely New Indy, is releasing something that smells like sulphar. Its strong enough to smell it inside our house.	yes
29720	Oder of rotten eggs along with tar, and rubber, constantly in the Tree Tops community and surrounding areas	yes

29704	The stench of rotten eggs and chemicals are coming i to my home on a DAILY basis. Last night I could not sleep. This morning my home is co summed by the smell. I woke up with a migraine and my nose is burning. I have to sleep with an air purifier!!! This cannot be good for our health! Please stop them from emitting these toxins!	yes
29704	A foul smell of sulphur was observed that is believed to be emanating from the New Indy Containerboard plant in Catawba.	yes
29704	Odor seems worse when it's humid after a rain event. This has to stop.	no
29715	Very frequent rotten egg/sulphuric odors that permeate the house. I suspect it has caused evening headaches. Concerned that this in the air is toxic	yes
29707	The smell tonight in the Brookchase community is absolutely disgusting and overwhelming. I have been dealing with a migraine for the past three hours and I donâ€™t usually get headaches. The stench is getting worse and worse by the day.	yes
29708	Air smell is horrible the smell of rotten eggs	yes

29715	On Tuesday night May 4 the air in Springfield neighborhood in Fort Mill South Carolina was nasty. The New Indy paper plant we believe is the cause of this horrible air quality. It's been going on for months.	yes
29707	Smell of rotten eggs throughout the air due to (I believe) New Indy emissions	yes
29704	Something has to be done! Residents of multiple towns quality of life is impacted. We cannot go outside when this company pollutes the air. People are getting headaches, bloody noses, throwing up, burning eyes and more. I just took a walk- left with no smell in air then bam out of nowhere horrible smell. I had to walk 20 min in it and now I'm dizzy, eyes burn, throat hurts and have a horrible taste in my mouth. Please!!!! We don't want cancer. This IS NOT SAFE! This is not enjoying life when we can't go outside!	yes
29704	Continues to emit a horrific smell that causes headaches, burning eyes and sinuses, and asthma flare ups in my family members. We live 10 miles from the plant. This is unacceptable and a huge health risk. Please shut them down until the appropriately sized air scrubbers are in place.	yes
Unknown	Horrible rotten egg/sulfur smell that burns eyes, nose and throat	yes

Unknown	Releasing poisonous toxins in the air, which create odor strong enough to permeate a newly constructed home, causing occupants headaches, pain in eyes and nausea.	yes
Unknown	Emissions causing rotten eggs, garbage, sulfur odors causing physical symptoms to many communities. They are in violation of of SCDHEC permit.	yes
Unknown	Terrible, acrid smell coming from the plant permeates our area. It is very caustic smelling, and within minutes of detecting the smell, my nose and nasal passages are affected. My nose starts running and depending on the intensity of the odor, my nasal passages ache. I have to use a Neti Pot to clear them. This odor is most often detected in the early morning or late at night, when the plant chooses to release the chemical fumes	yes
29704	At 6:30 this morning went walking in my neighborhood and immediately smelled the foul smell coming from this company.	yes
29704	Rotten egg smell was moderate on this cloudy morning. It persisted from approx 11:30AM to to late evening hours.	yes

Unknown	It's the same stench we all keep reporting to no end. It is giving me a headache. It smells like rotten sewage and wet cardboard all over our neighborhoods. This is completely unacceptable and something has to give soon. The smell has been present from at least 4pm to now (10:19 pm) and still very very very strong. Please make them accountable.	yes
29720	Choking stench	yes

29720	<p>I am getting sick and tired of writing letters about New Indy Container, and no one does anything. Yesterday, I heard a politician tell us they had received over 15K complaints between DHCE and the EPA and his office. What is the number you need before you will do something? Will you post how many complaints you need before you do something, so we can stop wasting our time. Not that anyone seems to care, both my husband and I have headaches again. H2S is a very toxic gas. It has no color, but it smells like rotten eggs. ... The gas can irritate the eyes, nose, throat, and lungs. Too much H2S can halt the breathing centre in the brain, which can cause death. Common effects of inhaling low concentrations of hydrogen sulfide (10 ppm or less) are burning eyes, coughing and shortness of breath. Unknown	<p>Horrible sulfur rotten egg smell. Continual issue, multiple months. Unable to have windows open.</p>	yes

unknown	Processing of pulp which is releasing some sort of chemical stench into the air. Complaints of headaches, nausea, dizziness , and migraines.	yes
29704	The smell is terrible outside and it is now inside the house as well. I'm trying to work from home and can't concentrate and the smell has given me a headache and my know is burning. There is nowhere to go to get relief unless I leave the area and drive somewhere. I live in the Indian Land area.	yes

29704	<p>Today is the 30th day in a row of a sickening odor in Indian Land, SC. We live in Walnut Creek sub division and have smelled this rotten egg/sewage odor every single day since 4/4/21. It is causing headaches, nausea and respiratory issues. Even after thousands of complains there have been no improvements. This is very concerning for the health of our community. Please provide an update or let us know what else can be done. We don't want to have a cluster of health issues because to New Indy refused to make things better for the community. The smell happens in my neighborhood every day for about 4 hours. IF there was a hotline number to call we could have someone come out when the smell is in the air. There is also a facebook page with several neighborhoods impacted based on the direction of the wind. Below are just a few examples of people impacted. This is VERY concerning and impacting our daily lives. York Indian Land Lancaster Waxhaw Marvin Pineville Charlotte Ft. Mill Tega Cay Union Rock Hill</p>	no
29704	Nauseous odor after a thunderstorm making the air heavy with humidity and stench from the New Indy pland	yes
29704	Running errands and the odor is throughout the entire Indian Land area this morning.	yes

29707	Smell like a combination of rotten eggs and sewage. Light rain today so was hoping no smell but woke up to it this morning.	yes
Unknown	Another day of stink in Indian Land SC.	yes
Unknown	Horrible odor smelling like rotten eggs. Get immediate headache from being outside only 5 minutes.	yes
29704	I live on Castle Rd in Indian Land and it smells particularly bad here this morning. Like rotten eggs. I suspect it's coming from New Indy. This has just been an awful thing to live through and we need help to resolve this issue.	yes
29704	Noxious odor being released from paper mill.	yes
29707	New Indy pollution . Smells coming from there causing health problems. I walked outside this am and within min became nauseous. We can't sit outside and now the smell has permeated our home. No open windows.	yes

29704	<p>I am sick and tired of reporting the same thing! I now live in a third world country. What is quality of life? I spent last year at home because of COVID. THIS year I cannot even walk outside on my own property! I am a law abiding senior citizen. I starting working when I was 13 years old and frankly, I DESERVE to be treated like a human being ! ONCE AGAIN THE STENCH HAS PERMEATED MY HOME! THIS IS BEEN GOING ON SINCE JANUARY AND THE CRIMINALS RESPONSIBLE CONTINUE TO OPERATE! THEY NEED TO SHUT DONE THEIR OPERATION UNTIL THEY CAN FIX IT! HOW CAN THE VALUE OF 450 WORKERSâ€™ JOBS HAVE MORE VALUE THAN THE HEALTH OF THOUSANDS? HOW MANY COMPLAINTS HAVE BEEN COUNTED? THIS A CRIMINAL! SICK HEADACHE, NAUSEA, PERPETUAL SORE THROAT. SHUT THEM DOWN! I thought it was illegal for anyone to intentionally invade ones property and commit assault. That is EXACTLY what NI is doing! I have no means to stop them! They should all be locked up!</p>	yes
-------	---	-----

29704	<p>This company has new ownership. For the past few months they have been releasing horribly strong smells that are causing people and their animals to get sick. Immediate headaches, eyes burning and soar throats. The intensity is much stronger and much more often where it's almost daily. Before January it was only smelled maybe 5x a year. I am very concerned about safety and our health. This is affecting my quality of life. I cannot even enjoy the outdoors. Please investigate!</p>	yes
29704	<p>The emissions being put out are intense and foul smelling.</p>	yes
29707	<p>Well...as like many in our surrounding communities, we continue to provide accurate reporting. Last night was the worst night. I woke up around 3 am with pain in my eyes, vision issues, pounding headache, and a feeling like I had to vomit. My house smelled horrid. My health concerns continued until early evening. It would great to see some progress from the organization that is responsible for this type of stuff.</p>	yes
29720	<p>New Indy Container. Second note of the day, has been going on since I woke up this morning. Hydrogen Sulfide is dangerous to humans, please shut this place down.</p>	yes

29720	New Indy Container. Second note of the day, has been going on since I woke up this morning. Hydrogen Sulfide is dangerous to humans, please shut this place down.	yes
29715	Terrible smell from New Indy mill. So strong it woke me up at 4:20am	yes
29704	The odor woke me up at 7:30 this morning. This has got to stop.	yes
29720	What a shame that this odor continues. It's a beautiful Sunday morning and we can't go outside and enjoy a cup of coffee. It's nasty! It's obvious the smell is real. What other problems are going on here..... Discharged in Catawba River...Long term effect on people as well as environment....effect on property values...unconcern of SC government, talk but no action. Please help. This is a REAL problem.	yes

29720	<p>New Indy Container is killing us. Our politicians tell us to be patient. They think they are so damn sneaky. Last night, New Indy released fumes after everyone went to bed. Guess what, it permeated into the house, and both my husband and I now have headaches. Outdoors stinks to the point we donâ€™t want to leave our house. Inside stinks, outside is unbearable. Before we have another Flint Michigan or another Erin Brokovich movie, will you please do something and shut this health hazard down. It is a health hazard. I am not asking for compliance, I am requesting you shut the place down. Enough is enough. What happens to hydrogen sulfide when it enters the environment? When released into the environment, hydrogen sulfide dissipates into the air and it may form sulfur dioxide and sulfuric acid. Hydrogen sulfide is estimated to remain in the atmosphere for about 18 hours. At low levels, hydrogen sulfide gas has a strong odor similar to rotten eggs. However, at higher levels, your nose can become overwhelmed by the gas and you cannot smell it. At higher levels, hydrogen sulfide gas can make you sick and could be fatal. Thank you.</p>	yes
-------	---	-----

Unknown	Continued strong odor which makes it impossible to go outside.	yes

29707	This is coming from the Indy Paper mill. We drove by it on several occasions and this is the exact same smell. There is no way this is not hazardous to our health. There are families here. Please do something about this. This seems to be along the lines of Chernobyl and the nuclear power plant whereas everyone knows itâ€™s bad but does nothing about it till itâ€™s too late and many people already died or were seriously harmed by it.	yes
29797	New Indy is making people nauseous. Giving headaches. Nosebleeds. Wakes me up out of a dead sleep. PLEASE STOP THEM.	yes
29704	Sickening stench in air, causing nausea, headaches and difficulty breathing	yes
Unknown	Today is the 29th day in a row of a rotten egg/ sewage odor that's making our community sick with nausea, headaches and scratchy throats. I've lived here since 2008 and used to smell this odor 6 times a year but never every single day for a month straight. 5/2 802 am Walnut Creek Neighborhood Indian land, SC 5/1 6 pm odor Emmett's downtown Waxhaw, NC	yes

29704	<p>Yet another weekend RUINED! The stench has let up for a total of only 18 hours since last MONDAY! When is this going to end? I had another sleepless night. And based on the wind direction forecasted through Tuesday Morning I will have it for at least another TWO DAYS! Sick headaches, nausea, burning eyes, perpetual sore throat. MAKE THEM SHUT IT DOWN UNTIL IT IS FIXED! HYDROGEN SULFIDE IS DEADLY! I thought the USA was trying to set an example for the rest of the world! The emissions from New Indy are NOT part of a CLEAN ENERGY PLAN! Or is this region of the USA now a THIRD WORLD COUNTRY! Where is MY ENVIRONMENTAL JUSTICE??</p>	yes
29704	<p>Odor being released from paper mill. Detected at 2275 Hartwell Ln, Indian Land, SC 29707 at 7:35 AM on 05/02/2021. Thank you for your continuing investigation of this problem.</p>	yes
29704	<p>Ongoing New Indy Paper Mill exposing toxins into air and spreading harmful rotten egg odor into the air affecting quality of life for thousands of NC and SC residents</p>	yes

29704	Strong rotten egg/sewage smell has permeated the house at 2am on May 2, 2021. Awoken by odor feeling nauseous and with a headache. The plant has not released in a few days so obviously needed to release a larger amount .	yes
29707	Rotten egg/sulfur "burns eyes even in our house with no windows having been open	yes
29704	Winds are SW at 3 miles an hour. AS I PREDICTED YESTERDAY, my plans for the day are RUINED! The acrid stench hit as soon as the wind direction shifted, now from the SW, exactly where NI is located! I am already nauseous and my eyes are BURNING. The community is having a concert in our amphitheater! I walked out the door to attend and it hit me! I am now shuttered in my home, yet AGAIN! SHUT THE PLACE DOWN! THAT WILL PROVE WHO"S CAUSING IT! TIRED OF LIVING IN A THIRD WORLD COUNTRY!	yes
29704	It smelled like rotten eggs and the smell was enough to force my family indoors after trying to have dinner on our patio. The smell most nights will give me headaches when the wind blows from the southwest towards Indian Land, SC.	yes

29720	Release of chemicals used in process of manufacturing container cardboard. Release is causing foul smell in areas near plant. Plant has changed manufacturing processes and removed "scrubbers"	no
29704	The New Indy Plant (paper mill) is making our life miserable. We can not go outside on our patio or even open the windows in our home because of the smell. Please look into this issue.	yes
29704	Sulfuric Kraft paper process type smell at 1041 Bunker Hill Road causing headache and irritated eyes.	yes
Unknown	The smell is unbearable tonite. Something needs to be done. Headaches breathing issues just some of effects from it. Seeping into our home. No escaping it.	yes
29704	The smell being emitted from the company is so strong it has given me headaches and it is unbearable to be outside. Outside activities cannot be enjoyed. This all started in February 2021.	yes

Unknown	Numerous residents including myself have been smelling the awful stench from this company and reporting it multiple times a day. It has to stop. It sickens me to be outside and I've paid plenty of money to live here. This has to stop"please take action as soon as possible. The odor isn't just mildly unpleasant. It is unbearable almost every hour of every day.	yes
39707	Release of toxic emissions "sulfur/rotten eggs smell. Our eyes are burning from it INSIDE our house. This has been pretty constant for a few months now and is affecting at least 4 counties in the area	yes

29720	<p>Sulphur gases are being released into the air and are traveling to thousands of neighborhoods in this area and into southern NC. I have smelled this noxious odor into the Blakeney area which is in Charlotte, NC, as well as into Weddington, NC, Marvin, NC, and into Waxhaw, NC. The odor is so strong it drives everyone inside, but even there you can't get away from the smell as it is now in our homes. Not only is this an environmental and physical issue, but it is a health hazard and people are getting sick. This has been going on for months and appears to be coming more frequently each day. There is no reprieve from the toxic rotten egg smell. It gets into your sinuses, causes headaches and sore throats, and keeps people from even taking a walk to exercise. The news is not telling how bad it is because they don't live here. If you all lived in our neighborhood, you would have this dealt with quickly. Is anyone listening?</p>	yes
-------	---	-----

29704	It is absolutely imperative that the EPA does its job and stops this company from polluting the air and water with its nauseating chemicals that impregnate our homes on almost a nightly basis making people sick. We are tired of hearing excuse after excuse. It is ASSAULT, not simply living downwind from these environmental killers. They are spreading particles and odors that smell like feces, nail polish, acetone, and sewage daily into the lungs of hundreds of thousands of people. Again, this company is ASSAULTING people by invading privacy and polluting our private property with their chemicals. THIS MUST STOP.	yes
29720	New Indy plant producing polluted air that is affecting my breathing	yes
29707	Small of rotten eggs coming from the paper mill. Causing headaches and breathing problems	no
29704	This company continues to let off horrific odors where me and my neighbors here in the Tree Tops by Lennar community, cannot go out or have our windows opened. And the odor trickles into our home though our clothes dryers vent . Senator Michael Johnson is involved along with local councilmen/councilwomen but that was 3 weeks ago. Why are you allowing New Indy to cause a hydrogen sulfide odor? Help!!!	yes

29704	Another morning being woken by the odor permeating the air and in my home.	yes
29704	Facility is emitting toxic gases into environment. Intentionally. Causing Sulfur smell and causing residents in nearby counties to become ill with headaches, vomiting, stinging eyes. We are unable to spend any time outside without becoming nauseated.	yes
29704	The are releasing some sort of contamination that flows through the air. I have been experiencing strong odors at night and early mornings over the last few months. It smells like rotting eggs and gets inside my home and will not go away. I fortunately get to go to work and can get away from the smell. Unfortunately my 87 year old mother has to stay at the house and endure this smell. It cannot be healthy to be breathing this air.	yes
29707	Unknown smell throughout this and surrounding county.	yes
Unknown	Stench is so severe it has permeated our newly constructed home, causing burning and watering eyes and nausea	yes

29704	The smell from this plant has been extreme on and off for several months. I live several miles from the plant and last night, like on numerous occasions, the smell gave me a terrible headache. My family has to limit our outdoor activities because the smell is so irritating to our senses.	yes
29704	Very pungent smell again. Could not do daily walk. Smell is as bad as ever.	yes
29704	Horrible smells polluting air, especially awful today and near my children's school. It pains me to know they are outside filling their lungs with this.	yes

29702	<p>New Indy is a cardboard manufacturing business. We have lived here, in Tree Tops, for almost 4 years. We noticed the odor occasionally when we moved here in 2017. This past year the odors have gotten unbearable & constant. The odor permeates the inside of our house & all of the air. We are forced to stay indoors with our windows & doors closed. We rarely sit outside because of the noxious odor. I have asthma & have noticed an increase in my episodes. I must use my inhalers constantly. Not to mention the effect on my eyes & the need for prescription eye drops. Please don't allow New Indy to increase their output 48. %. They have already turned off the scrubbers. This is affecting the health & welfare of thousands of people in the area, not to mention what the cost is to our homes resale .</p>	yes
Unknown	<p>The odor is worse today than in the past it seems. Don't even want to walk outside to get in my car. No one should have to live like this. We all bought our homes prior to this- there was no notice to anyone informing us of what was about to happen. This isn't right.</p>	yes

29730	New Indy is polluting our air. They have retired their air off gas stripper and steam stripper. Because of this the odor in the air smells like sewage in the air. It get so strong sometimes I can smell it in my house. Now they want to increase there emissions 48% and put more into our air. Is this going to make us sick? Should they be allowed to pollute our air? Please help us stop them.	yes
29707	Horrible smell from New Indy pulp mill at 8 pm tonight. Notice very high particulates on nearby Catana Indian reservation	yes
29704	Severe noxious stench of rotten eggs, causing eyes to burn, wheezing cough, nausea. Became aware of the Order beginning around 8:15 PM with increasing intensity.	yes
29720	The smell from this plant has overpowered this area. My eyes have started to burn. It's foggy out (because of air quality) the stench permeates our homes.	yes
29704	The release of hydrogen sulfide continues to plague our entire community!! Please force them to stop all processing until they fix the issues and make them stop poisoning the air that our children are breathing!	yes

unknown	<p>Every day the New Indy plant releases noxious odors into the air. It is especially strong in the morning and at dusk. Weather has no effect - today was sunny with slight breeze, but this also happens on overcast days and still air. The plant has been cited for having several violations, but in its response to the state agency, has no intention of correcting any violation or seeking to stop or improve the emissions. We have learned that the company has requested to increase the amount of the emissions as well. At a minimum, this company should be compelled to address the violations identified by the state agency. This is becoming a daily problem, and our lives in nearby communities are simply intolerable. We cannot go out of the house, it affects nasal passages and sinuses, and it is totally unpredictable.</p>	yes
---------	---	-----

29707	<p>Noxious, putrid odor that is causing burning eyes, bloody noses, throat irritation, headaches, and other symptoms. It is very frequent , often overwhelming and prevents one from enjoying any outside activities. The fumes seep into our garages and homes and linger for days. I and many of my neighbors have been awakened at night from the strong foul smell. This is a danger to our health, an assault on every aspect of our lives, and a completely unacceptable and unnecessary threat to our well-being. Something must be done immediately.</p>	yes
29704	<p>Extremely bad stench that ranges from rotten eggs to sewage to gas leak during the mornings and evenings just about everyday.. The smell permeates inside the house and effects my pets and myself who is pregnant and deathly afraid of what inhaling this chemical will do to my unborn child!! I will seek massive damages if there are negative effects because of this.</p>	yes
29720	<p>My house stinks, I have a headache and my throat is scratchy.</p>	yes

29704	Smell permeating indoor houses and preventing outside access to fresh air. The smell of rotten eggs is giving me a headache, affecting my asthma and is a danger to my husband who is a recovering throat cancer patient and should not be inhaling this horrendous odor. Being locked in the house with this smell is unconceivable I don't know why this plant is not shut down. The health of the community should be foremost considered.	yes
Unknown	Please help us with the toxic emissions that are being released by New Indy and causing a sickening smell across North and South Carolina. I urge you to speed up the response to protect citizens health.	yes
Unknown	Odor smelling like sweage/rotten egg causing headaches, nausea and waking us up at night. This is day 25 in a row of the odor.	yes
29704	The stink has me coughing and vomiting at 8:15 PM	yes

29704	<p>New Indy Paper Plant switched to New Indy Container Board and has ceased using air scrubbers and other methods to clean the release of emissions into the air. The air quality in our area (26 minutes by car) has dramatically decrease and our health is impacted. My 3.5 year old son wakes up in the middle of the night with headaches when the stench permeates into our home. He also suffers nosebleeds now and eye irritations constantly. The burden should not be on a homeowner and taxpayer to buy \$1,000 air scrubber and stay indoors for fear of breathing noxious fumes. I am pregnant and wake up nauseated with horrible skull splitting headaches. My OBGYN is concerned for my health and my unborn child. The EPA has been involved in researching this but we need more help to avoid being another Maine air quality issue or like Flint Michigan and the damage be almost irreversible. We also don't want to incur all the burden of moving, moving expenses, etc. We moved here for the wonderful school districts country feel. This health hazard outweighs all of the good. We need help in York County SC. I have also contacted the Mayor, multiple State Senators, the State Governor</p>	yes
-------	--	-----

29704	Ongoing foul odor has been happening for some time in Lancaster county. (Sulfur smelling) Today. 4-28-21 at 8:00am it was very very strong and it causes burning sensation for eyes. It was overcast outside and no wind. I have had dizziness, headaches and eye fatigue. I am now doctoring with an ear, nose and throat specialist to determine the dizziness and am hoping itâ€™s not environmental. I believe you already have had several people possibly share their concerns. Thank you for allowing me to share.	yes
29720	Stench New Indy is emitting is make us all sick! Not only is the smell disgusting we are getting sick! Itâ€™s permeating our homes, the air outside! Headaches, nausea , chest congestion, burning in eyes	yes
29704	Air is being poisoned by manufacturing by product of container boards being released into the air	yes
29704	Rotten egg odor polluting our air on a weekly (almost daily) basis. It is so strong that it enters our house, even with all doors and windows closed. It causes headaches and nausea to my family.	no
Unknown	Releasing pollutants in the air which travels to neighboring areas which negatively affect health of residents.	yes

29704	Air smells of raw sewage or rotten eggs. Plant is releasing chemicals into the air and/or water stream that is spanning multiple counties making it impossible for families to live, work and play.,	yes
29704	According to ongoing investigation and reports, New Indy is in violation of more than one regulation in their operations with regard to environmental issues - disposal of waste, possible ground water contamination, etc. Although NI has been made aware of these violations, from their stall tactics in responding to deadlines, etc. it appears they have no intention of cleaning up or addressing issues of concern. Once again, as happens at least several times a week, the odor from the emissions from the facility has blanketed the area where I live, and has again seeped inside of my house - despite my windows remain closed. It started earlier last night, but I was awakened with headache and nausea from the fumes around midnight and it's now 1:15 am and still inside. .	no
29704	Sulfur smell in air where I live in Marvin, NC.	yes
29704	Continuously smells. Can't enjoy the cool evening outside. Even smells in my house with the windows closed.	yes

29707	Affecting air and possibly water. Nose burning, sinus problems and headaches. Chest congestion. Cannot go outside even for short walks. Affecting quality of life for many.	yes
29704	Intense smell of rotten egg es causing cough and burning eyes. This stench permeates our home even with windows closed.	yes
29704	We are developing serious health concerns in regards to emissions that DHEC has determined to be coming from the New Indy Container board plant in Catawba. This isnâ€™t just papermill odor- it spans 9 counties and 2 states and is causing our eyes and throats to burn, and severe headaches and nausea when it is present multiple times a week, and is also waking us up in the middle of the night because the odor is so pungent inside our homes. The increasing frequency and severity or the odors that are causing widespread health problems need to be addressed from the federal level with urgency. It is possible for the plant to continue to operate while being good neighbors and good stewards of the air quality in the Carolinas if they invest in the proper equipment to clean the emissions coming from their plant and we need you to urge them to do so. We can also smell the noxious odor in our water supply.	yes

Unknown	Sulfuric odor, burning odor	yes
Unknown	Rotten eggs/sulfur odor that causes eyes to burn and cough. Has been happening quite often last couple of months. Affecting several counties and destroying standard of life.	yes
29704	SSW wind directly from the New Indy plant to my location. Smells strongly of sulfur in my house and outside.	yes
29704	The smell and associated pollutants from this newly changed plant continue to travel into my home. We cannot go outside. It smells inside my house even though doors and windows are closed. My asthma is flared up, I have headaches and burning sinuses. The health of everyone in this area is at stake. Please make them fix this.	yes
29704	Horrible smell, rotten egg like. Unable to sit on patio tonight. Recurring problem for several months, multiple times a week.	yes

29704	Odor caused by what is believed to be hydrogen sulfide, releases from this plant are now occurring almost daily. I walked outside to sit on my patio and the odor is horrible. My eyes started burning and there was no way I could stay outside. What does it take to get someone to test the air to see what the concentrations are. No one knows for sure if it is above acceptable levels. An outside testing company must be contacted instead of relying on New INdy to police themselves which is all that has happened so far. This is my second report and I know you have received many others. What does it take to get help on this. I am in a \$500,000 house and cannot even sit outside. It sometimes even permeates into the house.	yes
29720	It's getting worse.	yes
UNKNOWN	THIS PLANT HAS NO REMEDIATION EQUIPMENT INSTALLED TO FILTER POLLUTANTS ITâ€™S OWNED BY ROBERT KRAFT WHO HAS POLITICAL PROTECTION	yes
29720	Horrible stench	yes

29704	<p>Submitting this after speaking with Cottrell in Air Quality Office: There continues to be a smell consistent with rotten eggs in my neighborhood in Fort Mill, SC and in the offices where I work in Pineville, NC and Charlotte, NC (Steele Creek). This odor has been linked to New Indy Containerboard in Catabwa, SC. Local officials have urged us to contact SC DHEC via a form. Calls to local SCDHEC have lead us to calling SC DHEC in Columbia. Their representative told us that the EPA is involved, but she has not details on the timeline or the details of the investigation. The update on the SC DHEC website update on 4/23/2021, "if you experience symptoms that do not dissipate once you are removed from the odor(s) or have concerns about your health, you should see your primary care provider." The implication is that the odor is creating some sort of symptomology in individuals. Is there something in the air that could be creating symptomology without the odor being present? It sounds as if we are awaiting the EPA investigation to know. That is not exactly comforting. There is a growing concern amongst my neighbors, friends, people I speak with at kids sporting events</p>	yes
-------	---	-----

29720	New Indy Container release of hydrogen sulfide. Hydrogen sulfide is causes know health issues. Need our state government to for once in their lives become effective at something and shut this damn plant down. I don't care if they have, or don't have a permit. Health trumps their need to operate.	no
29704	The noxious fumes from this plant make it very difficult to breathe outside and inside my home. My eyes water, can't breathe, sneeze, and feel trapped. The only escape is to get in my car and drive for miles to escape the odor. It happens almost everyday and especially on weekends and late nights. It seems as if they release the chemicals late at night and on weekends when authorities are not around. This plant is releasing toxic fumes that are endangering lives.	yes

29704	<p>The activity of this plant is causing a release of chemicals that strongly smell like Sulphur. It is causing many of us to get sick (burning/irritation of the throat, eyes, ears, sinuses, and causing nausea, dizziness, and headaches). It is waking us up at night as the smell gets into our homes. Each occurrence is being reported to SCDHED. The plant is doing activity at night that is causing this pollution. This is happening several times a week now since February and is getting worse in frequency of occurrences and strength of the odor. We are very concerned on the short and long term effects on our health, especially the vulnerable; and the effects on the environment, wildlife and other communities down stream. Can you please help us? Thank you.</p>	yes
29704	<p>There is a strong stench In the air, which causes the eyes to burn and an irritation in the lungs, which causes coughing, it is been like this since I woke up this morning. Unable to sit outside and enjoy the day. Please do something..</p>	yes

29704	<p>The horrific smell being reported over and over again was strong and present upon waking this morning at 7oâ€™clock in the morning. I was gone from the area from 8 to 12 noon. When I returned home the air outside had cleared. The stench in my home was stifling. I have a severe headache dizziness sore throat and burning in my esophagus in my own home! There is something more than just air being released from this company. There has got to be some type of droplet and other debris other than air coming around. This needs to cease now before people have permanent affects. My home is located in Bridgemil, the town of Fort Mill, 29707</p>	yes
29704	<p>Sulfur smell daily since Easter that is causing residents to get headaches and nausea. The odor is so strong we can go outside and smell comes inside even with windows and doors closed.</p>	yes
29720	<p>Today's odor at around 11:30 AM is distinct paper mill. The odor early in morning around 4 AM was more rotten eggs/ sulfur. Seriously pleas take action before some one gets ill. This been going on for months.</p>	no

29707	The air smells like rotten eggs. I was going to move anyway, but the smell was so bad, I left my home and moved in with my parents, leaving my pets behind. It gives me a headache and wakes me up from my sleep. Sometimes it smells like burning rubber or plastic, but it seeps in your home and lingers.	yes
29707	Rotten eggs, sewage/sewer smell. Causing headaches, dizziness and chest congestions. Seeps into the house so cannot just come inside to get away from it.	yes
29704	This horrible rotten egg smell is impacting so many communities. I was woken up by the stench at 3 am this morning. PLEASE HELP US!! This is happening almost every single day!!!	yes
unknown	Severe rotten egg smell. Continues to go on to where we cannot be outside due to toxins probably in air, plus permeates home. Can someone please stop them from operating until this is gone and figured out? Human health at stake. This is getting ridiculous.	yes
29704	Terrible smell coming from New-Indy Catawba Mill. It woke me up in the middle of the night last night. We've been dealing with this for over a month now. I'm worried about the long term health risks for my 9 month old baby girl.	yes

29720	The smell of rotten eggs daily since early February when they changed their processing of paper and cardboard. Also getting inside our home even with windows shut. Cause cough & nausea.	yes
29707	Since February there has been an on/off sewage and chemical smell that is so strong in the area that it is affecting 3 counties and 2 states. It is apparently from New Indy paper mill bc they have taken away their air scrubbers. It is a vile putrid smell and is permitting our houses and it needs to stop. It's hard to go about daily activities when it's brutal to be Outside or inside. Please help!	yes
Unknown	Smell of rotten eggs so strong it invaded my house. All the windows are closed.	yes
Unknown	Toxic smell and ash released into the air. Causing headaches, nausea and inability to be outside.	yes
29707	Something is wrong. The stench has never been this bad or often.	yes
29715	The odor from the plant continues to permeate our home. I feel like we can't live like this anymore. It wakes us up several morning each week, today at 2 am. It's disrupting our lives and enjoyment of our home and I'm concerned about health risks for my family.	yes

29704	We can smell at horrible rotten egg smell in the air in North Carolina (304 Landau Rd.). It happens often and we are so sick of not being able to go outside due to the horrible air quality.	yes
29720	Noxious odor continues. Perhaps with dioxins and furans from lack of stack controls at New Indy that were removed last fall (2020)	yes
29720	I have reported many times. At this point the release is intentional, meaning New Indy knows there is a problem. When I went to bed early morning, it was bad, and unhealthy this morning, no way to be outside. Nasty! The odor problem is costing people to have to run air, not able to open windows, cannot be outside, health problems to some. It's time something was done.	yes
28173	Unknown to me	yes
29704	Continuing foul odor in the air that is thick enough to actually taste.	yes

29704	Unfiltered air being released from the paper mill, New Indy Container Board, that is affecting air quality 15-20 miles away. The smell being produced from this plant is a now common occurrence, and reeks of rotten eggs/sulfur. It is causing headaches, nose bleeds and nausea in myself and my young children. We have lived here for 8 years and this is a recent problem after they changed the type of product they are making, but have not updated their filtration methods.	yes
29720	Horrible choking stench	yes
29704	Odor of rotten eggs permeating neighborhood for months. Can smell inside home with doors and windows closed & locked.	yes
29720	Stinking up my house and the neighborhood.	yes
29720	Stinking up my house and the neighborhood.	yes
29720	Stinking up my house and the neighborhood.	yes
29704	Nauseous odor. Can't go outside; smelling this odor also inside our house.	yes

29704	TERRIBLE stench in the air. This has been reported MANY TIMES and nothing is being done. SHUT DOWN THIS PLANT UNTIL THE POLLUTION IS FIXED! We can't go outside in our yards; we can't walk our dogs. We are getting terrible headaches IN OUR HOUSES because the smell comes in through the ventilation!	yes
29704	Paper processing plant, changed processes a couple months ago. New process releases toxins in the air that creates a foul rotten egg smell in the air for many miles east of the plant. Odor creates health issue such as chronic headaches, burning eyes and nausea.	yes
29707	A smell in the air that is horrible and causes a burning of the eyes. Has been bad since we woke up this morning and is happening repeatedly.	yes
29704	Waking up to the nasty odor. Can't enjoy outside and smells in my house.	yes
29704	Release of noxious odor from plant. I would appreciate that the EPA would monitor and resolve this issue. Thank you Robert Holiday	yes
29704	Processing of paper emanating sulfur stench as well as possible methane gas.	yes
29704	Sludge in wastewater . Containerboard processing. THEY NEED TO ADD AIR SCRUBBERS!!!	yes

Unknown	Rotten egg smell in the air from 20 miles away from the plant. This is an ongoing problem and has been increasing in frequency and duration.	yes
29704	Once again, there is an EXTREME sulfur/rotten egg odor. It became noticeable around 5am, as the odor filled our home [with doors and windows closed]. We are experiencing a burning in our throats from breathing it in.	yes
29704	New Indy continues to release noxious gas. The gas permeated my home and woke me from deep sleep and is causing me to have headaches and chronic eye watering.	yes
29707	Rotten Egg smell	yes
29704	Release of foul smelling substance in the air. The odor is a rotten egg smell, most likely hydrogen sulfide.	yes
Unknown	Horrible odor outside that smells like sulfur or sewer. Same odor that has been happening for months.	yes

29704	<p>I'm sure you are all aware. The New Indy Paper Company is out of control. The smell is horrid, causes migraines, sore throats, and inability to sleep. Please continue to look into this and not go off of data based from the independent engineering company New Indy hired. This is not a reliable source of information. An independent study outside of New Indy needs to be performed during the hours of the day you can actually smell it. Not midday as New Indy researched. Please look at this. It is not normal.</p>	yes
29707	<p>The plant recently change processes and is in violation of a number of regulations (government documents) and continues and pump stuff into the air that is causing nose bleeds, stomach sickness, headaches, eye irritation, etc. it literally wakes people up in the in the middle of the night because itâ€™s suffocating. Mothers are crying at night when the smell it out of health concerns for the kids and knowing that theyâ€™ll have another sleepless night.</p>	yes

29704	<p>New-Indy Catawba LLC 5300 Cureton Ferry Road, SC. 29704 The New Indy Catawba smell is getting worse here in Fort Mill, SC. This morning the smell woke me up at 4:15am. Something must be done to stop this company from polluting our South Carolina air. Can the EPA help correct this environmental problem that has popped up in our state and is impacting our neighboring state of North Carolina. New Indy must be held accountable for polluting the air we all breathe. We believe the air quality is and will continue to be a health issue, as it is already impacting children and adults with headaches, sore throat, feeling sick to stomach, migraines, and difficulty breathing.</p>	yes
29704	<p>Strong sulfur odor woke me up because it is inside my home. My anxiety gets bad and my blood pressure rises because of the fear I have of what I am breathing in, yet there is no way to avoid it. I have air scrubbers on my hvac units and an air purifier but they do not even help keep it out of the house.</p>	yes
29704	<p>New Indy cardboard manufacturing co is releasing steam into the environment effecting 5 counties in 2 states. The smell is noxious and irritating. It permeates the house causing our eyes to tear and our throats to burn.</p>	yes

29707	Strong smell started around 6pm. The smell is inside our home as well. It is 11:15 pm now, and we still can't open the windows or go outside. The smell is making me and other people in the neighborhood sick, having headaches, wake up at night, feel nauseous. This is not normal and can not continue.	yes
29720	Horrible sulphuric rotten egg smell from New Indy pulp mill in Catawba SC	yes
29704	Releasing horrendous pollution fumes into the air. Affecting quality of life for 12+ miles from facility. The smell is so strong from our home 12 miles from the facility, that we can smell it indoors with windows all closed.	yes
29704	Overwhelming stench of rotten eggs	yes
29704	Odor continues.	yes
29704	Toxic foul smelling rotten eggs in the air. Permeating inside of home. Causes headache and burns eyes !!! Nose bleed. Affecting quality of life .	yes
29707	Rotten egg surfer smell 18 miles from New Indy. It is causing difficulty breathing and inflamed bronchial pathways as well as burning eyes.	yes
29707	Smells like a combination of sewage, rotting eggs and smoke. Can't sit outside at all. Even the dogs are being affected.	yes

Unknown	Rotten Egg smell in the air. Comes in the house with the windows and doors closed. I live in Fort Mill, SC and can smell it from 20 miles away.	yes
29707	Intense foul odor, causing headaches and burning eyes and throat for our family. Keeping us awake at night, seeps into our home.	yes
29707	Smells like rotten eggs or soured laundry. 9pm. New Indy paper mill over in Catawba is the violator.	yes
28277	Horrible rotten eggs smell affecting ability to be outdoors and promotes headaches.	yes
29704	Mild Smell of wet clothes that have spoiled at 1pm when I left for work today. Smells like a paper mill. I normally smell it midnight to 1 am when I get off of work.	no
29704	Strong odor emanating from the paper mill. I believe that the EPA is aware of this and is investigating. This issue needs to be resolved quickly. Thank you. Robert Holiday	yes
29720	It's dinner time. Want to be outside. The stench is nasty! Does SC not care about air quality and emissions. It's 2021 not in the 40's. This smell can't keep happening. SC has to be better and not allow this to continue.	yes
29707-6821	I don't know what they are doing, but the result is a stench in the air that is unbearable	yes

29720	They're stinking up my house. I have a headache and my nose is bleeding. Please stop them.	yes
Unknown	There has been a horrible smell since feb. all times of the day and evening. Cannot go outside home. Affecting our quality of life. Something needs to be done. ASAP.	yes
Unknown	We are again besieged by the horrific fumes emanating from this fucking Cardboard Plant owned by Robert Kraft.	yes
29720	The release of chemicals in a	yes
29704	It continues to smell of rotten eggs in the air 10 miles away from this plant. It is smelling in my home. I cannot go outside. My asthma has worsened, I have headaches, and my toddler even complains of the smell. I am very concerned for our health at this point.	yes
29720	Horrible stench	yes
29704	Gas being released that permeates the outside and inside of our home. I have chronic headaches and eye watering since being exposed to this.	yes
29704	Toxic smell coming from this paper plant. Made throat and eyes irritated when I stepped outside in Tega Cay, SC on 4/24/2021. My throat is still sore from these noxious fumes.	yes

29704	Foul odor resembling rotten eggs have affected a large are in both South Carolina and North Carolina for the past several months. SC DHEC has determined that New Indy cardboard plant is source. Odor infiltrates houses and causes headaches and wakes people from sleeping in their homes.	yes
29704	New Indy has been the source of a horribly foul odor for months now. This issue has been on local news broadcasts several times, yet New Indy denies they are the culprit. The SC DHEC has been in contact with them constantly about the issue, yet they refuse to take appropriate action, though DHEC has received thousands of complaints. I understand that EPA has met with them, but the company is not relenting on their polluting the air and making the quality of life in several counties surrounding the plant nearly unbearable. PLEASE TAKE ACTION AND MAKE NEW INDY STOP THE STINK!!!	yes
UNKNOWN	FUMES FROM PAPER MILL UCCURING MANY TIMES A WEEK, CAUSING NAUSEA, HEADACHES, RESPIRATORY DISTRESS.	yes
Unknown	Please this plant needs to be shut down immediately I live 30miles away and I canâ€™t even sit in my own home without my eyes burning. This is obscene!!	yes

29707	Violent rotten egg/ poop smell. Gets in our home and stays there. Causes severe headaches,sore throat, dizziness and nausea.	yes
29707	Smell/gas is unbearable, causing coughing and headaches	yes
29704	Horrible smell in the air for months. Gets stronger and stronger. It smells like rotten eggs or sewage. It causes headaches and burning eyes.	yes
29707	New Indy pulp plant.... this plant is currently in violation of SC state laws. It was recently purchased by a new company and switched to a different product. The surrounding area has been filing complaints for weeks with the state. Kids are sick, People are getting bloody noses, weâ€™re waking up in the middle of the night because of the agents in the air.	yes
29704	Odor has been going on all evening.	yes
29707	My eyes starting burning terribly so I knew before I even walked outside that it was going to smell terrible. This is affecting several counties in the area. For several weeks now.	yes
29704	There is an EXTREME sulfur/rotten egg odor, so far noticeable the moment you step outside.	yes
Unknown	Smelling up my house and giving me a headache.	yes

29707	Smell of rotten eggs from a change in manufacturing with multiple known violations upon inspection report. The smell is permeating my home 10 miles away and causing headaches and asthma flare ups	yes
29707	Smells like sewage or rotting eggs. Cannot sleep. Seeps into house. Ruining our quality of life.	yes
29704	There is an EXTREME sulfur/rotten egg odor. It woke us up around 5am, odor filled our home while we slept.	no
29704	Horrible horrible smell!!! Filling the air and my house with a terrible stench. Causing headaches and sore throats! Needs to be addressed immediately. The health of residents in this area and beyond is jeopardized! Action must be taken immediately!!! What's being done is not enough!	yes
29704	Distinct acrid odor in the air causing burning in my throat and coughing	yes

29704	<p>Awful, rotten egg-like garbage smell throughout the Masons Bend community and inside our home. Tends to be stronger on cloudy, rainy days but also noticeable on clear, sunny non-windy days. Odor first detected around Feb 2021. As of mid-late March 2021 we also started to notice a greyish/black film of dust on all our plastic in the home (such as plastic storage bins, toilet seat surfaces, inside freezer/refrigerator plastic surfaces, etc.). I normally do not get headaches but have started to get headaches over the last few days, unsure if related to the odor but worth noting.</p>	yes
-------	---	-----

29704	<p>Every few days this company has an odor so bad for miles away itâ€™s smelled in the air. So strong like rotten eggs. It immediately gives me a headache and burns my eyes. You can taste it some days too just by breathing. It seems to be mostly in the overnight hours waking people up as it seeps in our house while we sleep. It still lingers in the am. Thousands of concerned citizens in Fort Mill, Rock Hill, Indian Land SC and Waxhaw/Marvin NC. We are unable to be outside and enjoy the lovely outdoors when it smells. I believe They were sold a few months ago and new owners are doing something unsafe. It cannot be healthy when itâ€™s making people sick. We are concerned for our safety. Please send resources to help research! PLEASE!!!</p>	yes
29704	<p>Awful smell from this factory travels MILES into zip code 29708 where I live. Issue has been pervasive for weeks despite claims that local and federal agencies are involved in investigation. Today is probably the worst itâ€™s been. Reports of neighbors feeling unwell though no one in our house feels unwell yet.</p>	yes

29704	Awful smell inside and outside as a result of this plant. Causes headaches and nausea. Woke me from a sound sleep and my kids.	yes
29704	Horrible rotten egg smell from the paper mill/plant in Catawba, SC	yes
29704	New Indy paper company has been polluting our air with horrible smells. We live in Fort Mill and it permeates my house and our neighborhood. It woke me up at 6:30am and the rotten egg paper mill smell was in my house. I now have a headache from it.	yes
29730	Fumes in air have penetrated into my home again causing breathing concerns and irritation to nose and throat.	yes
29720	Smells like burnt tires	yes
29704	Stench from the mill yesterday resulted in odor at my home driving me inside once again. Went 11 miles NE of my house an hour later and smelled it there . Returned home a 1/2 hour later and stench still present. Burning my eyes, sore throat and nausea AGAIN! Did I move to a third world country?	no
29730	Smell from New Indy is terrible today. Woke me up from sleep. It's all in my house. Smells like rotten eggs or rotten sewage.	yes

29704	Noxious odor filled our home. Woke me from a deep sleep at 4:00 a.m. Smells like soured rotten garage/rotten eggs and chemicals. The odor seems to occur overnight into the early morning. Suspect the source is coming from New Indy Containerboard and their overnight processes. The odor intensity causes me to have headaches and nasal irritation. The gas fills every space inside our home.	yes
29704	Work up at 6:30am to a very pungent smell in the air around our house. The smell is similar to rotten eggs or sulphur. The smell is believed to be released by processes of the New Indy Containerboard plant in the process of making paper.	yes
Unknown	The smell of foul, burning sewage woke me up from a deep sleep. My nose and throat are burning along with a headache.	yes
29707	Horrendous smell	yes
29704	Horrible smell like sewage/rotten eggs coming from paper mill Indy!	yes
29720	How are people supposed to do or plan anything our side with this smell. It's nasty and sickening. This is not acceptable. Shouldn't take a rocket scientist to tell what it is or where it's coming from. At this point it's become intentional! Please help!	yes
29720	Horrible stench	yes

29704	<p>I believe EPA is currently aware and working with locals officials to address this issue, however, it continues to be worse and though probably "subjective" the emissions affecting air quality is causing health issues with many, myself included. The "odor" is just that, but my concern is that it is permeating inside of house multiple nights, waking me up with severe headache and nausea, and more recently, with rash, burning eyes, sore throat/laryngitis. I haven no history of any type allergies or other issues of this kind. Symptoms began sometime end of Feb/early March and after a few weeks, made a doctor appointment as symptoms got worse. After bloodwork, exam, ultrasound, etc, Dr. found no cause for headaches, nausea, rash, or eye issues. Only a few weeks ago, after a neighbor mentioned similar symptoms, I made the possible connection. Last week a couple of nights, it was very hard to breathe inside my own house - again middle of the night around 3 - 4 am and lasted into next day - and then repeat. My concern is not the odor, but the possible long term health issues for myself, but particularly for children. It is BAD</p>	yes
-------	--	-----

29720	No rhyme or reason for this odor to continue. Quite shameful that SC is allowing this. Please check and help us get rid of this awful smell. We can't stand to be outside and now it's creeping into my home. Please help!	yes
29704	The smell from New Indy today is horrible! It literally took my breath and I started heaving. It smells like rotten eggs... the smell is intense. My eyes and nose began burning. I turned off if Hwy 5 and into Riverside Rd and the smell was strong and intense all the way into Lancaster.	no
29720	This New Indy Containers is intentionally releasing toxic gas in the atmosphere. But they do this at night and different days of the week to decieve goverment agencies by having an independent contractor take air samples on days when they don't release toxic gas.	yes

29704	<p>The New Indy Containerboard is a company that is located approximately 6 miles from our home. The company is releasing strong toxic odors and foam flecks into the air. This has been happening for a couple of months since they changed their process to make cardboard. We have lived here since December 2019 and occasionally smelled the paper plant . Now that the plant has supposedly changed their process, the odor is so strong that it permeates our home coming in through the bathroom and kitchen vents. My eyes burn and I have migraine headaches and am nauseous from the strong odor. This happens several days or nights during each week, Monday through Sunday. Besides smelling it in our home we cannot go out into our yard, walk in the neighborhood or use our screened in porch. We live in a 55 and older community, Tree Tops, and many of us have filed reports with SC DHEC. Besides the smell we can see white foam flecks on our furniture in our screened in porch - it comes right through the screen. We also see the foam flecks on our black car. It is very concerning that we are breathing in such toxic air containing foam flecks. This is very scary that this company is allowed to</p>	yes
-------	---	-----

29704	Contaminated air has caused swelling & redness around my eyes, burning in throat & nasal passages. Strong chemical odor.	yes
29704	This morning at 6 AM there was an extremely foul smell in the air. The smell was very caustic, and caused immediate impact on nasal passages. Could not open any doors or windows or go outside. This is an extremely strong smell. It lasted at least 90 minutes, but I do not know when it began.	no
29704	Sulfur dioxide smell that is constant from the New Indy plant since January 2021 when they change manufacturing white paper to brown container board.	yes
29704	The air has a stench to it and filtrates into my home. It gives me headaches and feelings of nausea. Cannot sit outside and it is bad inside. This occurs at all hours of the day and nigh. This company is making people sick with these toxic fumes!	yes
28173	The smell in the air when going outside is absolutely horrid. I feel like I cannot exercise or walk my dogs when the smell is in the air-which is frequently.	yes

29704	New Indy continues to spew pollution into our air and water after they were tagged with multiple violations regarding their new operation making container board that began this winter. I personally have been sick to my stomach multiple times and yet again this morning I was awakened by the STENCH. AND MY HOME WAS CLOSED UP! Scratchy eyes, nauseous, laryngitis. I have read reports of multiple nose bleeds. Some are now reporting their pets are getting sick! When is this going to end! I feel like I am living in a THIRD WORLD country! THEY NEED TO BE SHUT DOWN until they can fix the stench! How can they be allowed to continue to operate with so many blatant violations!	yes
29720	Stinking up my house.	yes
29707	New Indy Containerboard has converted manufacturing in recent months and in doing so has created a foul smelling odor that travels 20+ miles, permeates homes and wakes residents from sleep. Others report breathing issues and irritation. SC DHEC has written a report indicating multiple violations at the plant. Residents that have lived here for 20 years indicated the smell started in recent months and has never been this bad.	yes
29704	Horrible odor	yes

Unknown	Smelling up the air. Can't open our windows or even go outside because of the stink	yes
29704	Disgusting, gross smell at 3:00 am woke me up.	yes
29720	HSO4 release. Met with Senator Michael Johnson. DHCE is now saying New Indy Container is not causing this problem. This means they are calling the Senator a liar. When is the EPA going to take on New Indy Container and get this problem fixed. Please contact Robert Kraft and inform him of the damage he is causing to our health.	no
29707	Terrible smell in air burns eyes and gives me a headache	yes
29704	There is a rotten egg / sewage smell . I had to come in as it was giving me a headache and I don't get headaches!	yes
29704	Largely offensive smell of rotten eggs mixed with a chemical baby poop stench. Burns nose, throat and is causing headaches.	yes
Unknown	There has been a rotten egg smell almost every day coming from the New Indy Paper Mill. We are in Waxhaw, NC. Please look into this.	yes
Unknown	Air quality is horrible again. Rotten egg smell. Went to sleep with windows open, woke up to the smell and sore throat.	yes

29707	This plant continues to operate when DHEC has stated they are the source of the smell and gave violations. This smell is affecting thousands of people in many communities. This is making so many people sick. I am nauseated and have a headache from this plant. Please do something!!	yes
29704	Residents are waking up in the middle of the night from a very strong smell, feeling nauseous, sick, reporting headaches. It is an ongoing issue. It is 3am, April 21st, and the air is toxic. There is nowhere to escape - it is inside our homes, and severe outside. This is a serious health issue now, and it needs to be checked at the time of the reporting. What chemicals are in the air and what are the levels?	yes
29730	Rotten egg smell, severe, permeates our entire home! 4/20/2021 20:00 hours	yes
29704	EXTREME sulfur/rotten egg odor. The odor has filled our home with doors and windows closed.	yes
29704	There is still a continuous disgusting odor in the air.	yes
29704	New Indy Containerboard was found to have several violations by South Carolina DHEC following a recent investigation. The noxious odor continues, permeating the inside of homes, including mine, causing respiratory irritation and a very low quality of life.	yes

29704	Extremely strong chemical/methane smell outside. It's also coming into the house with all doors and windows closed. Makes it hard for us to breathe!	yes
29730	Strong sewage smell invaded my home this morning. I have felt it other days but decided to report after conversation with neighbors saying the provable cause is the New Indy mill.	yes
29704	On a regular basis, there is an EXTREME sulfur/rotten egg odor. It begins overnight and starts to dissipate in the late morning. The odor fills our home while we sleep [with doors and windows closed] and even when it clears up outside, the odor remains trapped in our home throughout the day. Odor was noticed at 5:30 am today.	yes
29720	Stinking up my house again and giving me a headache.	yes
29720	Another day of toxic noxious air spoiling an otherwise beautiful day and forcing me to go inside due to the irritation in my nose and lungs.	yes

29707	Abnormal fumes released in the air - released every day at mixed times. Rotten eggs, plastic smelling, carcinogenic, cancer causing - thick enough to saturate into homes, grocery stores (Publix on Hwy 521). Fumes burn eyes, lungs, cause headache https://www.wbtv.com/2021/04/10/health-officials-sc-paper-plant-accused-violations-main-culprit-more-than-complaints-about-strong-stench-plaguing-multiple-counties/	yes
29720	Question as to how it's affecting not only the air but water and land. Nauseating effects causing headaches and what it does to our lungs. Worried about long term effects as well as present ones. Please help!	yes
29707	Horrible smell like sulfur and sewage.	yes
Unknown	The smell is horrid.	yes
Unknown	Smell woke me up at 2AM, has permeated my home, is causing continual headaches and an occasional bloody nose. It is time to shut down their operations until they can remedy their problem.	yes
29704	New Indy Containerboard has been found in violation of DHEC regulations. The smell 13 miles away in our home is nauseating.	yes

29707	Paper product- cardboard mill- create horrible rotten egg and sulfur smell. Violation of many issues- permits not up to date!	yes
29730	Terrible smell due to dumping	yes
29704	Sewage/rotten egg smell impacting our quality of life due to this paper mill. We are miles away and can smell this on an almost daily basis. Impacting North Carolina neighborhoods and South Carolina in Charlotte area. Please do something about this	yes
29704	Hydrogen Sulfite so strong in the air that it has permeated my house.	yes
Unknown	We in Indian Land SC have been experiencing an odor almost every night and morning. Weâ€™re told this odor is coming from the New Indy Plant. The odor is making me nauseous and causing coughing/breathing issues.	yes
29704	Rotten egg smell so often. I smell it right now and it is VERY strong. 10:30pm 4/16	yes
29707	Release of foul pungent sulphuric air, water pollution	yes

29720	<p>This odor has become a real problem in a large area of SC and NC. My husband and I as well as my children and grandchildren are experiencing nasal and sinus congestion, severe headaches, eye irritation, and sore throats. Day after day we have to put up with this and no one is doing anything about it. The odor is more than just an irritating odor..it has become a serious health threat to the people of Indian Land/Lancaster/Rock Hill and parts of Mecklenburg and Union County. I cannot believe a company can pollute the air in this way and get away with it. Someone has to do something about this.</p>	yes
29720	<p>One more time, New Indy is polluting the air with their foul chemical smell. Headache, sore throat, eyes tearing. This has gone far beyond just being a foul odor, this is a health hazard.</p>	yes
28704	<p>Disgusting smell of a rotting body mixed with burned tires</p>	yes

29704	<p>For several weeks now there has been the most incredible stench in the air from this plant. It has been recorded from DHEC that the source of the smell is coming from this plant. It has affected so many counties and communities across our area. Many nights I am woken up by the stench of a rotten egg smell and it makes it unbearable to breathe let alone sleep. I have developed headaches and nausea from this overpowering smell that creeps into my home late at night. Something must be done to hold this business accountable for the safety and health of residents here. This photo was from early yesterday morning when I woke up. This is my air purifier that I have to run constantly in my home to try to help us breathe. This should not be the reading inside my home.</p>	yes
29704	<p>The factory has been emitting such a foul stench that people 30 minutes away in Ballantine, NC , Waxhaw, NC, and Indian Land SC have become nauseated and ill. DHEC investigated and found multiple violations but also keeps telling the public that there are no health concerns. Since people are becoming ill over this odor that cannot be true in the slightest. Please help us.</p>	yes
29704	<p>Excessive air pollution. Causing headache and nausea 30+ miles from source</p>	yes

29704	For the past several, an unbearable smell has been emanating from this factory. It seems to be getting increasingly worse, with today being awful. I had my windows before it started and then it got so bad that I had to close up the house. Iâ€™ve had a headache all day from the smell.	yes
29704	Distinct foul odor (sewage/rotten) increasing since 4:00 PM of April 14, 2021.	yes
29720	RECEIVE CONSTANT SMELL IN AIR FROM THIS COMPANY. STINKS BADLY	yes

29720	<p>As far as investigations have reported, this odor is coming from open water containers or ponds which New Indy is not handling. They are doing nothing to control this toxic smell that is permeating through a large range of neighborhoods in SC as well as in NC. The reason I say it is toxic is there are ash particles floating in the air in our yards and garages as well as the toxic smell is permeating into our homes. We cannot get away from it or even go outside as I and my grandchildren are experiencing headaches, eye irritations, nasal burning, congestion, and sore throat. I cannot believe this New Indy plant is allowed to destroy the air quality in this way. There are people getting sick and no one can go outside when this starts up. There has to be some violation being committed that would be considered a health hazard with what we are experiencing. Whatever the plant is doing just started in January. We have lived here for years and this problem is all new. Doing this to young kids as well as older adults is despicable. It is abusive to the humans who purchased homes in the rural areas of SC over the past years. EPA please do your job and find out what they are doing to cause us</p>	yes
-------	---	-----

29720	<p>Very acrid ammonia smell in air. Very foul and you cannot leave the house. This is coming from the newly opened New Indy Paper plant. This is becoming a daily issue, and they continue to release noxious fumes. The impact this evening was immediate, my nasal cavities and sinus were affected and nose started running. We know the plant is not using key maintenance and equipment to de-foul and there are several violations noted on a recent DHE report, but nothing is being done. The smell gets into the house even with windows closed and after a time it turns your stomach.</p>	yes
Unknown	<p>Company visiting house. Stench so bad, all had to go inside. One of my guest developed a headache. This is ridiculous that you can't even sit outside without New Indy driving every on inside. Date and Time: 04/14/21, 5:30PM.</p>	yes
29704	<p>Sever sulfur like release causing respiratory issues, head aches, and quality of life issues for people up to several miles away. The company switched from making news print to boxes a few months ago. Since then, they have been releasing this gas into the air polluting air quality for several miles away. South Carolina DHEC has confirmed them as the source.</p>	yes

29704	<p>A violent odor, sewer/rotten eggs. Daily, causes severe burning in nose and down throat. Causes nausea and dizziness. The odor comes into our homes. The odor is very difficult to get out of the home. Far after the air outside has cleared up the smell remains inside our home for sometimes days. you can not do anything when the smell is present. You can't go out to eat, walk nothing. I feel for anyone trying to sell their home right now. It negatively impacts so much of our lives.</p>	yes
29704	<p>Pungent odor and/or fumes emitted from paper production facility. While the facility has been in the current location for many years, it recently started emitting a more extreme and frequent odor that impacts a very broad area (>15 miles) on a daily basis. This change in discharge, production, or some other factor is alarming and negatively affecting quality of life and potentially health. For this facility to continue to operate in this manner, there needs to be reassurance regarding safety from the company and EPA. So far, no information has been provided to the community.</p>	yes

29704	<p>Strong odor (rotten egg smell) dissipating from plant to areas of Indian Land, SC, Fort Mill, SC, Charlotte, NC, and Marvin, NC. The strong odor seems to have started in February 2021 and has continued almost every day since. It is a very distasteful odor that last from early morning hours through most of the day. It permeates into homes, decreases quality of life and even causes headaches and nausea symptoms. This has been reported to the SC DHEC, but apparently they have not taken meaningful action to stop this problem.</p>	yes
-------	--	-----

29704	<p>â€œStill STINKS!â€ Over the past month, DHEC has analyzed 4,375 foul-smelling-odor complaints (more severe odor than at a normal Paper Plant) from citizens near the border of York/Lancaster counties... reaching all the way up to Fort Mill, Indian Land, & even parts of NC. DHEC now has proof that the root of the problem is the New Indy Plant in Catawba... and we are now calling in the Federal EPA to assist in fixing the problem. On Thursday, Sen. Michael Johnson, Sen. Wes Climer, Rep. Brandon Newton, & I held yet another meeting with DHEC officials... demanding a progress report - documenting steps DHEC has taken in these last 4 weeks. DHEC shared 4,375 complaints received from local citizens - most living near the York/Lancaster border... but with 13% living all the way up in NC. Citizens continued to report the strongest foul-smelling-order imaginable - far higher than near normalâ€ Paper Plants:â€ * folks forced to leave their homes; * significant number of people waking up in the middle of the night with nose-bleeds; * people on oxygen; * And some elderly residents not running their air-conditioners - to prohibit outside air from entering their homes (scary</p>	no
29707	Continuous foul odor in the air from this paper mill.	yes

Unknown	Smelling up my house causing jeadache and bloody nose.	yes
29704	On a regular basis, there is an EXTREME sulfur/rotten egg odor. It begins overnight and starts to dissipate in the late morning. The odor fills our home while we sleep [with doors and windows closed] and even when it clears up outside, the odor remains trapped in our home throughout the day.	yes

29704	<p>There has been an unusually high amount of chemicals in the vicinity of this papermill since they have changed their processes. The chemical penetrates our home and is causing significant physical respiratory problems all throughout our home to my family members. There has been burning of the throat, nose, face, and chest. This is definitely a chemical agent as it gets trapped in the air conditioning unit and when the air comes out of the vent it continuously dumps this pollutant back into our home leaving us gasping for air with no escape. The air quality on the outside is even worse than on the inside and we as a family cannot find any escape from this nuisance. This has been continually being promoted as it is affecting the elderly in our area as well. This is not fair to the community and the more we report it, the worse the chemicals are discharged into the air. The New Indy container plant has failed to respond to the questions of the public about the extent of this chemical that is being pumped into our homes, leaving us with no escape. PLEASE HELP US.</p>	yes
-------	--	-----

29704	<p>SC DHEC has investigated and the company was issued several violations on water and dumping into the Catawba River however the air stench that is permeating neighborhoods around the plant has not been measured. The company uses sodium sulfide and releases it, on days that the air is damp there is a possibility of formation of hydrogen sulfide which is very toxic at certain levels. The rotten egg stench is permeating homes and make people nauseous and headaches. Although 5,000 complaints have gone to DHEC the plant is still operating and the smell this morning in Tree Tops off Van Wyck Road near Indian Land, SC was so bad it was making my family sick. None of the DHEC reports show that the air has been tested for hydrogen sulfide levels. What needs to happen to test the air quality during one of these incidents and also require this plant to comply with proper reporting and permits or shut down.</p>	yes
Unknown	<p>Stinks so bad it is permeating my home and causing me to have a severe headache.</p>	yes

29704	<p>There has been an awful smell of rotten eggs,sewage like smell attributed to this paper mill for months now with no response from either the South Carolina or North Carolina officials.They say they are investigating the source of the smell but nothing has happened to negate the odor.The plant is approximately 13 miles to my south in Waxhaw,NC and is also affecting all areas of South Charlotte and Lancaster and York counties in South Carolina.Something needs to be done as our health and well being have been at risk.</p>	yes
-------	---	-----

29704	<p>There is a terrible smell in the air that is getting worse. My husband and I have been experiencing terrible allergy like symptoms (which we had never had before) - sinus drainage, congestion, sneezing, coughing, shortness of breath and headaches. Before the winter we experienced a snow like substance in the air that was on all the patio surfaces outdoors. It is very concerning that the smell is so strong followed by these respiratory symptoms which we have never had before. Has anybody done an air quality study? This needs to be done quickly to determine if this is causing major health issues. We don't want this to be another Love Canal type problem where lives were lost due to the lack of concern.</p>	yes
-------	---	-----

29720	<p>New Indy Paper Plant has recently re-opened, and new owners have switched from processing white paper to cardboard. The stench here started early in the year with occasional smells of rotten eggs or ammonia. It has intensified over time and increased in frequency. Most evenings the smell begins around 10 PM, and often early in the morning. Today (April 12) the stink was apparent around 6:30-7 AM and did not dissipate until well after 10 AM. It burns my eyes and nasal passages and my sinuses are affected. I have to use a neti pot to wash out my sinuses (lavage) daily. It is horrible. This was meant to be our retirement home, we put in all our savings and we can't even go outside on a spring day. I have read a recent report that indicates the plant has discontinued use (without permission) of something called a de-fouler, and that the retention ponds have not been treated or maintained properly. One pond had a foot of some kind of foam on it. We are seeing some of this foam in our neighborhood. Can't anything be done to shut this plant down until the new owners address the issues in the recent report, and can't they be monitored or fined if they continue to foul</p>	yes
-------	---	-----

29720	<p>People cannot breathe the air outside their homes. The air is making people sick and the smell is permeating inside homes as well. We're having severe eye irritation, coughing, congestion, sinus issues, eye and throat swelling. Many elderly people in this area cannot even go for a walk so no exercise to keep them moving. To treat the elderly this way would be considered elder abusive as well as just plain human abusive. We have pieces of foam or ash floating in the air in our neighborhoods. This air quality is making people sick!</p>	yes
-------	--	-----

Unknown	<p>New Indy Container is polluting the air with toxic fumes. My throat is raw, my eyes are burning, and I get headaches every time New Indy Container releases fumes. My wife and I can see the foam ash floating through the air, and we live five miles from the plant. Senator Michael Johnson says New Indy Container has the right to run their business. No, they don't, not when they create a health hazard. By the way, a side note, Senator Michael Johnson is soon to be voted out of office for stupidity. I live in a 55 and older community. Right next to my community is another 55 and older community. We are talking about 4,500 homes. None of us can go outdoors. COVID shut us in our homes, now New Indy Container has picked up where COVID left off. Talk about your elder abuse. Enough is enough, shut this plant down - it is a health hazard.</p>	yes
Unknown	A violent stench in the air coming from the paper factory	yes

29720	The rotten egg odor is getting worse instead of better. I checked doors last night at around 12am and the odor was bad. This morning itâ€™s a lot worse, permeating windows and doors. Smell is sickening. People cannot and should not have to live this way. South Carolina needs to take care of this immediately. Please help!!!	yes
29704	Terrible smell...plant operates at night, presumably to hide their noxious smell...It wakes us up at night, permitting our home. This has been a problem for the last 3 months or mote	yes
29720	Noxious irritant in the air Sulphuric dioxide Canâ€™t go outside Happens several times each day Plant needs to reinstall scrubbers and odor neutralizors they intentionally removed in 2020 Toxic slurry being dumped into Catawba River Dioxins need to be tested	yes
29720	PERVASIVE SMELL OF ROTTEN EGGS (SULFUR) HAS BEEN OCCURRING ALMOST DAILY FOR OVER AS MONTH PERMEATING THE INSIDE OF OUR HOME CAUSING NAUSEA, HEADACHES AND SORE THROAT AND IS AFFECTING OUR DAILY LIVES. SOMETHING MUST BE DONE!	yes
29704	The smell is so strong it comes into our house with the windows closed and wakes us up	yes

29704	The rotten egg smell permeates our home now. It's a sickening smell and has been going on for over a week now. Prior to that it was not as frequent. It's getting unbearable. New Indy is burning cardboard and has been since January. This is a new process for the company, but it's causing people to put their homes up for sale.	yes
29720	There is an awful rotten egg smell in the air that is now permeated the home we live in. The smell actually enters home with all windows and doors closed! Causes eye irritation and sore throat Effects sleep in evenings It is getting worse by the day and the areas affected larger SC and NC. Please please help	yes
29704	Air smell of rotten eggs. Odor permeates our house. Health concerns.	yes
29720	The stench has intensified. It permeates our windows and doors. It's nauseating causing me to gag. No reason for such air quality to be allowed. We can't even go outside. SOMETHING HAS TO BE DONE NOW!	yes
29720	Air is filled with rotten egg smell	yes
29720	Rotten egg smell in Treetops community. Cannot go outside of home & even penetrates inside home. Something must be done after months of complaints this condition is still persistent & have genuine concerns about health.	yes

29720	Horrible nauseous smell	yes
29707	Pungent, sickening smell of rotten matter and ammonia. It burns our noses and throats and is making us nauseated with headaches.	yes
28704	As I opened my garage door tonight at 9:30 PM I was hit by a wave of noxious smell from gasses and chemicals released into the air from the New Indy Containerboard plant in Catawba, SC This has been ongoing for the past few months and the people of three counties north of the plant get the effluent gases every day without any letup. Our home values are decreasing, my wife who has COPD is in breathing stress from it. Somebody from EPA should contact the Lancaster County Health and Environmental Department and work with them on a solution.	yes
29704	On arriving home after traveling the odor from the plant was so powerful. Our eyes and nose burned and we became nauseated. This happens every Saturday	yes

29704	<p>From DHEC's Inspection Report: "The facility has undergone a recent process change, switching from manufacturing bleached paper (white paper) to containerboard (cardboard). From September 2020 to January 2021 the facility was shut down to implement the process changes. The facility resumed manufacturing activities in February 2021. The manufacturing process uses heat, pressure, and chemicals, to include caustic and sodium sulfide, to pulp the wood chips. One of the main residuals of the process is total reduced sulfide (TRS), which commonly produces a "rotten egg" odor. At one time the facility had a stripper to treat foul condensate from the manufacturing process to aid in removing volatiles from the waste stream. The stripper is no longer being used, and the foul condensate is piped directly to the aeration basin. The aeration basin discharges to a holding pond. The effluent from the holding pond is pumped from the bottom of the pond to the post-aeration basin and then to the outfall in the Catawba River." Please read the entire letter and report.</p> <p>https://scdhec.gov/sites/default/files/media</p>	yes
29720	<p>Foul Stench in the air causing vomiting, headaches, nausea to current resident. Odor is unhealthy and continuous.</p>	yes

29704	<p>Various times of day and night the horrible smell of sewage gas/rooted egg smell permeates my house. I'm an asthmatic and it's affect my breathing and is irritating my throat. Sometimes during the day small ashy white particles are floating around outside. Just start smelling this within the last 6 mths or so.</p>	yes
29704	<p>This company is deliberately releasing toxic ammonia fumes into the air. This has been occurring for over 6 weeks. Sometimes it lasts through the night and into the next day. Sometimes it lasts for hours during the day or night and sometimes it is intermittent throughout the day. In a week it occurs 5 times a week. The last few weekends it occurs over night and into the afternoon. You cannot go outside because the fumes are so harsh you cannot breath and the fumes permeate your home. I feel imprisoned by the fumes. You cannot go outside, enjoy outside activities, plan important celebrations because no one wants to be outside, and you cannot exercise. This is destroying my life and the lives of thousands of others.</p>	yes

29704	<p>This company has obtained this pulp mill and changed production recently. It now smells in our home 10 miles away and homes up to 20 miles away are also reporting the smell. It never smelled this bad before and was never strong enough to smell in my home. We are concerned about air quality and toxic fumes not only limiting our ability to go outside, but also being present inside my home.</p>	yes
Unknown	<p>New Indy is dumping sulfer dioxide in union county NC they say we cant do nothing because itâ€™s coming from Sc no one is willing to help us and itâ€™s effecting over 30,000 people in 4 counties and 2 states people are going to the hospital and we canâ€™t be outside so itâ€™s killing out quality of life !!!! We need help are Kids are waking up all night with this smell and they canâ€™t breathe</p>	yes

29704	<p>As per media reports and press releases from SC government, the cardboard plant may be guilty of releasing sulfides into the air, as described at:</p> <p>https://scdhec.gov/environment/environmental-sites-projects-permits-interest/lancaster-york-counties-odor-investigation This affects thousands of people in surrounding counties, where we have bad "rotten eggs" odor for weeks now. Media reported that the odor started after the plant switched to producing some other type of paper / cardboard from what they produced before. I complained about the issue to North Carolina government and I was told that since the facility is located in a different state they can't do much but help SC authorities, if needed. Considering it's clearly a cross-state pollution case, I believe EPA is mandated to consider the issue. I would like to know if EPA is on the case, if so, where to check the latest on the issue from your agency, and whether there are any specific steps and timeline to stop this pollution that affects thousands of families in counties both in SC and NC (lots of residential / single home / rural areas around here). Thanks,</p> <p>Ihar Hrachyshka</p>	yes
29707	Unacceptable smells like sulfur dioxide all the time now	yes

29720	Rotten egg smell-filters into home & air outside	yes
29720	Horrible nasty smell	yes
29704	Very strong Rotten egg smell that is so strong that comes into the house. Smell is also making residents eyes nose and mouth burn. Residents also reporting headaches. Please make them correct this horrible problem that is affecting our lives.	no
29704	This plant emits a foul sulfur smell consistently. It has gotten so bad that my eyes and throat burn while inside with doors and windows closed. My kids cannot go outside to play because the smell is so powerful that I fear for their health.	yes
29704	Sewage smell in all surrounding counties of SC and NC, smell starts in evening and goes through night and dissipates late mornings.....smell permeates into households with windows and doors sealed shut....smell causing headaches, nausea, sickness to thousands in area	yes
Unknown	Indy paper plant in the last three weeks have been releasing sulphur dioxide from the plant. These noxious fumes have made people sick and the smell is constant. My husband and I have watering eyes, feel sick and it is in our home.	yes

29704	There is a fowl smell that is so horrid me And my family are getting sick from the smell, with all the windows closed the smell is so strong it still fills My house. It smell like gas or rotten eggs very very strong. Please help	yes
29720	New-Indy Catawba Mill New-Indy Containerboard 5300 Cureton Ferry Rd, Catawba, SC 29704, USA (Our understanding in the community) - The problem is the plant went from making newsprint to making cardboard boxes for Amazon and this process requires a different sulphur dioxide process (multi million dollar scrubber is needed to stop the odor). Dozens of people are reporting to DHEC every time it smells and not getting results. Plant was bought by Robert Kraft of the Patriots. Consistently generating bad odors impacting the environment and air quality. They also recently switched to cardboard production which it turns out is worse than the previous paper they were making. This generates a very foul smell like natural gas or rotting eggs. Some folks have indicated headaches, nosebleeds, and other irritations. We are getting scared. EPA - Please step in!!!	yes

29720	Violation has been going on for months. Plant claims they can't figure out why. The smell goes from SC to NC. It is impacting health, numerous reports of headaches, sore throats and trouble breathing. It smells like sewer gas outside and inside our homes. It happens in all weather conditions day and night. I've been reporting the smell for months now along with many others and New Indy still claim they don't know what is causing the smell. We moved here last year and there was no smell. It started late last year around the time the EPA standards were relaxed.	yes
29704	For weeks now there has been a sulfuric smell filling the air in multiple towns (Rock Hill, Fort Mill, Indian Land, Waxhaw, Marvin, and the southern end of Charlotte. This is crossing state lines from SC into NC. It seems unhealthy and makes the air unbearable. It even permeates in to our homes, interrupts sleeping, and reports of headaches among neighbors. Please help us.	yes
29704	TRS gases	yes
29730	Horrible smell, that is coming into house overnight . It smells like rotten eggs and raw sewage. Smell has been the worst the last two nights. Inside of my house smells terrible.	yes

29774	<p>Terrible noxious smell daily in Lancaster, SC coming from New Indy plant. May be causing upper respiratory issues, headache, and eye irritation. Detected daily since January 2021. I reported to DHS and 911 dispatched fire department all to no avail thus far. Urgent situation.</p>	yes
-------	---	-----

29707	<p>We have lived here for 5 years and the odor has not been this bad. My son was actually up vomiting last night because the smell had seeped into his room. I have 3 air purifiers going all day along with candles, etc. It's not bad every day - but some days (a few each week or so) it's so bad that you can't be outside. I understand that a paper mill smells, but when we bought our home (along with our neighbors) the smell was not this bad. We might smell it 3-4 times a year and NEVER would it get into the house or be this strong. Something is different! I went to Ballantyne this morning and was able to smell it all the way up there. People are complaining in Waxhaw and Marvin also. This is so widespread I would think that DHEC, the EPA and especially New Indy would want to put some money into changing the process to scrub the odor. If not, our home prices are going to start plummeting as people start selling their houses. It's not a good quality of life for sure. Thank you for your time and I look forward to your next update. Terri Kennedy The Retreat at Rayfield.</p>	yes
-------	---	-----

29704	On a regular basis, there is an EXTREME sulfur/rotten egg odor. It begins overnight and starts to dissipate in the late morning. The odor fills our home while we sleep [with doors and windows closed] and even when it clears up outside, the odor remains trapped in our home throughout the day.	yes
29707	Indy Containerboard in SC is poisoning our air and has been for weeks. PLEASE help us.	yes
29270	Horrible smell	yes
29704	This has been happening for MONTHS. I get headaches whenever the smell is in the air. I've lived here for years and it has gotten so frequent over the last few months that I can barely go outside my home. This is ridiculous. I also have a 4 month old baby and I am concerned for his health and that the smell may be affecting him as well.	yes
Unknown	Awful and pervasive odor	yes
29704	The smell is so offensive. It is so strong and thick it is even in my house and no doors or windows are even slightly open. It is most common around 4am and here again tonight it is that time again when it awakens me.	yes
29720	TRS gases	yes
29704	TRS gases	yes

29704	Cannot open a window or stay outside because of the heinous smell. My husband has had throat cancer and the noxious strong odor is an irritant to his throat. I have asthma and the smell triggers breathing episodes. We live 8 miles away from this toxic smell and it is remarkable how many thousands of people this is affecting. It occurs during all hours but particularly during night time hours.	yes
29704	Rotten smell in air, much worse than ever before. Please investigate	yes
29704	This stench in the air coming from the New Indy plant is horrific. No one in this neighborhood of 55+ individuals can go outside, exercise, or gather in any way. Everyone is getting headaches, throat inflammation, coughs, eye irritations, and congestion to the point people have had to go to the ER. People should not have to be subjected to this treatment. You can't get away from the smell in your house or car. We have lived here for 3 years and never had this problem before. This smell goes for about 20 miles out. People are getting sick.	yes

29704	<p>There is a stench in the air 24-7 that is making us ill. Our eyes are burning, we are getting headaches, and we are having congestion from the odor from the plant. We have lived here for 3 years and never has the air had this smell. We can't get the smell out of our house or our noses. We can't get away from it or get any exercise in this 55+ neighborhood because the air is so bad. This plant has to be doing something different than in the previous years. We have heard rumors that the EPA is now allowing them to release sulphuric gas into the air. I would hope this is not true. This story is going to unfold on the national news very soon if this is not remedied.</p>	yes
29707	<p>I live in sun city Carolina lakes with with a population of all senior citizens! We are experiencing a "Fowl Oder" which has encompassed a large geographic area in this community. This prohibits us from going out, walking in the community, and just getting plain old exercise!!!! With the pandemic at large, we certainly do not need another possible problem to impede our health!!!</p>	yes
Unknown	<p>This plant is releasing toxins in the air that are being smelled 15 miles from the plant. It is so severe that it is seeping into our homes. People are having health issues as a result.</p>	yes

29704	We are not sure what this smell is. We do not know if it is something being dumped in the Catawba River. We do not know if it is toxic. The smell is strong enough to penetrate the walls of our homes and strong enough to wake you up in the middle of the night. I moved to the Rock Hill area 4/19/2019 and this smell just started around Jan or Feb of 2021.	yes
29704	Intense rotten smell. Every night for the past 3 days - whenever the wind comes from the southwest	no
29730	Suffocating odor being released into the air on a daily basis	yes
29704	I live on Rowells rd about 2 miles from the paper mill. The smell has never been this bad. It even stinks in my home.	yes
29704	Air smell is terrible from the plant, worse than ever in the last 9 years	yes
29720	Terrible smell constantly in our neighborhood off Van Wyck	yes
29704	This company manufactures cardboard. It was purchased in 2018 and recently started production. They must have ramped up production because the by product is a sulfur, rotten egg odor that permeates the air. It is so potent that it seeps into our homes. They must be in production at night as well, the odor waking us up from sleep. Community complains of respiratory ailments of both people and pets.	yes

29704	<p>This place is emitting horribly strong fumes that penetrate my home and make my whole family feel physically ill. It smells like sewage and rotting garbage, but it's sharp and literally hurts my sinuses, lungs, throat, nose, and eyes. It's burning and stinging and makes my eyes water and my nose clog. It makes me nauseous and gives me a lasting headache. It wakes me up in the middle of the night and prevents me from sleeping. To say it's ruining my quality of life would be an understatement. I'm exhausted and angry and I fear for my family's health and safety. There is no escape! They must stop.</p>	yes
29704	<p>For months now our area is constantly polluted with a strong sulfur smell. It wakes people up, the smell permeates homes even with doors and windows closed. SCDHEC says they're investigating the root of the smell, but it's getting worse and more frequent. People are afraid of what they are breathing in. It's making some ill. Please help us!</p>	yes
29720	<p>Terrible stink!!!</p>	yes

29720	<p>Another noxious odor release This time Easter morning so weâ€™re forced to stay indoors instead of going outside FYI. I attended a meeting with SC State senator Michael Johnson this week and he reported that due to EPA regulatory rollbacks in 2017 the paper plant is free to release toxic emissions legally now in SC. Unlike NC these odor laws have been dropped. The Senator also said New Indy had removed their bag house and scrubbers in December when people started noticing the noxious odors His only recourse is ask New Indy to be a â€œ good neighbor â€œ which he doubts they will be accountable for any changes New Indy also dumps their waste slurry into settling ponds which are in close proximity to the Catawba river. I expect these ponds are leaking into the ground water and leaking into the river and water supply with dioxins and furans I hope the EPA will investigate ASAP thank you</p>	yes
29720	Terrible odor	yes

29720	<p>This is an on going re-occurring release of toxic odor on a daily basis from the stacks located at the New Indy paper products plant. I think there are irritants and probably toxins in these noxious gas releases due to the chemicals involved in producing cardboard. I have experience working with Dow Chemical on stack emissions and also believe there could be dioxins and furans being released fumes that are being spread over miles into the atmosphere and possibly endangering tens of thousands of nearby residents. I fear another Flint water crisis happening in real time without options but to breath this putrid smell.</p>	yes
29720	<p>Same toxic odors as everyday this week. Will anything be investigated Nauseous Oder irritating my lungs. Canâ€™t go outside I draw a parallel to another possible Flint water crisis whereby the local authorities look the other way. Except we the people donâ€™t have an option but to breath this polluted smelly mixture.</p>	yes

29720	The same noxious odor that was released twice earlier over the past 5 days by Nu Indy Suggest you pull a stack emissions report for analysis. I used to work with Dow Chemical and suspect significant dioxin and furan levels are spewing into the air endangering tens of thousands residents within a 10 mile radius of the plant. Another Flint type crisis with no government over site ?	yes
Unknown	Toxic odor has persisted for over two hours Sickening smell makes me nauseous	yes
Unknown	Paper processing plant emitting foul and possibly toxic fumes into the air Suspect dioxins and furans levels above the norm	yes

29720	<p>There a noxious odor permeating the air which I expect comes from the Nu Indy paper plant stack emissions I suspect there is chlorine, ammonia and sulfur in the emissions as well as high amounts of dioxins and furans posing danger to individuals who breath this foul air. Can you request a stack emissions report on a 24 hr basis for the past 30 days for analysis In my opinion this could impact tens of thousands of local residents in Rock Hill Lancaster and York counties This smell has been noted for over 6 weeks and may well be a slow motion real time disaster similar to the Flint water crisis Please investigate in detail before the media does. Feel free to contact me if I can be of assistance. Respectfully. David Koyle</p>	yes
-------	---	-----

unknown	<p>Residential areas within 15 - 20 miles of plant experience strong caustic odors that even permeate the houses. Neighbors reporting burning eyes and nose and coughing. Some dead birds found. This has been happening for a few months but has gotten worse lately. Happens mostly overnight and in early mornings. Also reports of ash type substances floating through the air. This happens during the day. I have personally experienced odor and ash floating through air. Latest was Sunday 3/14/21, my elderly mother said the odor woke her up. SC DHEC is investigating and ALSO news but I wanted to be sure EPA was involved as this is affecting many people living in the area. This is a highly populated area with many housing developments.</p>	yes
---------	---	-----

29704	Over the past few weeks the odor being emitted from this company has made the air very uncomfortable to breath. We live approximately 17 miles away and most recently on 3/8/21, the odor (very strong sulfur type smell) filled our home and has been causing headaches and sinus issues with our entire family. Our entire neighborhood (The Retreat at Rayfield) is filling complaints and voicing significant concerns. Prior to the last few weeks, it would be a rare occasion to smell a similar odor from the facility. When we did smell it, it was mild and generally passed within a few hours. Now, it is at unacceptable levels and we are very concerned for our family's health.	yes
29704	There has been a frequent strong sulfuric smell in the air. The pulp mill the smell is emanating from is approximately 15 miles away - across state lines. It seems as though they do not have proper mitigating procedures in place to counter the repugnance smell the surrounding area is subject to.	yes
29707	Release of chemicals into air causing noxious stench seeping inside homes in surrounding areas making it difficult to breathe.	yes

Unknown	<p>We have been smelling a foul sulfur type odor that tends to burn our eyes and lungs after a period of time it has been going on for the past 6 mos. even coming inside of our home in Riverchase Estates. Truly you cannot even enjoy the beautiful outdoors or inside our home itâ€™s so strong. This has not always been like this so something must have changed at the plant but ultimately this needs to be resolved.</p>	yes
29704	<p>A foul smell has permeated the entire area for many months and is just now being located as coming from this above documented company that produces cardboard. It is much worse than a regular paper mill and is irritating to the nose and throat. I have developed a chronic productive cough as a result of this irritation necessitating medical treatment/consult. Even with windows and doors closed it permeates the entire house. I cannot work outside because of the irritation to breathing. This is potentially a medical liability/health issue and should be addressed immediately.</p>	yes

29704	<p>I was awoken last night on 3/9/2021 at 11:30 pm by the most horrific stench you can imagine. It was all throughout our home and I did NOT have my windows open. The smell caused me to have a migraine, nausea, and insomnia. It continued all through the night and well into today. I cannot imagine how this is not damaging to our respiratory system. It smelled like rotten eggs, a gas leak, and garbage. Please help our community. Nobody should have to breathe air like that.</p>	yes
29707	<p>The Bowater Plant at Catawba in York, SC was sold in 2019 to New Indy. We would smell the Bowater plant (sulfer smell) 1-4 times a YEAR. Since the New Indy plant started producing we have been experiencing a terrible odor 2-3 times a WEEK. It is so bad that it's impossible to be outside and the smell makes its way into the home also. People with breathing problems have been affects along with headaches, nose bleeds, sinus problems, etc. Is there any way they can change the way they release this? If this continues there are 1,000's of people that could potentially get sick not to mention a drop in our home values. The smell has made numerous people in our neighborhood have migraines, nausea and sinus issues.</p>	yes

29707	Have lived here for 20 plus years There have been days when the smell was bad But never this bad and this consistent	yes
29704	Odor emitted into the air by the cardboard production plant.	yes
29704	The smell and loud noise from New Indy is absolutely horrible. Our neighborhood is also located near the catawba river and the water smells, it is even getting into the house and our water smells. It can't be good to be breathing in these toxins. We have lived here for 4 years and would occasionally smell on a damp day but since they switched to cardboard it has been much worse. There has to be something done. They are also extremely noisy at times often in the middle of the night.	yes
29704	Bad stench in the air from paper mill.	no
29704	Pungent odor is consistently in the air for the past months since they switched to a cardboard manufacturing facility.	yes
29720	The odor from using too much sulphuric acid is disgusting and irritating to nose, eyes and throat. This is toxic and needs to be stopped immediately.	yes
29704	We live 5 mi From the mill. The release has been going on for over a week and is pervasive. I can not go outside it smells so bad.	yes

29704-8799	Toxic fumes coming from plant. We are probably 5 miles away and the odor has been pervasive for the past week.	yes
29704	I have lived at this address for 15 years and have grown accustomed to the occasional "bad day" from what used to be the Bowater plant. Within the past couple of months the stench that fills the air is getting to be too much the norm. 8:20 last night I went outdoors and that putrid smell was looming in the air. On beautiful sunny days, the stink is in the air. Something has drastically changed with this New Indy Plant and I fear for my health and that of those around me. Please look in to this. I am not alone. Many people are expressing concern on the neighborhood web site. Please and Thank you.	yes

29704	<p>To Whom It May Concern: My husband and I purchased a home in Rock Hill near the Lesslie/Catawba area in January 2021. Our home is located approximately 4 miles northwest of New Indy Containerboard. The several times we visited our home prior to purchasing, we did not notice an issue with air quality. Since moving into our home in January 2021, there have been dozens of days where the air quality is so poor that we cannot be outdoors. The wind shifts and eventually the smell dissipates but the gas seeps INSIDE our home and doesn't "air out." On Sunday, February 21, my husband and I walked around our neighborhood picking up litter. During our walk home, we noticed "fallout" in the air which appears to be paper fallout from New Indy Containerboard. We are educating ourselves on the issue and plan to monitor the hydrogen sulfide levels at our residence. We understand there will be some odor associated living near the paper plant; however the odor is excessive, there are ways to eliminate the odors and the ash fallout is quite concerning. Additionally, many other neighbors who have lived in or near our neighborhood for years are</p>	yes
-------	--	-----

29704	<p>I am respectfully requesting the inspection and investigation of toxic Sulfur Dioxide (SO₂) emissions or other ambient toxin gases being released from the subject plant. There has been a general observation of increased odor over the last (2) months for these emissions. Though no official monitoring or measurements have been conducted, enough health related incidents are occurring in the northern part of Lancaster county. Numerous neighborhood chats in the surrounding areas have raised a high-level of concern for human, ecological and environmental impact. Increased residential development and human habitation in the said area will continue to raise the alarm and cry for inspection and active policing of this plant. It is believed commonly believed that self regulation and honor system conduct is not an option for this type of facility. Inaction is not an option and public disclosure regarding compliance is mandatory for the sake of the general community at-large. Moreover, monitoring and enforcement is being requested. We urge for investigation to these claims regarding our emissions concern and ask that you advanced some official public</p>	yes
-------	--	-----

29704	<p>Subject: Excess emissions at the New Indy Cardboard facility at 5300 Cureton Road Catawba SC. I am respectfully requesting for the inspection and investigation of toxic Sulfur Dioxide (SO2) emissions or other ambient toxin gases being released from the subject plant. There has been a general observation of increased odor over the last (2) months for these emissions. Though no official monitoring or measurements have been conducted, enough health-related incidents are occurring in the northern part of Lancaster county. Numerous neighborhood chats in the surrounding areas have raised a high level of concern for human, ecological and environmental impact. Increased residential development and human habitation in the said area will continue to raise the alarm and cry for inspection and active policing of this plant. It is believed that self-regulation and honor system conduct is not an option for this type of facility. Inaction is not an option and public disclosure regarding compliance is mandatory for the sake of the general community-at-large. Moreover, monitoring and enforcement is being requested. We urge for an investigation of these claims</p>	yes
29704	<p>Releasing dangerous emissions Into air. The smell is horrible and there is often ash falling from the sky.</p>	yes

Unknown	You can't even go outside. Its awful and sickening	no
Unknown	They are just never going to stop. You can't even go outside this holiday week. Headaches, sniffles, sore throat its sickening	yes
Unknown	Bad plastic burning smell eyes hurt	no
28173	Horrible smell from the New Indy Plant causing eye and throat irritation and asthma flare up.	yes
29720	Can you believe this, New Indy Container is poisoning us on Christmas Eve. There is absolutely no low New Indy Container won't stoop too. How evil can you be to poison the people of your community on Christmas Eve? Wouldn't you love to follow the money trail to determine which state or federal person(s) are getting paid off to allow this travesty to continue. You totally failed in 2021, but those in my community have high hopes for you in 2022 - just kidding, after your track record in protecting us in 2021, we all know you will fail in 2022. Nonetheless, as we all are forced to breathe this toxic poison, I hope you and your families have a great Christmas.	yes
28173	Terrible toxic smell due to manufacturing practices.	yes
28173	Cant even go outside	yes
Unknown	Strong chemical smell coming from New Indy this morning.	yes

28173	New Indy has been polluting the air for 9 months now. I have children who cry daily because they can't go outside. We are all experiencing side effects from this poison. I am pregnant and terrified of the chemicals I am forced to inhale in my own home. THIS NEEDS TO END. IT IS CRIMINAL.	yes
28173	The paper mill continues to pollute the air for miles around. We cannot keep our windows or doors open. The air smells like a porta potty that is covered over by a disinfectant smell. It's unacceptable!	yes
28173	9:25am. Overwhelming thick chemical stench in the air, irritating to nose and throat. Not safe for children outdoors for recess/PE due to chemical irritant. Please investigate.	yes
29704	Very pungent smelling air has been recorded on Sep 15th and 16th in Cortona Subdivision in Waxhaw City	no
28173	New Indy conatianwrboard is polluting the air with toxic fumes. We are feeling ill. Please help this is a known issue. Our families need help from the toxic fumes.	yes
29704	Smell of rotten eggs polluting the air. Causing shortness of breath and coughing	yes
29704	Smells like sulphate being released into air. Causing dizziness and headache	yes

29704	Horrible fumes in air causing dizziness, nausea. It's been a good week in our area and now feeling sick once again	yes
29704	New Indy is in constant violation of an EPA ruling, dumping tons of chemicals into improperly maintained lagoons. This is leaching foam into the watershed and causing the waft of chemical laden air to cross into several counties and other states (North Carolina).	yes
28173	There was a horrible smell in the air for hours today. Immediately upon smelling it I had burning eyes and throat and started coughing. The air was not breathable for hours today! I could not leave my home without being sick!	yes

28104	Good morning. The New Indy, SC pollution is getting worse and more intense. As soon as there are NNE winds the toxic air reaches our community which is 15 miles from the New Indy Catawba Board plant, SC. The smell gets so strong (like now) that we have to go inside and hope for the winds to change direction. It is very frustrating that we can not enjoy outdoors and are forced to breathe the toxic air. I was very surprised to learn that by EPA calculations New Indy average pollution measurements are within the standards and thus prevent any further action. This goes against common sense. The air gets so heavy and irritating at times that it triggers headaches. This is not healthy. Please help us. Thank you.	yes
28173	Stinks again cannot go outside. My nose and throat are sore. This smell also causes headaches	yes
28173	Hydrogen Sulfide contrast release by New Indy.	yes
28277	Dangerous level of sulfur dioxide being emitted from their operations	yes
28277	Dangerous levels of hydrogen sulfide releasing from New Indy's operations plant.	yes
28173	The air smells like raw sewage. It caused me to get a headache almost immediately upon smelling the air.	yes

29704	Can smell the paper mill 17 miles away in Waxhaw, NC. Smells of rotten eggs.	yes
28173	The smell coming from the New Indy Plant is horrific. It smells like sewage outside my home and is affecting my breathing. I also have a headache. I cannot go outside my home and enjoy fresh air.	yes
29704	Sickening chemical smell everywhere from New Indy Plant in SC. I believe it's located in Lancaster SC. Causing physical ailments.	yes
28173	Strong rotten egg smell inside and outside our home this morning in Waxhaw, NC.	yes
28104	The Hydrogen Sulfide pollution released by New Indy Mill in Catawba, SC is effectively decreasing quality of life for the surrounding communities. Can not stay or sit outside in my own yard. Intentional disregard for healthy environment and human well being. Please help! Thank you!	yes
28173	Smell of rotten eggs has consumed our home and my wife has been getting sick	yes
28173	The odor made me get a severe headache with a nose bleed	yes

28104	Rotten smell outside makes it impossible to stay outdoor. Triggers headaches if exposed to it for a longer period of time. We have a serious health concerns since this regularly reappears based on the wind direction. We also feel very helpless since this has been going on since January 2021 and despite 14000 complaints there is still no action or accountability for effectively destroying quality of living in this area. Please help!	yes
28173	We are experiencing almost daily odor since February that ranges from mild to severe. It penetrates and lingers in our home with windows closed. At worst (as today) it is causing migraines and dizziness. Even when less severe, it restricts our ability to be outside. Also concerned about our pets. Odor starts as sour, rotten egg smell that becomes very strong ammonia; it can be tasted as well as smelled - burns throats and nasal passages.	yes
28173	Horrible rotten egg smell coming from paper mill in SC. We live in Waxhaw, NC and it's happening everyday. The plant is new indy papermill, my wife is sneezing and getting sick plus having trouble sleeping when it seeps in our house.	yes
Unkown	Very Strong sulfur odor in the air from 6:00pm 4/27/21 until this morning. Makes eyes water. Feels like you can taste it.	yes

28173	Very strong smell that smells like rotten eggs. Makes it hard to breath. Makes eyes water.	yes
29720	The same toxic odor that has occurred four times this week	yes

Alleged Violator State	Alleged Violator Zip	Tip/Complaint
South Carolina	29704	Horrible smell of paper mill. Smell It inside house n
South Carolina	29704	The New Indy stench today is the worst in weeks, absolutely choking and gagging. Can't stay outdoors due to terrible stench. Extremely irritating to eyes nose and throat. The must be shut down immediately
South Carolina	29704	https://www.heraldonline.com/news/state/south-carolina/article257097352.html#storylink=mainstage_card6 Today was the worst day since emissions began last February. Odor permeated the house and all occupants were affected. (Coughing, irritated / sore throats / eyes watering, etc.). This has got to stop!!
South Carolina	29704	Ongoing release of stench from New Indy. Typical paper mill odor very irritating to eyes nose and throat
South Carolina	29704	The past two weeks we have been almost constantly blanketed with the obnoxious stench from New Indy. Very irritating to eyes nose and throat. They obviously have no desire to correct their behavior and it is tie to shut them down permanently

South Carolina	29704	New Indy continues to release stench into our air that is very irritating to eyes nose and throat. The odor has been relentless the past week why do they continue to operate with no regard for neighbors, the environment and our health. The lack of oversight is shameful
South Carolina	29704	Ongoing release of paper mill stench from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	Toxic fumes being emitted into the air all hours of the day and night. Causing difficulty breathing, irritated eyes, sinus issues, headaches, difficulty sleeping, other respiratory issues
South Carolina	29704	Severe H2S odor. Eyes watering

South Carolina	29704	Hydrogen sulfide smell mixed with minty urinal cake odor sitting heavy in the air in all of Lynnwood Farms Neighborhood in Fort Mill, SC 29715. Came home from running errands to horrible smell and started developing a headache and ringing ears even though I've never had tinnitus before. Wife also reported onset of headache and ringing in her ears. You (EPA) have to STOP allowing New Indy to dump poison in this area. It is terrible and I'm doing everything I can to find a place out of state to move because I'm tired of being assaulted by New Indy's toxic emissions and we're worried about the long term effects on our health. Shut them down until they can properly handle their toxin release! We've lived here for 15 years and never even new a paper company was in the area until New Indy took over and started their poison for profit scheme.
South Carolina	29704	Ongoing release of paper mill stench from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	The stench from New Indy paper mill has been constant the past 3 days, unrelenting. Very irritating to eyes nose and throat
South Carolina	29704	New Indy stench has lingered nonstop since 8AM
South Carolina	29704	Ongoing paper mill stench in air from New Indy. Extremely strong today and very irritating to eyes nose and throat
South Carolina	29704	Ongoing stench from New Indy. Strong paper mill odors, very irritating to eyes and throat

South Carolina	29704	It continues to smell terrible. Nothing has improved. We tried to enjoy a nice November afternoon outside but had to go inside immediately. This is no way to live. Please protect us.
South Carolina	29704	Stench from New Indy has lingered all day. Paper mill emissions are extremely irritating to eyes nose and throat.
South Carolina	29704	Rotten egg and sweet chemical smell mixed together. Disgusting scent.
South Carolina	29704	Ongoing release of paper mill stench from New Indy. Very irritating to eyes nose and throat. Hydrogen sulfide
South Carolina	29704	Extremely strong and offensive hydrogen sulfide release from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	Ongoing release of stench from New Indy. Very offensive and irritating to eyes nose and throat

South Carolina	29704	Smell observed at 2070 Cuttaw St. Rock Hill, SC 27930 The smell is NOT hydrogen sulfide (rotten eggs); it is a thick, heavy, sweet, sickening "chemical" smell. Please, I beg you, help us who are suffering and getting sick because of these toxic emissions. The smell is overwhelming outside and fills up the inside of the house through closed doors and windows. The toxic are causes immediate headache, burning eyes and nose, nausea and phlegm in throat. Thank you for your help.
South Carolina	29704	New Indy/Resolute is polluting the air with some sort of chemicals. The smell is causing a headache burning nostrils and nausea.
South Carolina	29704	Ongoing release of hydrogen sulfide into air from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	Hydrogen sulfide air pollution, causing sewer gas smell
South Carolina	29704	Strong hydrogen sulfide odor from New Indy gas persisted all day. Extremely irritating to eyes nose and throat
South Carolina	29704	Strong hydrogen sulfide odor in air all morning. Extremely irritating to eyes nose and throat
South Carolina	29704	Overwhelming hydrogen sulfide stench; extremely irritating to eyes nose and throat. Especially intense and irritating
South Carolina	29704	Strong hydrogen sulfide odor from New Indy. Extremely irritating to eyes nose and throat

South Carolina	29704	Strong hydrogen sulfide odor from New Indy in air this morning. Very irritating to eyes nose and throat
South Carolina	29704	Strong hydrogen sulfide from New Indy in air all morning. Extremely irritating to eyes nose and throat
South Carolina	29704	Strong hydrogen sulfide odor from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	Very strong hydrogen sulfide stench in air from New Indy. Extremely irritating to eyes nose and throat
South Carolina	29704	Strong odor of hydrogen sulfide in my neighborhood again today. 12 noon. . 3193 Oliver Stanley Trail, Lancaster, S. C. 29720
South Carolina	29704	Hydrogen sulfide emissions from New Indy are overwhelming. Cannot stay outside because the air is so nauseating and irritating to eyes nose and throat
South Carolina	29704	Extremely acrid emissions from New Indy. Very irritating to eyes nose and throat

South Carolina	29704	There is H2S in the air polluted by this company also called New Indy which is causing itchy eyes, unbreathable air (sewer/rotten egg smell). This is not good for residents staying Indian Land , Fort mill SC. 29707 This will definitely cause land value to go down and Government need to act fast ! Save the residents
South Carolina	29704	Extremely irritating stench of hydrogen sulfide in air from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	Intense hydrogen sulfide odor from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	Unbearable acrid hydrogen sulfide emissions from New Indy. Extremely irritating to eyes nose and throat. Shut them down
South Carolina	29704	Extremely acrid hydrogen sulfide release from New Indy. Shut them down now. The air is not breathable
South Carolina	29704	Strong egg and chemical smell

South Carolina	29704	New Indy hydrogen sulfide stench has been horrible since 7AM. This ongoing disregard for the environment and our health must cease. Shut down that plant today
South Carolina	29704	New Indy stench again. Very irritating to eyes nose and throat
South Carolina	29704	New Indy release of sulfur dioxide into air is quite strong again. Irritating to eyes nose and throat
South Carolina	29704	Overpowering stench from New Indy again this morning. Irritates eyes, nose and throat. Sick of breathing this crap. Shut them down now
South Carolina	29704	Hydrogen Sulfide air contamination
South Carolina	29704	The New Indy stench is so severe that it is impossible to breath outside. Extremely burning to eyes nose and throat. This must cease Shut them down we cannot be forced to continue to breathe in the poison they are putting into our air.
South Carolina	29704	Stench from New Indy is beyond description this afternoon. Extremely irritating to eyes, nose and throat. Shut them down today.

South Carolina	29704	Ongoing release of paper mill stench from New Indy. Very irritating to eyes nose and throat
South Carolina	29704	New Indy emissions are especially rank this morning. Strong acrid sulfur paper mill odor. Very irritating to eyes nose and throat
South Carolina	29704	Engulfing my house and even seeping in to our house through the air conditioner. It is making my family sick with headaches and nausea, even while inside. We are unable to escape the air pollution from this factory.
South Carolina	29704	Terrible sulfur paper mill stench from New Indy this afternoon
South Carolina	29704	Ongoing New Indy stench in our neighborhood
South Carolina	29704	New Indy stinking up our neighborhood again. Disgusting
South Carolina	29704	Ongoing release of stench from New Indy. Shut the plant down now. This is ridiculous that we have to breathe this chemical soup that irritates eyes nose throat. When is the EPA going to do something about this plant? I report day after day and hear nothing from EPA regarding what is being done to shut New Indy down because they could clearly care less about the persistent stench they drench us all with day after day

South Carolina	29704	Ongoing release of stench into air by New Indy. Have reported this many times and their don't care attitude persists. Shut down New Indy now. Their callous attitude makes life miserable having to breath sulfur, rotting cabbage, paper mill stench they dump into the air. Their pollution stinks and extremely irritating to eyes nose throat. Why are they still running?
South Carolina	29704	Ongoing release from New Indy. The stench is sulfur, rotting cabbage, paper mill. Very irritating to eyes, nose and throat. I am sick of breathing their stench and tired of reporting with no resolution. Shut them down immediately
South Carolina	29704	The New Indy stench has lingered all day and this evening is especially obnoxious. Strong sulfur, rotting cabbage, paper mill, acrid Extremely irritating to eyes, nose and throat. This is absurd and they must be immediately shut down
South Carolina	29704	Ongoing release of acrid, sulfur, rotting cabbage, paper mill stench from New Indy. Very irritating to eyes, nose and throat
South Carolina	29704	OnGoing release into air from New Indy. Odor characteristics include sulfur, rotting cabbage, acrid, paper mill. Irritates eyes, nose, throat

South Carolina	29704	Ongoing release into air by New Indy stench characterized by sulfur, rotting cabbage, paper mill. Irritating to eyes, nose throat. Their operation continues to negatively impact quality of life for far too long and must be shut down until corrected
South Carolina	29704	Ongoing release of sulfur, rotting cabbage, paper mill stench into air from New Indy. Irritating to eyes, nose and throat
South Carolina	29704	Ongoing release into air of sulfur, rotting cabbage, paper mill stench from New Indy. Irritating to eyes, nose and throat
South Carolina	29704	Ongoing release into air from New Indy. Sulfur, rotten cabbage, paper mill stench irritating to eyes, nose and throat
South Carolina	29704	Ongoing release of paper mill stench from New Indy. So awful that quality of life impacted. Burns eyes, nose and throat. This release has continued beyond reason. Shut them down until they can correct their behavior

South Carolina	29704	This has been ongoing smelling STRONG odor from the paper mill in Waxhaw, NC. We can not go outside with this odor so strong! Today is absolutely horrible! Please take immediate action to protect the community health and quality of life! We should not have days like this because of a company's industrial production. There has got to be solutions to this odor issue that need to immediately be in place.
South Carolina	29704	Hydrogen sulfide release which can be smelled miles away
South Carolina	29704	Ongoing release of stench from New Indy into air. Sulfur, rotten cabbage, paper mill odors. When is this going to stop. They have had ample time to fix the problem and obviously aren't interested. Shut them down
South Carolina	29704	This company (New Indy) is continuing to pollute our air and potentially our water, even after known EPA and DHEC violations. I have a horrible headache today and sinus burning. Please make them shut down until violations are fixed. It is affecting the health of everyone in this area.
South Carolina	29704	This company (New Indy) is continuing to pollute our air and potentially our water, even after known EPA and DHEC violations. I have a horrible headache today and sinus burning. Please make them shut down until violations are fixed. It is affecting the health of everyone in this area.
South Carolina	29704	Ongoing release of sulfurous compounds into air from New Indy

South Carolina	29704	Ongoing hydrogen sulfide release into air by New Indy Very strong this morning with sulfur, rotten cabbage paper mill odors that are very irritating to eyes, nose and throat. This has gone on far too long. It is clear that New Indy is the source and if they donâ€™t take responsibility to correct their behavior their operation must be shuttered until the emissions can be properly controlled
South Carolina	29704	Ongoing stench from New Indy characterized by sulfur, rotten cabbage, paper mill
South Carolina	29704	Ongoing release into air of strong obnoxious odors characterized by sulfur, burnt rotten cabbage, paper mill. New Indy is responsible for these obnoxious emissions and they must be held accountable and cease the stench release. Emissions are irritating to nose, throat and eyes this morning
South Carolina	29704	Ongoing New Indy stench smelling of sulfur, rotten cabbage, paper mill. Especially strong this afternoon
South Carolina	29704	Ongoing release into air of odors from New Indy characterized by sulfur, rotten cabbage, paper mill stench. Irritating to eyes, nose and throat this morning

South Carolina	29704	New Indy has been stinking up our neighborhood all day with sulfur, rotten cabbage, paper mill malodor. Nose is burning from the stench. Cease and desist!
South Carolina	29704	New Indy continues to intentionally release foul odors with sulfur, rotten cabbage, paper mill characteristics. They are doing nothing to mitigate and do not accept that they are the source of these disgusting emissions. They must be held accountable and correct their behavior
South Carolina	29704	The daily air emissions from this plant makes this of us who live around this plant nauseated and gives us headaches. The smell, which has gotten worse over the past year, permeates the air and even inside our houses (I live ~7.4 miles away from the plant). Please look into this, and ensure the proper equipment is installed at the plant to eliminate the noxious odor.

South Carolina	29704	Ongoing deliberate release of foul odors from New Indyincluding sulfur, rotten cabbage, paper mill. Shut them down if they donâ€™t correct their behavior. Their ongoing disregard for environment and neighbors has severely impacted quality of life and must cease
South Carolina	29704	The ongoing stench from New Indy is overwhelming this evening, odors include very strong sulfur, rotten cabbage, paper mill. This must stop!!!
South Carolina	29704	Severe odor of rotten eggs and sewage in our neighborhood and home in Pineville NC. This is causing symptoms of asthma, headaches, and nosebleeds for me and my family.
South Carolina	29704	Ongoing release of stench from New Indy characterized by sulfur, rotten cabbage, paper mill odors. They must correct this and own that responsibility
South Carolina	29704	Very strong rotten egg smell due to improper waste management and disposal
South Carolina	29704	The stench from New Indy has been with us the entire day ranging in intensity from severe to moderate. The usual sulfur, cooked cabbage paper mill profile

South Carolina	29704	Release of foul odor into air, chemical disposal waste disposal
South Carolina	29704	<p>Since feb there has been an incredible smell of rotten eggs that takes over huge areas as the wind blows it around.</p> <p>Tonight it is covering us at Indian Land sc. It is unbearable, I have a massive headache, my house has no windows open and smells as bad as outside. My nose is hurting. My dogs are pacing around, have runny eyes, sneeze and are not acting normal. This has to be dealt with. It is unbearable. They now release this at nighttime and so many of us can't sleep due to it.</p>
South Carolina	29704	Ongoing release of sulfur, cooked cabbage, paper odors. Have to close up house and avoid outdoor activities
South Carolina	29704	Emitting an extremely strong odor that permeates inside our home. The smell is so strong it causes headaches and eye irritation.
South Carolina	29704	Ongoing release of obnoxious sulfur/cabbage/paper mill odors so intense that cannot remain outdoors. New Indy must own this issue and fix it
South Carolina	29704	Snell of rotten eggs consuming the air outside and inside

South Carolina	29704	The rancid Rotten egg smell from the mismanagement of this company's waste products makes it difficult to enjoy being outdoors. It was particularly pungent early this morning.
South Carolina	29704	Ongoing release of obnoxious sulfur, cabbage, paper mill odor. Often impossible to be outside due to intensity of stench and even worse when the odor gets inside our home. New Indy continues to operate in a manner with complete disregard for their neighbors and are doing nothing to address this issue which has overwhelmed neighborhoods miles from their facility since restarting their operation earlier this year. Completely unacceptable and if New Indy does not correct their behavior the facility must be shuttered.
South Carolina	29704	Ongoing stench from New Indy facility, sulfur/cabbage/paper mill. Especially intense late this afternoon and evening including burning eyes and particulates in air
South Carolina	29704	Horrible and nauseating odor awakening residents in middle of night with rotten egg smell. It seeps into homes that are air tight. Concerned for air and water pollution from this site. Ongoing 2 months.

South Carolina	29704	The smell is overwhelming in the air. As a nurse This is a pollutant and those with respiratory problems especially should not be breathing this in. This pollutant is harmful to us all and I cannot even open my windows. We are tired of it!!!!â€™ Do something about it. We have the right to clean air and comfortable living.
South Carolina	29704	Foul smell has continued intermittently for some weeks in this area.
South Carolina	29704	Thick, foul odor occurring mostly overnight, but strong enough to wake us up and result in headaches and nausea. This has been going on for months.
South Carolina	29704	Extremely strong foul odors that have grown progressively worse and more intense the past few months, odor is sulfur/cabbage/paper mill and quite disgusting. Clearly something has changed in their operation because we have resided here nearly 2 years and have noted the frequent and intense malodor only in recent months, Seems this is an emission that could be controlled with proper scrubbing because it comes and goes

Alleged Violator State	Alleged Violator Zip	Tip/Complaint
South Carolina	29704	Chemical noxious sulfur odor with neighbors and family complaining of sinus issues, eye pain, headache, coughing, breathing difficulty, etc
South Carolina	29704	Severe smell from New Indy plant
South Carolina	29704	Putrid smell from New Indy. This has to stop. PLEASE help!
South Carolina	Unknown	Malodorous atmosphere in the Hanover subdivision.
South Carolina	29704	We are not sure what this smell is. We do not know if it is something being dumped in the Catawba River. We do not know if it is toxic. The smell is strong enough to penetrate the walls of our homes and strong enough to wake you up in the middle of the night. I moved to the Rock Hill area 4/19/2019 and this smell just started around Jan or Feb of 2021.
South Carolina	29704	Very harsh sulfur smell becoming an almost daily event. So strong it s permeating our homes in the greater indian land SC/Marvin NC community. Apparently from this paper mill. We have lived here for 14 years and have never smelled such an odor this strong and frequent. I have told all I wish to disclose and do not wish to be contacted. Please just check into the communities complaints as of recent and you will see the issue. Thank you for your concern in our community.

South Carolina	29730	Every morning for the past two weeks there is a strong sulfur smell from bowater from around midnight until 8 or so in the morning. Since this has started I've seen dead birds in my yard (woods behind house) my sinus have been bad. I've woke up feeling nauseous and my pets are unable to sleep.
South Carolina	29704	Releasing dangerous emissions Into air. The smell is horrible and there is often ash falling from the sky.
